

MADE IN CANADA

Why You Should Use the "George" Shingle

Because it has features not found in any other shingle on the market

The "George" Shingle is:

**Waterproof
and
Windproof**

- It is locked on all four sides.
- It has self-drainable side locks.
- It has the concealed nailing flanges.
- The nails are all covered, they cannot rust or pull out from the effects of the weather.

"GEORGE" SHINGLE—Sizes: 24 x 24 inches.

FIRE OR LIGHTNING CANNOT AFFECT IT

EASILY APPLIED: Hammer, nails and snips are all the tools required

25 "GEORGE" Shingles cover 100 sq. ft., an equivalent area of 1,000 wood shingles. Can be laid much more quickly than any other shingle. We supply "GEORGE" Shingles in 1-4, 1-2 and 3-4 size, so there is no waste in cutting to fit roof to hips or ridge.

For your barns, stables and large buildings use "GEORGE" Shingles for the roof and Pedlar's Corrugated Iron for sides.
