ere dressed as uniformly d supplied with banners. ide the schools were lined lic speaking contest and various schools. Numer- ongs were rendered and ad yells which they gave usiasm.

peaking was particularly tion although only four t, three boys and a girl. rising to see how splendi- lly these boys and girls d if more of the boys and al schools were given the ublic speaking we would any grown-up people who the sound of their own nd girls who enter public ts at school fairs should or difficult subjects. The at Kemptville did so ose a subject of local est, it was something he over and he could go at inesslike manner.

t of the good features of hown by the classes for ework, art, penmanship dy. In these classes, first two, some excellent made.

Know the Tire You Buy

You can't tell the value of a tire by its looks. The unused tire is a riddle. Its sleek and unscarred surface tells no story. Its real value is hidden.

Nor can you tell the value of a tire by its price. The price may be too low. It may not allow of building a good tire. The price may be too high. It may be far above the value you will get.

But there is one reasonably safe indication of a tire's value available to everyone.

That is the service that tire is rendering in general use.

On this basis, we believe you will come to Goodyear Tires.

More Goodyear Tires are used than any other brand. They have received, and are receiving, the most severe test a tire can be given.

If you will talk to men who drive cars, you will find a strong majority for Goodyear Tires. A majority based on this very test of actual experience.

It will probably surprise you how many hard-headed men of your acquaintance are buying Goodyear Tires for the value which is in them.

Ask the Goodyear Service Station Dealer to tell you the experience of the men to whom he sells tires.
