toy a majority of 100 voics.

The appointment of our townsman, Mr. John Page, to the agency of the Galt Nursery, is likely to prove most satisfactory, as that gentleman is eminently fitted for the business and a person in whom the public can confidently trust.

Purchasing cattle and sheep for export is rapidly developing into a very important business. We notice that Mr. G. S. Davidson, of Palmerston, has also entered this speculative field, and is making large shipments from that station.

Mr. John Opper threshed on the farm Mr. John Henry, on the Elma boundary, one day this week, two bushels of fall wheat per minute for one hour. The grain was dry. The machine was from the Woodbridge agricultural works. Who can beat this?

The grove meeting in connection with the Primitive Methodist Church, which was held in Mr. T. McDowell's bush on Sunday last, was very well attended, especially the afternoon services. The peakers were Revok. Moore, of Mitchell, R. Hassard, A. M. Gay, and Mr. Richard Amy, of Pilkington.

The following five pupils of the Listow-el High School have passed the recent Intermediate examination and obtained certificates as under:

Spring Wheat.

Rare Flower.

Persons interested in the study and cultivation of flowers may enjoy a rare treat by a visit to Mr. Page's garden, where there is now in full bloom a specimen of the Japan or Golden Banded Lily (Lilium auratum.) The stalk of this plant is about three feet high; the leaves resemble those of the Orange lily; the flower is from six to eight inches in diameter, seamed with gold, interspersed with crimson dots. There is on the stem six flowers, two of which are now in blossom. The bulb of this plant was procured in Hamilton, and is the only specimen of its kind ever seen in this neighborhood. Mr. Page is an enthusiastic florist, and should be pleased to see an horticultural society formed in this place.

For Manitoulis.

The following gentlemen formed the hunting and fishing party that left here on Monday last for a few days' sport in the neighborhood of the Manitoulin Islands: J. A. Hacking, T. E. Hay, J. C. Hay, J. R. Shields, W. H. Hay, D. J. McCosh, J.R. Grant, Jas. Green, S. Tatham, W. Spaulding, W. Lowry, R. Thompson, John Riggs, W. S. Foster, S. Smith, and H. Schlim. Their line of route was by G.W.R. to Southampton, thence by boat up the lake. They were fully accourted with fire arms, fishing tackle and camping apparatus. We trust they are finding the trip all that they anticipated, and that they will return with well-filled game bags and rejuvenated constitutions.

Coursy of Wellington, has had his commission transferred to the County of Perth.

We understand that a large boot and shoe establishment is shortly to be opened out on Wallace street by a gentleman from Toronto.

A Conservative mass meeting takes place in Stratford this (Friday) evening. The active prosecution of the campaign is now to begin in earnest.

The by-law for \$30,000 in addition to \$50,000 already voted for the Stratford and Huron, was voted on Tuesday in the Township of Normanby, and carried by a majority of 100 votes.

ted for the business and a person in whom the public can confidently trust.

Another hunting and fishing expedition is talked of in town. This time by a party of some eight or ten gentlemen who contemplate an extended trip north yopened.

At a meeting in Hamilton on Saturday, the Canadian Millers Mutual Fire Insurance Company was organized, and a board of directors formed, which includes several of the most prominent mill own ers in the province.

Among the successful candidates for third-class teachers' certificates at the recent examination in Guelph, was Miss Jemima Hassard, of Proton. She has relations in this town, and was formerly apupil at the High School here.

Amency—Mr. John Page has been appointed as agent for the Galt Nursery for Listowel and vicinity, and all orders sent in, and all moneys paid to him for trees, shrubs, &c., will be acknowledged by us. D. Caldwell & Sos, Galt.

port is rapidly developing into a very important business. We notice that Mr. Gr. S. Davidson, of Palmerston, has also entered this speculative field, and is making large shipments from that station.

FLAX has been coming in during the present week in considerable quantities, though the amount grown in this section is little more than half of what it has been in former seasons. The crop is but a medium one, the hot weather having been detrimental, especially to the seed, which was more or less blasted while developing from the blossom. About \$11 per ton, we believe, is the price being paid for it at Messrs. Livingstone's mills.

HIG Threshing.

Mr. John Upper threshed on the farm Mr. John Henry, on the Elma boundary;

An unfortunate accident occurred in town on Wednesday morning whereby Mr. Vandusen, a mechanic from Woodstock, had his leg badly broken. He, in company with a fellow-workman, was engaged in tuck pointing Mr. Craig's new house on Penelope street, when the temporary scaffolding upon which they were working, gave way, and precipitated both men to the ground, a distance of ten or twelve feet. In alighting, Mr. Vandusen must have turned his foot beneath him, as the force of the fall caused a compound fracture of his right leg immediately above the ankle. The break was a bad one, the bones being driven out through the skin. The services of Drs. Dillater of t above the ankle. The break was a bad one, the bones being driven out through the skin. The services of Drs. Dillabulance and Maryborough is badly infected by the midge. Many farmers declare that they will not have twenty bushels where there ought to be a hundred. Some of it is also very much straw-broken, and great difficulty is experienced in cutting it with either cradle or reaper.
