THE AMENDMENTS WE NEED.

Our Victoria special yesterday morning gave some of the leading features of the amendments to the mineral act proposed by Mr. Smith. One or two of these are to be especially commended. Mr. Smith proposes to abolish the \$5 license now exacted from men who work in mines. We have always regarded this as a burdensome and unjust tax. There is no good reason for placing the miner who works for wages on the same basis as the prospector who goes out to take up mining claims or the man who proposes to work mines or to deal in mines. The laboring miner has nothing others mentioned have the chance of ably begin his enforced confinement in a few otherwise turn to account the property, rights, great profit.

Another excellent feature is the enabling of miners to purchase the surface rights of their claims at \$5 an acre, no matter whether the land is held by the crown or a railroad company. If such a trict. Where located: About 16 miles from Kaslo provision had always existed a great deal of trouble would have been saved and much injustice prevented.

We trust the legislature will see its way to adopt these amendments as well And further take notice that action, under secas the others embodied in Mr. Smith's of such certificate of improvemets. bill. It appears to be an excellent 4-8-10t measure and one which will meet with a hearty response in all the mining dis-

EDITORIAL NOTES.

THOROUGH cleaning up all around town is about as urgent a matter as any to which the city council can turn its attention. It is a scheme of improvement which can be put into effect at once. It requires no engineer's report and no expensive paraphernalia to be obtained from the east. All that is required is an active and intelligent sanitary inspector.
