NOTICE.

When a newspaper offers its advertising space at a nominal figure, it is a practical admission of "no circulation." THE KLONDIKE NUGGET asks a good figure for its space and in justification thereof guarantees to its advertisers a paid circulation five times that of any other paper published between Juneau and the North Pole.

LETTERS.

And Small Packages can be sent to the Creeks by our carriers on the following days: Every Wednesday and Saturday to Eldorado, Bonanza, Hunker, Dominion, Gold Run, Sulphur, Quartz and Canyon.

FRIDAY, JANUARY 11, 1901.

THE NORTHERN TRADE.

Another fine new steamer will be placed on the Seattle-Skagway run early in the coming spring. This fact indicates that the first named city is determined to do its utmost to maintain its trade with Dawson in spite of the duties which must be paid on imported goods.

The trade of this town which means the trade of the territory at large, naturally belongs to Vancouver and Victoria. With the advantage of the bonding privilege through the small strip of Alaskan territory, between Skagway and Bennett, there is no reason why the cities of British Columbia should not control the lion's share of Yukon trade, were they but alive to their opportunities.

The strongest influence in favor of Seattle's continued strength as a competitor for this trade is the superior transportation facilities which that city possesses. Several swift lines of steamer ply between the Sound metropolis and Skagway, and if the demands of traffic require greater accommodations, the same are invariably forthcoming.

Scarcely a day passes but some steamer from the north arrives at or departs for Seattle and it is that knowledge which induces many people to make their purchases for this country in that city.

The U. S. assay office has also been an important factor in directing the trade of Dawson to Seattle. Most of the gold taken from the Klondike district in the past three years has been sent to that office, and naturally where the gold goes there is the trade. A little more energy displayed by Victoria and Vancouver would help those cities out wonderfully in securing their share of the northern business.

They should look to their transportation facilities and interest themselves more strongly in the matter of establishing an assay office in Dawson. They have a competitor which is wide awake, and which is looking closely and successfully to its own laurels. The earlier these facts are realized the better it will be for the future of those cities.

The Jack Wade country will experience a substantial boom during the coming summer according to all reports which have recently come from that district. Engineers who have made the overland trip state that the Jack Wade country might easily be made tributary to Dawson by constructing a trail. It would add materially to the aggregate of business transacted in Dawson if this town could be made the point of supply for that section of the country. As the crow flies the diggings on Jack Wade are much nearer to Dawson than they are to the town of Fortymile.

Independents in Montreal are urging separation from the mother country and the establishment of "the United States of Canada." Considering the progress that has been made in the scheme of imperial federation since the outbreak of the Boer war and the enthusiasm with which Canada contributed her share of men and money in the prosecution of that struggle it would appear

that the Independents are at rather a bad time for the realization of their hopes.

Chicago now rejoices in a corner on beans. Two or three years ago that fact would have been of more than passing interest to the average Klondiker, but in these days of chechako spuds and fresh cow's milk, beans, be they brown or white, have fallen from their high estate and are now consumed only on occasion and not as a tri-daily staple. Chicago may corner all the beans in the market and the Klondike will still live.

The Yukon council is in a bad way for funds. Expenses of all kinds are cropping up and the wherewith to meet them is not in evidence. What the council should do is to secure the services of the financial experts who spoke at the incorporation meeting on Monday night.

Woes of the Married Man.

"I say," said a friend the other day, "you are an old hand at it. I have only just got married and don't understand much about the business. I should like to know whether a married man has any rights left when he takes unto himself a wife?"

"Rights! Yes, lots. He has a right to pay all the bills."

"Stop! I mean this: Let me give you an instance. Every box, every chest of drawers and portmanteau, and, in fact, every available receptacle of every description, is stuffed full of my wife's property, and when I want to put away a few cuffs and collars"

"Hold hard. I know what you mean. Listen, young man. If your bed-room were 200 yards long, lined from the floor to the ceiling with shelves, and you wanted a place to stow away a couple of shirts, you couldn't find a nook that wasn't full of hairpins, scent bottles, pieces of ribbon, artificial flowers, little bits of tape and buttons galore, with pins and needles thrown in, so just accept the inevitable. Wrap your personal property in an old newspaper parcel and hide it under the bed."

He grinned ironically, but passed on a sadder and wiser man.—Ex.

Turmoil on West Coast.

Manila, Dec. 25.—Advices to the Associated Press from the island of Leyte show that there is still considerable turmoil on the west coast, but that the east coast is quiet, the leaders having retired to the mountains. Lieut. Frank B. Lynch and three men of the Forty-fourth volunteer infantry, were wounded near Ilongos on the west coast. Two men of Company L, Forty-third volunteer infantry were killed, and three of Companies L and E, together with Lieut. Lewis H. Leaf, were wounded December 13 near San Miguel, north-western Leyte.

No decided results have yet been secured by the 2000 United States troops distributed among the coast towns of Samar.

Scranton Strikers Score.

Scranton, Pa., Dec. 25.—Owing to the successful work of the scouts of the striking car men, ten of the thirteen men from Syracuse, N. Y., to take their places were sent home today, and two others were induced to quit and agree not to go back to work. One of them was willing to leave town, but refused to accept money from the strikers. He said he would walk every step to Syracuse rather than take money out of the strikers' treasury. He said also that he was told that there was no strike here, and that if things were not satisfactory when he arrived here he would be furnished his fare home.

Only two cars were run in the whole country today. One of these, on which Superintendent Patterson was motor-man, ran off the track at 11 o'clock, and was so badly damaged that it had to be taken to the barn. No other car was sent to replace it, and at 1:30 the other of the two cars was taken in and housed.

Thirty-one men arrived tonight from New York city to take the places of the strikers, but 17 quit at the railroad station at the solicitation of the strikers' scouts and promised to go back to New York. They say they were recruited through advertisements in the papers to come to Scranton to work on a new road, and that none of them had any idea there was a strike in progress here.

Cyrus Noble whisky. Rochester.

CURRENT COMMENT

"Many people toughen and spoil the flavor of caribou steak by not cooking it properly," said a housewife famous for her cooking. "I find that the same meat which, put in the pan when frozen, comes to the table tough and unpalatable, is juicy and tender when thawed out over night and fried quickly over a hot fire. The same can be said of any kind of meat. The reason lies in the fact that frozen meats, if allowed to thaw while cooking will not form the crust which is essential in retaining the juices of the meat."

"Women are peculiar and I never could quite understand them, in fact there are very few men who do. I knew a man once, however, who knew more in a minute about femininity in general than most men could learn in a life time." The speaker was Harry Hershberg. "I have seen a string of women in line two blocks in length waiting for Chester Cleary's store in Seattle to open on the morning of an advertised bargain sale. Policemen had to guard the place and keep order, for the women would actually grab articles out of the hands of each other and fight for position at the counter. The strange part of it all to me was the fact that only a few cents could be saved on some special stuff, which was soon sold out, but the excitement continued long afterwards and almost anything with a sale day price on it was eagerly purchased."

"I don't have to worry anymore about shortage in any line of merchandise I handle," said Shindler. "Just as the market is cleaned out on any line along will come some trader from Whitehorse with the very thing I most need. Only yesterday a man came in here with a stock of marten traps, the last thing in the world you would expect anyone to bring in over the ice. You see they find out by wire what is needed and purchase accordingly."

The following conversation was heard in a butcher shop: "He is the meanest and most hypocritical cuss I ever met. You bet I know him, I loaned him money and gave him credit to go into business; so the other day I called on him to help me out. Here is what he said: 'Certainly! Certainly! Why, my dear boy, to be sure I will. My wife unfortunately is out just now and as she has several thousand dollars with her I will tell her to give you the necessary amount. You can have any amount, my dear friend, any amount. Be sure and call promptly at 1 o'clock. I will esteem it a personal favor.' At 1 o'clock I unexpectedly overheard the following: I promised to loan \$5 to a man but I find he is not up to my expectation as a gentleman I fear he is worthless. Cut him out. Refer him to me. Tell him I am in my private chamber and cannot be disturbed.' Then those malcontents smiled knowingly and admiringly at each other. "I see you know him," said the butcher; "that sounds just like him."

"My little girl came very near having her eye put out yesterday," Mrs. Goetzman was heard to say. "A boy threw a frozen slice of bread at her which struck her in the face, making an abrasion on the child's eyeball, which nearly blinded her. A little while ago another boy knocked her down and a nail which protruded from the sidewalk penetrated her hand. Both accidents were caused by grown children at the high class of the Mission street school who are very boisterous and given to rough play. I have complained to the teacher who promises better conduct from the pupils in future."

Salt in the Blood.

Chicago, Dec. 25.—The Record tomorrow will say: Experiments on turtles have convinced Dr. Jacques Loeb and Prof. D. J. Lingle, of the University of Chicago, that common salt in the blood makes the heart beat. What is more, they claim that not only does salt keep the heart in action, but that it may possibly cause the heart to beat again after it has once stopped.

For several months Dr. Loeb and Prof. Lingle have been experimenting to secure the necessary result to prove their theory. They have conducted a series of delicate scientific tests bearing upon the pulsation of the heart and today made public the announcement that the results they obtained had verified beyond a doubt their theory that the presence of salt in the blood caused the beats of the heart.

Elegantly furnished rooms with electric lights at the Regina Club hotel.

Any kind of wine \$5 per bottle at the Regina Club hotel.

Fresh carrots and turnips at Meekers'. Fine line of 25c goods. Rochester. Go to Denver market for fresh meats and vegetables.
