SEMI-WEEKLY early, in advance....

When a newspaper offers its advertising space at a nominal figure, it is a practical admission of circulation." THE KLONDIKE NUGGET as THE KLONDIKE NUGGET asks a good Agure for its space and in justification thereof ntees to its advertisers a paid circulation five times that of any other paper published between Juneau and the North Pole.

And Small Packages can be sent to the Creeks by ow corriers on the following days: Every Wednesday and Saturday to Eldorado, Bonanza, Hunker, Dominion, Gold Run, Sulphur, Quartz and Can

SUNDAY, MARCH 24, 1901.

From Saturday's Daily. A STRONG TRIBUTE.

The United States congress has now under consideration a number of important amendments to the mining laws of Alaska which will serve if passed to simplify many of the difficulties which now beset the miner in that THE NEWS territory.

First in importance in the list of proposed amendments is a regulation limiting the use of powers of attorney. Heretofore, it has been possible for single individuals under existing laws to locate an entire creek. Armed with pockets full of powers of attorneysome times legal and not infrequently fraudulent, entire districts have been located by a few men and the legitimate prospector entirely shut out from obtaining a claim. In this manner hundreds of square miles of mineral steamers in question, I think the truth sah, will not stand for it. I believe in lands in Alaska have been tied up for speculative purposes, and the development of the territory has received an indefinite set back.

The chief witness before the congresof the mining regulations in charge was Mr. Samuel C. Dunham, who has spent the greater part of the last four bureaus. Mr. Dunham made an exhaustive statement before the commitother equally important matters. Mr. were towed round. As to their success mance. Heah, thah, bring me a whisky Dunham suggested to the committee the adoption of a set of mining regulations similar to those now in force in freight. As to mismanagement, finanthis territory.

In this connection he made the following statement which appears as part of the congressional record published on the 23d of last month: "I am mining laws for Alaska similar to those prevailing in the Northwest territory to make them. I submit tor the consideration of the committee the Canadian regulations governing placer mining in the Klondike."

This is perhaps the strongest tribute that ever has been paid to the laws now governing the industry of placer mining in this territory. It is an opinion from a disinterested source and from one whose natural inclination would be up 'phone 52. Cascade Laundry. in drawing comparisons to give the preference to the laws of his own country. The Nugget commends Mr. Dunham's statement to the consideration of those who may still be of the opinion that the laws of Alaska are better adapted to the protection of the miner and prospector than are the laws under which the Yukon territory is governed.

TIMBER RIGHTS.

Attention is directed to the opinion of Assistant Gold Commissioner Bell covering the matter of timber on hydraulic concessions. It is Mr. Bell's opinion that owners of claims in the vicinity of such concessions are entitled to make use of timber thereon actually required for placer mining

This opinion is good, straight com-

aspect of the matter may be, although it is altogether probable, as Mr. Bell suggests, that the courts will sustain the view of the matter which he has taken. The regulation covering the point is a broad one and certainly contemplates that the individual miner shall have all the timber he requires for the prosecution of his work.

The opinion of the assistant commissioner will be received with general satisfaction.

Andrew Carregie is continuing the good work of distributing his millions of money in the good cause of establishing public libraries. When Mr. Carnegie is through with his work he will have built a monument to himself more enduring than ever was construct ed of iron or stone.

The story printed in the News re specting the steamers Lowe and Pingree is on a par with the average contents of that paper. The News never gets anything right if it is possible to get it wrong. Once in a while and then only by accident it may stumble on to the facts in a given case. But such instances are extremely rare.

CALLED DOWN

Another Chance for the Explanation Editor.

Dawson, March 22, 1901.

Editor Nugget: A more misleading article I never read than that which appeared in the marks upon the superstititon of steamin '99, they made 12 round trips, carry- toddy." ing a very large number of passengers and were on each passage down full of cially, I know nothing. Last year, so the News informs us, the Bonanza King succeeded in making two trips, the Eldorado but one and a half. This is quite untrue; the Bonanza King made seven full trips and the Eldorado seven strongly in favor of the adoption of and a half. These boats did not leave Dawson until late in the season owing to the loss of some stores crossing Lebarge over the ice, and the boats not nd British Columbia. The mining having been put in the water until late laws for the Klondike region are per- in consequence. The Eldorado left haps as nearly perfect as it is possible Dawson first trip on July 3d and the Bonanza King July 12th.

This information can be obtained the writer of the article did not know it. Yours faithfully,

W. S. FRENCH.

WEEK WAIT FOR OUR OPENING

A CONTRACTOR OF THE PARTY OF TH

Guess When the Ice Goes Out.

It will not be many more weeks before the icy fetters which bind the waters of the Yukon will be torn away and the welcome shriek of steamboats will reverberate from the surrounding hills. While we are anxiously awaiting that happy day let us have a little harmless amusement. Make a guess when the river will open. Everybody is welcome to compete.

To the one coming the closest to the exact time when the ice goes out we will give a Stein, Bloch & Co. Tailor-Made Suit of Clothes, a New Hat, a Pair of Shoes, a White Shirt, Two Collars and One Pair of Cuffs and a Necktie. All of these to be chosen by the winner from the highest-priced goods in our store.

Alf you have to do is to drop your guess in our Guess Box at our store or send it in to us. We will make a guess: We guess that the river will open on May 6th at 8:05 a. m.

NEWS RESERVED TO THE PERSON OF THE PERSON OF

saloon keeper last night, "the news property formerly owned by the merabout the royalty being reduced is a chant the issue at stake. The once When the order to close gambling was made I fully believed the governsoon, but when remonstrances against baker who had nothing to lose, is still the order were fired in by the dozen I rather suspicion that Sifton reasoned thusly: 'Now, those people in the Klondike don't want to pay royalty, but they are dead 'sot' on gambling, dancing and box rustling and if they prefer the latter trio of iniquities to the reduction of royalties, well and good, but I can't allow them to gamble, dance, rustle boxes and only pay half the usual royalty. That would be too much of a good thing and the Yukon is not accustomed to getting good things in flocks.' "

> There is one man in Dawson who wishes he had never heard of courts and law. There may be others but the Stroller knows of one in particular.

> A year ago this man was a prosperous merchant in a small way. The voice of the turtle dove was heard in his heart and a feeling of "on earth peace, good will toward men" pervaded his anatomy from end to end. He owned his building and the grocery stock therein and the pit-pat of his feet could be heard as he trotted the smooth surface of prosperity's boulevard.

In an evil hour the man of steady business was approached by a journeyman baker who had no money but a from the customs house but perhaps good excuse. The baker got to the ear of the merchant and poured therein a story of how tin cans full of gold could be made by annexing a bakery to the store. The plan looked feasible and together the two men repaired to the beach where they purchased a scow which they shattered and used in the construction of the bakery adjunct. One day as the structure was nearing completion the baker made some remark about "our building" and "our business" to which the grocer demurred and referred to it as 'my building" and "my business," claiming to have only added the building for the purpose of giving the baker employment

Then the baker ate some yeast which caused his wrath to rise and there was forthwith a quarrel which terminated in the baker mushing off to police court and suing the grocer for \$137 alleged to be due for labor performed and serivces rendered in the construction of the building .. Judgment was awarded the dough artist in the lower court from which an appeal was taken. an array of legal talent having been enlisted on both sides. The case assumed proportions and expenses were piled up like an Egyptian pyramid. The merchant's store and all his property was turned over to the attorneys who are now scrapping as to who will get the

> The following is from the Vancouver Province

> "They're telling a good story on P. R. Ritchie up in Dawson," remarked a popular prevaricator who has recently returned from the Yukon country.

"You see, Mr. Ritchie is a great Scotchman and some of his triends in the old country who know how to delight him sent him out a genuine haggis for consumption on the anniversary of Bobby Burns' birthday. The haggis of Bobby Burns' birthday. The haggis the reply, 'but they found out the came in by express over the ice and of difference between conglomerate and course arrived in Dawson frozen as hard real Scotch haggis. It was rather a sa rock. The package was damaged a bad thing for the assayer too, for the as a rock. The package was damaged a little when it was delivered and as Mr. Ritchie was away at the time, and sense of the term, and he had the assa no one knew what the thing was, they office closed up for two weeks.

"It happens," continued the popular prevaricator, "that Mr. Ritchie is in. terested in a number of conglomerate propositions in the Indian river dis-

sent in from Indian river, he said, and it must be pretty good or they wouldn't have gone to such trouble? So he broke the haggis up with a sledge hammer and examined piece of it with a magnifying glass. He saw gold all the way through, so he hurried down to Maurice Marsden's to get it assayed. The assayer saw that it was a good thing too. He heated one of his big crucibles white and dropped th

haggis in."

The popular prevaricator paused, puffed at his cigar a little and then laughed a short laugh. 'What happened?'' asked one of the listeners

Well, no one exactly knows," was health officer, Dr. McArthur, got wind of the affair, in the absolute literal
