CANADA'S GIFT TO THE TWELVE NATIONS

No doubt now that Canadian Farmers are to be Exposed to the Competition of all the Great Food Exporting Countries of the World.

From the Canadian Century

When it was first made known that the Reciprocity Compact not only gave American farmers free entrance to Canadian markets and extended the same privileges to the United Kingdom and the British colonies, but also opened the door wide to the Argentine Republic, Austria-Hungary, Russia, Spain, Norway, Sweden, Denmark, Switzerland, Japan, Bolivia, Columbia and Venezuela, Canadians in general thought there must be some mistake. They could not believe that without getting any concessions whatever from any country except the United States our Government would admit farm products from all those countries into Canada to compete freely with Canadian farm products. The wording of the Reciprocity Agreement was very plain; there seemed to be no doubt about its meaning; and yet it was such an extraordinary arrangement, so unfair to Canadian farmers, and so likely to lead to disputes with the American customs officials that many people believed that the Government would give some explanation showing that the agreement had been wrongly interpreted. However there is no longer any such hope. Mr Robert L. Borden questioned Hon. Mr Fielding on this point and Mr Fielding admitted that the Reciprocity Agreement meant exactly what it appeared to mean and that Canada would get nothing whatever in return from any of the

twelve foreign nations or the British countries that share with the United States the privilege of sending their farm products freely into the Canadian market.

If the Reciprocity Compact simply provided for free trade in farm products between Canada and the United States there might reasonably be difference of opinion as to whether it would be advantageous to Canadian farmers or not. We think that even such an arrangement would have been a bad bargain for Canadian farmers, because the surplus of farm products in the United States is enormously greater than the surplus of Canadian farm products, because the farming season is earlier and longer in the United States and because our farmers would always be at the mercy of the tariff legislation of the United States Congress, while they would have no voice in the election of Congress, but still there would be room for argument as to whether our farmers would gain enough by admission of their products to United States markets to compensate them for losses in the home market; but from the farmer's point of view nothing can be said in favor of allowing twelve foreign nations and the food-exporting British colonies to send their farm products freely into Canada without giving our farmers anything to compensate them for this unexpected competition in the Canadian home market.

Which is Your Choice?

Stumpy, leaky wooden troughs, or clean, durable Concrete?

Wooden drinking troughs are about as reliable as the weather.

They are short-lived and require replacing every few years—not to mention continual patching to keep them in repair.

The best of wood cannot withstand, for long, constant dampness and soaking. Its tendency to rapid decay soon shows itself in leaks and stagnant pools of water around trough.

Contrast with this the durability, cleanliness and well-ordered appearance of Concrete.

Which?

The dampness which destroys lumber only intensifies the strength and hardness of Concrete.

You can impair a wooden trough with comparatively little use; but it takes a powerful explosive to put a Concrete water tank out of business.

Which

is your choice—expense-producing Wood, or money-saving Concrete?

We'd be glad to send a copy of our book, "What the Farmer Can Do With Concrete."—Free—if you'll ask for it. It tells the many uses of Concrete in plain, simple language—tells how to make

A Narrow Escape

Kingston, March 17—Alva James, traveller for the Kingston Milling Company, was severely injured yesterday morning near Coteau by being struck by a Grand Trunk train while driving across the tracks. Twice he narrowly escaped death by falling under the wheels. The fact that he wore a fur overcoat, which caught in the cow-catcher of the engine, saved him when he was struck, and then when his coat which had been holding him up, gave way after supporting him for about 250 yards, the train had come to a stop. Two fractured ribs, several severe bruises, and a bad shaking up are his injuries. He was brought to Kingston and is now doing well.

PRINCIPALLY FASHIONS

What a good time the Puritan ladies missed by having such small varieties of styles to choose from. Of course, there are only one or two gowns to be chosen, but wouldn't the feminine heart be grieved if there were no bewildering array from which to choose. What would there be to argue over if each member of the family and each friend did not make a difference of selection as positively the most fetching?

Surely Canadian Home Journal readers must be having an enjoyable time with March number, the "Spring Fashion" number. There is page after page of charming ladies wearing most attractive garments—one piece, two piece, three piece and four piece—all number of gored skirts; tailored suits, morning gowns, afternoon gowns, tea gowns, coffee gowns and chocolate gowns. The misses and youngsters are by no means neglected—all the way down to the toddling tots. This spring fashion display, so much better than any before given, is further proof that the journal has a permanent place among the foremost women's magazines.

Though so strenuously a "Spring Fashion" number, there is much else to interest the gentle readers, if they are not utterly absorbed in styles. An account of the Business Women's Club of Toronto, a union of self supporting women for purposes of study, society and recreation. Who can foretell what a prominent part this club may play in the political, as well as social life

of Canada in the next decade? There is gardening chat, music, household suggestions, cooking, home decoration, entertainment suggestions and poetry; and we must not neglect to mention the fiction—excellent short stories and serial. The rapid development of the Journal into a magazine of such admirable quality has been very pleasing to us, as it must be to all Canadians.

FALLING HAIR

Stop it in Two Weeks—Ask Any Leading Druggist About **Salvia Hair Tonic**

Hair falls out because the dandruff germs dig into the hair roots and sap them of their vitality. They appropriate the natural nourishment that supplies life and lustre to the hair.

To stop falling hair you must kill the germs. SALVIA is guaranteed to kill dandruff germs, banish dandruff, stop falling hair and itching scalp or money back. If your hair is thinning out, SALVIA will promote a new growth. Clever women use it because it makes the hair brilliant and beautiful, and is not sticky or greasy. Large bottles 50 cents.

PHOSPHONOL
(The Electric Restorer)
MAKES WEAK MEN STRONG

PHOSPHONOL restores every nerve in the body to its normal tension. Nerves that have been dormant for years will vibrate once more with vigor. Two boxes of PHOSPHONOL have been known to make weak men feel as they did at eighteen.

Weakness is converted into strength where PHOSPHONOL is used; premature decay is impossible; sexual weakness is converted into strong manhood, both physically and mentally.

PHO-SPHONOL is your medicine, regardless of your condition or age. PHOSPHONOL is a new remedy, prepared upon purely scientific principles by expert chemists. It produces results.

PHOSPHONOL promptly dispels all forms of nerve weakness, such as lack of control, twitching of nerves and muscles, despondency, mental worry, indecision, weak heart and impoverished blood.

"THE BEST OF ALL THE CHARITIES."

Will you help it in? His Heart of Need...?

THE HOSPITAL FOR SICK CHILDREN

COLLEGE STREET, TORONTO

Appeals to Fathers and Mothers of Ontario on behalf of suffering children. This institution did more work in 1910 than ever before. Total In-Patients 1,224. Out-patients, 783 from the city and 441 from the country.

Since its organization, the Hospital has treated in its cots and beds 16,837 children; 12,370 of these were unable to pay and were treated free.

There were 60 cases of club feet corrected last year.

THE HOSPITAL IS A PROVINCIAL CHARITY.

The sick child from the most remote corner of Ontario has the same claim as the child living within sight of the great House of Mercy in College Street, Toronto. One cause is the children's cause. Could there be one that has a stronger claim on the people of this Province?

Perfect results in Harelip cases. 18 infants were relieved of this terrible deformity last year. If the Hospital is to continue its great work, it must appeal to your pocketbook as well as to your heart. Let your Dollars be messages of mercy to the suffering little children of Ontario.

Please send your contribution to J. Ross Robertson, Chairman, or to Douglas Davidson, Secretary-Treasurer, The Hospital for Sick Children, College St., Toronto.
