A Friend to Women.
What most women require to make them strong and healthy, and to restore good complexion and well rounded form is more blood, more rich, red blood, such as is added to the system by the use of Dr. Chase's Nervine. Headache, indigestion and the weaknesses and irregularities which accompany exhausted nervous system disappear when this great restorative treatment is used.

Cure for Whooping Cough.
Mrs. Wm. Hill, Brockbridge, Ont., writes: "My three boys had whooping cough and we could get nothing to help them until we used Dr. Chase's Whooping Cough Cure. It cured the cough at once and they kept on improving until they were cured at the cost of one dollar. This was not a large bill for so dangerous and distressing an ailment."

A small woman travelling with her son—a boy very large for his age—handed the conductor a half-fare ticket and a whole-fare one. The conductor scrutinized the boy critically, and said: "But, Madam, I can't pass this boy on a half-fare ticket. He is very large and has long trousers."
"Very well," replied the woman, "use the whole ticket for him and the half for me."

Diogenes, lantern in hand, entered the village drug store. "Say, have you anything that will cure a cold?" he asked.
"No, sir, I have not," answered the pill compiler.
"Give me your hand!" exclaimed Diogenes, dropping his lantern. "I have at last found an honest man."
A matron of the most determined character was encountered by a young woman reporter on a country paper who was sent out to interview leading electors as to their politics.
"May I see Mr. —?" she asked of a stern looking woman who opened the door at one house.
"No, you can't," answered the matron decisively.
But I want to know what party he belongs to," pleaded the girl.
The woman drew up her tall figure. "Well, take a good look at me," she said. "I'm the party he belongs to!"

Origin of the Opera.
In one sense the opera is one of the oldest forms of entertainment, for its origin is to be found in the old Greek drama. In its modern sense, however, it dates from the year 1600, when Peri produced the first true Italian opera to grace the festivities of the marriage of Henry IV. of France and Marie de' Medici. The work attracted great attention, and many Italian nobles figured in the cast. In France the opera was the outcome of the ballet and in England of the masque. Purcell is entitled to the honor of producing the first real English opera, although one of Ben Jonson's masques was set to music as early as 1617.

The footprints of Hyppocampus have been directly traced to the stomach nerves. When these "inside nerves" fail, indigestion and stomach distress surely result. For this, druggists everywhere are supplying a prescription known as Dr. Shoop's Restorative. First, these tiny inside stomach, heart, and kidney nerves fail. Then gas belching, heart palpitation, or falling kidneys follow. Don't drag the stomach, or stimulate the heart or kidneys. That is wrong. Strengthen these falling nerves with Dr. Shoop's Restorative. It is the nerve, not the organs that are ailing for help. Within 48 hours after starting the Restorative treatment, you will realize the gain. A test will tell. Sold by A. V. Rand.

Cleaning a Well.
Before going down into a well test the purity of the air by lowering a lighted candle or lantern. If the light burns dimly or goes out the poisonous carbonic acid gas "damps" can be driven out by igniting a quantity of turpentine and sawdust of kerosene and rags in a kettle and lowering it to the surface of the water, and then later pour several bucketfuls of water into the well from the top. Test again with the lantern and note the improvement. We want our folks to be on the safe side.—Farm Journal.

It was at a little northwest town in New South Wales. A traveling Englishman stood on the veranda of the public house watching the sun go down across the Black Sul Plains in a splendor of purple and gold.
"By Jove," he exclaimed to an impassive bushman who was lounging against a post, "that's gorgeous, isn't it?"
The bushman slanted his head a little and looked critically at the glowing west. "Not bad," he drawled. "Not bad—er a little place like Boggabri."

A clergyman, who was not averse to an occasional glass, hired an Irishman to clean out his cellar. The Irishman began his work. He brought forth a lot of empty whiskey bottles, and as he lifted each one looked through it at the sun. The preacher, who was walking on the lawn, saw him and said:
"They are all dead ones, Pat."
"They are!" said Pat. "Well, there is a good thing about it—they all had the minister with them when they were dying."

The Fanatic.
If a man gives himself to money-making or to the pushing of business plans and drive it year in and year out, he is a very enterprising fellow. If he carries away with political partisanship, he is a wide awake citizen. If he lives for pleasure, and purchases it recklessly day and night, he may be called a "little fast." But if he is in dead earnest in his purpose to honor Christ and to save souls, then he is a "religious enthusiast," or a "fanatic."—H. Clay Tombl.

TUMOR OF YEARS GROWTH
Removed by Lydia E. Pinkham's Vegetable Compound
Winnipeg, Man.—"Eleven years ago I went to the Victoria Hospital, Montreal, suffering with a growth in the uterus. The doctor said it was a tumor, and could not be removed, as it would cause instant death. They found that other organs were affected and said I could not live more than six months in the condition I was in. After I came home I saw your advertisement in the paper and commenced taking Lydia E. Pinkham's Vegetable Compound. I took it constantly for two years, and still take it at times, and my husband and myself claim that it was the means of saving my life. I highly recommend it to suffering women. Mrs. OBELLA BRADLEY, 255 Main Street, Winnipeg, Manitoba."

One of the greatest triumphs of Lydia E. Pinkham's Vegetable Compound is the conquering of woman's dread enemy—tumor. If you suffer mysterious pains, inflammation, ulceration or displacement, don't wait for time to confirm your fears and go through the horrors of a hospital operation, but try Lydia E. Pinkham's Vegetable Compound at once.
For thirty years Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has been the standard remedy for female ills.

Another "Sunshine" Feature
This is an entirely new idea, and will especially interest people who reside in natural gas districts. The gas ring takes the place of the lower Sunshine fire-pot, thus making it possible to burn gas in your furnace without inconvenience. Such is not possible in a furnace where the ordinary gas log is inserted; for should the gas give out, a coal or wood fire could not be started until the gas pipes were disconnected.
To provide against freezing in the winter time, Sunshine Furnace is equipped with a nickel-plated steel radiator and dome. All bolts and rivets are nickel-plated, and the copper-plated. This special treatment, besides meaning quicker and greater radiation from the radiator and dome that cold still iron could possibly give, acts as protection for the bolts, rivets and rods from iron rust of gas. When cast iron comes in contact with our nickel-plated steel it is coated with our special Anti-Rust treatment, which prevents the slightest possibility of rust, commencing anywhere in Sunshine Furnace.

Father Morrissy's "No. 11" Cures Stomach Troubles.
When your stomach is working right you never know it is there. But when it feels as heavy as lead—when you have heartburn, belching of wind, sourness, a gnawing hunger, with distress after eating—when you feel irritable and depressed—then you may know that the digestive fluids in the stomach are not sufficient to digest what you eat.

Father Morrissy's "No. 11" Tablets supply these fluids in concentrated form. Each tablet, dissolved in the stomach, will digest 1/4 pounds of food, which is more than an average meal.
Read what Father Morrissy's treatment did for Mr. Gosline, of Salmon Lake. He writes Nov. 30, 1908: "I was troubled with indigestion, so severe that I really thought I had cancer of the stomach. I took much doctors' remedies, till I was forced to seek another resource, and this was the Rev. Father Morrissy. His treatments worked miracles, until I have been entirely cured, so that now I do not look to the quality of the diet but to the quantity."

A Modern Drinking Song.
Fill high the bowl with Fasal Oil! With Tannin let your cups be crowned! If Strychnine gives relief to you, Let Strychnine's generous juice abound! Let Oil of Vitriol cool your brains, Or animated atoms brew— And fill your arteries, hearts and veins With glee—and infusorial glue!

Vine! That died out in '98— What fool would have it back! And how? The cup that will inebriate And never cheer, they sell you now. The conscious water saw its God And blushed. What of it? Don't you feel That water knows the druggist's rod And blanches now—with Cocaine! Ah! h! Fragrant fumes of creosote! Bewitching bowl of Penzance Blue! Who could 'not soothe his parching throat With your mild offspring, mountain dew? Stronger than sput that racked the frame And shook the mighty brain of Borne. Surely ye'll set our hands aflame, Whene'er his fatal day returns! Bring on the beer—fresh Coppens foam! With alum mixed in powder fine, How could my foolish fancy roam? In search of whiter froth than thine? Thy Indian Berry's essence spread Through amber wavelets, sparkling clear, Benumbs dull care—strikes feeling dead— And narcotizes shame and fear Far down thy bubbling depths, champagne! Drown'd honor, love and beauty lie— They fought the unequal fight in vain— Shall we, too, merely drink—and die? Sweet Acetate of lead, forbid! Fill every drink with 'pangs—and tell What tortures could—and always did— Anticipate the stings of hell! Then, drink, boys! drink! We never can Drink younger! And we never will Be men—or aught resembling man— While prisoners have the power to kill! Amen! From France's wretch of mirth To manna sorrow's delirious flow, We'll wade through scenes unmatched one And not be surprised below! "Alliance News."

The Burden of a Nation's Drink-bill.
Some interesting comments bearing on the economic phase of the drink question are furnished by Sir George White, a member of the British Parliament, in an article appearing in a current issue of a home magazine. "I believe," states the writer, "that the temperance cause is a fundamental one, and is at the root of social and political reform in this country. Mr. Gladstone's terrible words, that the evils of the drink were greater than those of war, pestilence, and famine combined, I believe to be literally true. Nothing has such a serious influence on the trade of the country, and I believe that the renaissance of activity of all kinds of useful manufacture and the securing of a 'fair wage' for the great mass of our artisans would be accomplished more easily and effectually by a reduction in our expenditure for drink than by any other means. Drink costs more than our total taxation, and more than the total rent of all the houses, shops and hotels in the country. It restrains our demand for commodities, because of its small wages fund, more than if we were deprived of our whole colonial trade and our colonies ceased to purchase in our markets, for it lessens the purchasing power of the nation by 270,000,000 and gives nothing in return. But the monetary side of the question is its least evil side. It is the greatest black spot on our civilization, and not only hinders the progress of every good thing, but aggravates the effects of every evil thing."

The United States Steel Corporation has made a strong regulation concerning drinking by its employees. Much trouble has been caused by drinking places near the works of the corporation.
