in six, yes in nine cases out of ten, "novelty" fancy prices" are synonymous. If people ant rare things they must pay for them the storekeepers say. That's the alphabet of certain metropolitan ideas that influence more or less the business of Guelph.

For awhile the trouble was to get the newest things without going to Toronto. Then when occasional novelties began to appear the trouble was to get them cheap enough. Our interest in Men's Furnishings has been to get the very best and newest styles and to charge little enough to tie your trade to us. You probably know by this time how carefully we buy. This is the way we sell :---

> Men's Japanese Silk Lombard Ties, light and dark shades, 3 for 50c, or each - 20c

> Washing Ties in Duck and Pique, White and Fancy colors, 2 for 25c, or each - 15c

Fancy Bengaline, Four-in-Hand Scarfs, wash perfectly, 3 for 50c, or each - 20c

Men's and Boys' Elastic Belts, fancy stripes and plain colors, - 50c to 15c.

Men's Neglige Shirts, in Pink and Blue Colorings, soft bosom, separate collars, open front, a novelty at _____ \$1

You'll want to appear at your best for Dominon Day and it's worth your while to know that every need has been anticipated. We're ready with Clothing, Hats and Furnishings to meet all the varied wants of men and boys. Quick service ! Courteous salesmen! And your money back if you want it.

e is No Hope of Rescue

it became known tonight that the shaft at 10 o'clock rep e situation was worse the the situation vis workings are crush-me today. The second secon Christian Scientists in Trouble. Toronto, June 29.-The inquest upon bedy of Addiaide Maria Goodson, died on Monday, the 18th Instant, we under treatment of Christian Scient concluded last evening and resulted verdict of manslaughter being retu by the jury after 45 minutes' delit ion against Mrs. Mercy Helen Beer, Christian Scientist who Treated the ceased, and David Goodson and his 5 Maria, the dead girl's parents. all the poisons that have accumulated, he sick one regains his old-time vim energy; the muscles and tissues are hard and firm, the skin clear and , so that perfect health is the re-

New Use for X Rays. Kingston, June 28.—The cathode ra have been utilized for a new purpo the locating of causes for insanity. veteran, named Emery, of Clayton, N. became insane as a result of an inju und finally was incarcerated in a pris-at Ogdensburg, N.Y. There, a surge interested in X ray experiments, locat a blood clot in Emery's brain. An op atlon will be made, and it is hoped the pation will be made, and it is hoped the patient can be restored to the fi-enjoyment of his faculties. and energy; the muscles and tissues are made hard and firm, the skin clear and fresh, so that perfect health is the re-sult. Read this letter written by Mrs. Geo. Durant, of Elms, Ont. No stranger person of Paine's Celery Compound in the cure of Uver troubles. "For many years I have been a suf-ferer from liver troubles." "For mill for a very short time. My husband advised me to try Paine's Cel-ory Control for a very short time. My husband advised me to try Paine's Cel-or the first bothe that for continued, and I am now using the third bottle. Tour Compound has done more for me than any physician. For months before using the Compound hear on the and the like a new creature in the mor-ling." 83 22 38

enjoyment of his faculties. **Pools of Becs.** At the time of the great catastrophe on the plain of Khodynsky during the Czar's coronation festivities at Moscow beer was distributed so lavishly that it flowed in streams upon the ground and peasants lay down and drank deeply from pools of the stuff which were to be seen in every direction. The fatality of the catastrophe was increased greatly by the fact that the crush took place upon the ground refibered slippery by beer. The thousands who perished were trodden down and suffocated upon ground soaked with beer. CROPS IN THE UNITED STATES.

CROPS IN THE UNITED STATES. There is hope for the farmers in the State this year. The year 1806 promises to bring them rather better returns for their labor than last year and better than the year before. The wheat crop of the country is sure to be the largest since 1892 and larger than the average of the last sitteen years. This year's wheat erop is unofficially estimated by the dspartment of agricul-ture at 475,000,000 bushels. This has been excoeded only six times since 1880. The wheat outlook is particularly good in the western states, taking them as a whole. Flour (Roller) Fall Wheat

in the western states, taking them as a whole. The condition of spring wheat indicates a prospective yield that closely approxi-mates a full or normal crop, the average for the country being 99.9 per cent. The average for the year 1805 was 97.8. As yet the department of agriculture has no official returns on the corn crop, but unofficial advices indicate a normal crop, probably equal to last year's large yield of 2,151,000,000 bushels. Prices are stiffening up a trifle, and the outlook for a greater total value than last year is count-de good. Rye Peas Hay Stra lggs per doz Butter, dairy Butter, rolls Apples
