family with children of school age living on both sides of the said river; that the schoolhouse is on the west side of the river; that the river is

about 150 ft. wide. In the spring and autumn of the year the children living on the east side are unable to attend school. Therefore resolved: That the Government be requested to build a bridge across the said river at or near the said schoolhouse, and that a copy of the resolution be sent to the local members.  
Adopted.

Corn. Savoy moved the following:—Whereas, the present gravelled road from Escuminac Settlement to Escuminac Pt., a distance of four miles, which lies across a barren plain, is unfit for travel for a large part of the year, owing to the fact that in summer the land is boggy and in winter blocked with snow; and Whereas this piece of road is used by a very large number of settlers who work at the lobster factories and fishing industry during the summer; and is the only manner of transport for freight and fish going to and coming from Escuminac Pt. and for the mails:  
Therefore resolved: That the Council memorialize the Local Government, directing their attention to the condition of this piece of road, and that a special grant of \$1,000 be made towards repairing and making it reasonably fit for traffic; and  
Further resolved that a copy of this resolution be forwarded to the Local Government.  
Adopted.

### "Maria Rosa"

A Production of Supreme Merit in Which  
**GERALDINE FARRAR**  
Shows Marvellous Power of Portrayal.

Reviewed by W. Stephen Bush.

Having seen Geraldine Farrar in all her great roles both on the singing and on the silent stage, I have no hesitation whatever in saying that in the part of Maria Rosa she has reached her greatest histrionic triumph. "Maria Rosa" provides wonderful opportunities for an artist of the first class. A great and abiding love, great simplicity complete with great cunning are the chief characteristics of the part. Miss Farrar makes the conjunction of these elements in a woman's heart seem overwhelmingly probable because she makes them overwhelmingly real. She does become merged in the character she is asked to portray and the audience is therefore treated to the rarest of pleasures—seeing a sublime part in the hands of a highly gifted artist who realizes the utmost expectations of the dramatist.

The story brings home a fact which we all know, but which is ever new—the power of love over a woman's heart and whole existence. The heart of Maria Rosa, simple and trusting, finds itself cruelly deceived and betrayed, not by her lover, but by a treacherous rival of her love. She is called upon when she makes the fearful discovery to act quickly and to dissemble feelings which beat tumultuously at the very gate of her soul. With the same intuitive flash she realizes both the deceit that has been practiced upon her and the need of saving her beloved from the suspicion of murder. She rises to the situation in a manner which will make this play stand out far above every average production. The sympathy of the audience, great as it must be, is surpassed by the interest and by the gripping suspense. The slightest misstep must have meant failure.

The tragic points in the film are developed with unsurpassed skill, making the happy ending all the more pleasing. Atmosphere and lighting effects are up to the highest Lasky standards, but I cannot conclude without saying something for the added charms of novelty and variety in this feature. Old Spain has never been depicted with more charm and sympathetic understanding, whether on stage screen or canvas. The support of Miss Farrar was good, but she rises high above the rest of the cast.

### Farm Financing In the West

Premier Martin announces that a Bill is in preparation, to be presented to the Legislature at the session, which opens next week, to create the Saskatchewan farm mortgage board. This board is the body through which loans will be made to farmers. Bonds will be issued to raise the necessary funds, backed by the mortgages themselves, and the credit of Saskatchewan will be pledged to other payment. The money so raised will be lent

be made upon the amortization plan, interest to be charged at a rate which will repay the costs of the money to the board, plus expenses. Provision is made for the repayment by the borrower, at his option, at any time before maturity.

The object of this scheme is to provide a means whereby any farmer may borrow money for legitimate purposes at the lowest possible rate of interest and upon the most advantageous terms of repayment. The plan takes the form of straight loans by the board to the farmer. No provision is made for the formation of a company or an association of

shareholders, as at one time suggested.
