THE NEED OF HOSPITALS

Hospitals are the product of Christianity. They are found only in Christian lands or where they have been established through Christian agencies. The spirit of christianity is that of help and blessing to humanity. Its mission is to serve in any possible way. In hospitals it is manifesting this spirit in contributing to the physical welfare of humanity.

The modern hospital, with its attendant physicians and surgeons, its efficient management and nursing staff, its cleanliness and special facilities for treatment, brings great physical blessings which without the hospital would be impossible. Skill, knowledge, and efficiency removes serious physical troubles, disseminate much valuable knowledge, all resulting in the prevention of much human misery and the saving of many lives. The more favorable conditions of hospitals make these results possible where otherwise there would be failure. These are the product of specializing and concentrating in the cure of disease.

The Miramichi Hospital is doing its full share of this good work. From the Town and all parts of the County people of all ages, with all kinds of physical maladies come for treatment, and a full measure of success rests upon the work done there. All diseases cannot be cured, but many are helped and cured which would not be if there were no hospital in Newcastle.

The time is now when the opportunity of the hospital is greater than its capacity, and more room is urgently needed. The building of a Nurses' Home will give added room in the hospital and give the nurses much more comfort and inspiration for their work. The quarters now occupied by the nurses will be converted into a children's ward, thus double good will be done; the nurses will be better accommodated and more children can be treated in a more efficient way. Those who contribute will have for their reward the giving of a congenial home to the nurses and the relieving of the physical handicaps and suffering of many children.

N. B. Man Beaten In Ontario Election

So far as can be learned only one native of New Brunswick, was a candidate in the provincial election in Ontario.

J.H. Sproul who is a native of Hampton, N.B., ran in Ottawa, West where J.H. Fisher, Liberal, was elected by a majority of 948. Mr. Sproul's platform, as set forth on printed matter distributed in his interest, was "Save the People's Lives".

A Mother's Health Needs Great Care

Care of Home and Children Often Causes a Breakdown

The woman at home, deep in household duties and the care of motherhood, needs occasional help to keep her in good health. The demands upon a mother's health are many and severe. Her own health trials and her children's welfare exact heavy tolls, while hurried meals, broken rest and much indoor living tend to weaken her constitution. No wonder that the woman at home is often indisposed through weakness, headaches, backaches and nervousness. Too many women have grown to accept these visitations as a part of the lot of motherhood. But many and varied as her health troubles are, the cause is simple and relief at hand.

When well it is the woman's good blood that keeps her well; when ill she must make her blood rich to renew her health. The nursing mother more than any other woman in the world needs rich blood and plenty of it. There is one way to get this good blood so necessary to perfect health and that is through Dr. Williams' Pink Pills. Mrs. W.T. Riley, R.R. No. 1, Apple Hill, Ont., has proved the great value of Dr. Williams' Pink Pills to mothers, and tells her story as follows:—"Two years ago, after the birth of my boy, I became very weak and run down. Gradually I lost weight and energy until I was unable to do my housework. I could not sleep, my nerves would twitch and jump so that I arose in the morning with heavy aching limbs and head. Indigestion helped to make the misery worse, and my heart would palpitate terribly. I doctored steadily for a year without getting better, but just dragged along feeling that I would never be well again. But one lucky day, on the advice of a friend, I began treatment with Dr. Williams' Pink Pills. I have taken only six boxes but I wish you could see the difference. I am now able to do my work, go about and enjoy myself. I feel so entirely like a new woman that I advise every weak or ailing woman to try Dr. Williams' Pink Pills and I know they will get beneficial results.

If you are ailing, easily tired or depressed, it is a duty you owe yourself and your family to give Dr. Williams' Pink Pills a fair trial. What this medicine has done for others it will surely do for you. You can get Dr. Williams' Pink Pills through any dealer in medicine or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Many a business man has missed valuable information by throwing away a circular letter unread. It takes but a moment, and oftentimes means money to you.

Keep Stable Clean

Cleanliness in and around the cattle barn is especially important as milk is a product unusually easy to contaminate with germs and dirt of the stable, and such contamination often results in serious conditions in the individuals who consume the products. Dairy products are very sensitive to surroundings and for this reason the equipment and dairy quarters should receive special care; by adopting precautionary measures you will be doing your bit to prevent the spread of disease among the human family.

FIRST TO ESTABLISH LUMBER INDUSTRY ON MIRAMICHI

Sir Frederic Fraser who recently celebrated his Golden Jubilee as Superintendent of the Halifax School for the blind and who was honored with a complimentary address by Lieut. Gov. Grant, Premier Armstrong and Chairman George S. Campbell, and received several presentations, has a most interesting family history, and has had the unique distinction of having had two grand-fathers in the famous Council of Twelve.

Sir Frederic is the son of the late Dr. Benjamin DeWolf Fraser, who resided and practised his profession in Windsor, N.S. for over fifty years. His paternal grandfather was Hon. James Fraser, a member of the old "Council of Twelve" whose residence was at the corner of Bell's Lane and Water Streets, Halifax. His maternal grandfather was Hon. Joseph Allison, who served in both branches of the Legislature of Nova Scotia, and who resided at "Brookside," Halifax, the present residence of Mrs. M. Dwyer. His paternal great grandfather was Alex. Fraser who emigrated from Farraline, Scotland and was the first to establish the lumber industry on the Miramichi, near Newcastle, N.B. His maternal great grandfather was Hon. C. R. Prescott of Halifax and Cornwallis also at one time a member of the "Council of Twelve."

The old Council of Twelve, who were the rulers of the Province in 1820, was composed of the following: Hon. Sampson Salter Blowers, President; Rt. Rev. Lord Robert, Bishop of Nova Scotia; Hons. Michael Wallace, Charles Hill, Richard Uniacke, Charles Morris, T.N. Jeffrey, James Stewart, John Black, Brenton Halliburton, James Fraser, Hubert Binney, Rupert D. George, Secretary.

Sir Frederic came to Halifax as a young man 50 years ago, founded the School for the Blind with a half dozen pupils, and has made it the wonderful institution it is to-day.

A. Milne Fraser, of Halifax, is a brother of Sir Frederic.

QUESTION OF HOW DRY THE U. S. IS

News that fifty thousand carloads of California grapes are being shipped East this year, says the Boston Globe, offers an interesting sidelight on the much mooted question of how dry we are.

The assiduous statisticians, always quick to grasp an opportunity have dug up figures to show that during the last year prior to prohibition such shipments annually made by the Vineyard State of America, totalled only 15,000 carloads. They further point out that California—which last fall by referendum voted itself into the "dry" column—increased its grape crop acreage from 325,000 acres in 1912 to 714,000 acres to day.

Undoubtedly, much of the grape crop from California will go into the ordinary markets for fruit consumption. Enough will go into grape juice to send a warm thrill through the cockles of the heart of Mr. William J. Bryan, too. The question as to how much will go beyond such mild uses, and in more ardent direction, has already kicked up a stable row among the prohibition forces in the East, which is receiving this visitation of the pious grape.

Of course grape growing is a legitimate business, and the Government has scarcely interfered. If it did, the Administration would soon be up against the trait growing business interest in California, which is another word for California politics. And California, it is safe to remark, is not due for any

White Pleated Skirts and Blazer Jackets
A sport combination, smart looking and comfortable for summer outing wear—The Skirts are made of heavy flannel, pleated in box pleats at.....\$6.50 ea.
The Jackets are made of Red and Paddy Green Flannel in the brightest shades—They come Norfolk and Golf Styles in the mannish make priced at....\$6.50ea.
New Voile Blouses

Alone From Uscilug to Milwaukee Via Canada
Eleven-year-old Polish Boy Makes Long Voyage Alone.
TRAVELLING does not tire or trouble this little fellow. Though he does not speak any English other than two or three words which he picked up en-route, he travelled alone from his home at Uscilug on the Russia-Austrian boundary to Milwaukee, burdened only with a small valise and a sheaf of tickets and immigration documents. Koeth Here is his name. Orphaned by his mother's death three years ago, he was going to his father in Milwaukee, who had made arrangements for his transportation.
When Koeth arrived at Warsaw he was conducted by an agent of the Canadian Pacific Railway to Antwerp.
There he was given a ticket almost as long as himself which would carry him through to his destination. Crossing to England he sailed on the "Metagama," being, from the time he left Warsaw, under the care of the Canadian Pacific. The direct mileage from Milwaukee to Uscilug is not by any means the full mileage of his travels. The ship's officers estimate that he ran at least twenty miles a day over the vessel, and the port officials had an anxious time when he made surreptitious peregrinations in search of someone who spoke his own tongue. He was glad, of course, to meet his father, but what an adventure it is to travel far and alone!

EASTERN STEAMSHIP LINES, Inc
INTERNATIONAL LINE
Resumption of Freight and Passenger Service between St. John and Boston
S. S. GOVERNOR DINGLEY will leave St. John every Wednesday at 8 a. m. and every Saturday at 6 p. m. (Atlantic Time) for Boston.
