

# HURON SIGNAL.

THURSDAY, JUNE 24, 1852.  
THE HURON COUNTRY.

### INTERESTING TO LADIES.

**WOMAN'S HEALTH AND BODY.**  
We have received a number of letters from a lady in relation to some remarks of ours in a former number, on the ill health of American ladies. She agrees with us in thinking that disease, in the female sex, is the result of the neglect of the health of the body. She says she has been a sufferer from this complaint for many years, and she has been treated by the best physicians, but without success. She says she has been a sufferer from this complaint for many years, and she has been treated by the best physicians, but without success. She says she has been a sufferer from this complaint for many years, and she has been treated by the best physicians, but without success.

### A TERRIBLE CRIME—CRIMINALS CONVICTED.

The Mayville, (Ka) Eagle, of the 26th, has an account of the conviction of four murderers, who killed a man and his wife. Our readers will remember the horrid murders committed in the latter end of February last, on the persons of Justice Brewer and his wife, in Greenup county. These deaths were perpetrated by a band of desperadoes, four in number, three of whom were named Clarke, and one named Hood. They tracked their prey, and far in the night proceeded to the premises of their victims. Going into the parlor, they struck Mrs. Brewer with their pistols, and she fell dead. Mr. Brewer was then cut out of the house, and he was found lying on the ground, with his head broken. The bodies of the two women were found in the kitchen, and they were both dead. The bodies of the two women were found in the kitchen, and they were both dead. The bodies of the two women were found in the kitchen, and they were both dead.

### THE RESERVES AND RECTORIES.

The remarks which we made a few days ago on the Reserves and Rectories have not gone so far as we anticipated. The Toronto Patriot—the journal which proposed that the Church of England portion of the Reserves should be surrendered, in order that a new division of spoils might be made, and a few more eminent demagogues thought and written upon this subject, but does not offer a single word in support of the Reserves. It is generally conceded, and has been so for some time, that the Reserves are a vast tract of land, and that they are a source of great wealth to the Province. It is generally conceded, and has been so for some time, that the Reserves are a vast tract of land, and that they are a source of great wealth to the Province.

### THE HURON COUNTRY.

This strong probability of Goderich being the terminus ere long, of one of the most important Railroads in America, may render a brief description of the Huron country not uninteresting at the present time. The Counties of Huron and Bruce occupy the greatest portion of the Canada coast of Lake Huron, apart from the Georgian Bay. These Counties have a Lake coast, we had almost said a sea-coast, of about one hundred miles. The land bordering the Lake for one or two miles back is not so good as farther back. It is generally sandy, and has, doubtless at no very late period, been washed up by the lake; or the lake has receded. This is not the case all along the lake shore. In some parts the bank is composed of clay, and presents a rocky appearance, the clay being so firm as to render the bank perpendicular. The bank of Lake Huron is higher than those of the lower lakes. In some places, for many miles the lake has gradually receded—several banks existing. In these places the vegetation keeps following the lake, the trees growing close to the water's edge. Whether the lake is upon the whole diminishing, without further observation, we would not affirm. In some places, and where the bank is clay, the water gains on the land—the bank being constantly falling in.

### DEATH OF THE QUEEN OF MADAGASCAR.

We who have announced the decease of this notorious princess who has long been the scourge of the island and the murderer of the Christians throughout the whole civilized world, it may not be amiss to recapitulate briefly the leading features of her extraordinary history. Our readers are aware that the island of Madagascar was formerly divided into a number of little clans, the chief one of which, named Andriamanga, was ruled by a large number of them, his son and successor, Radama, pursued these conquests still further; he came to the throne in 1803. On his death the late Queen Ranavalona (who was his twelve year old daughter) usurped the throne and commenced her sanguinary reign with a brutal ferocity which has few parallels in history. She at once ordered two of the chief officers in the army, and the first act of the infernal trio was to murder in cold blood Rakotonirahy, the right hand to the throne. He was speared while in the attitude of prayer, and thrust into his grave warm and teeming with blood. His mother (who was the late Queen's) was also speared to death, and another nobleman who killed her gave her the slip, and died in 1841. Shortly after in a fit of intoxication, she conceived the deliberate murder of her prime minister, and took her assassins and rivals in the stead of her victims. The younger of these sons died.

### GREAT BRITAIN.

LORD J. RUSSELL'S ADDRESS TO THE ELECTORS OF LONDON.  
Lord John Russell has issued the following address to the electors of the city of London:  
Gentlemen,—More than ten years have elapsed since I was requested by a deputation of electors to relinquish the seat which I then occupied and become a candidate for the city of London. I was at that time in the enjoyment of the confidence of the electors of Stratford, and I had no reason to fear that I should lose that confidence at the ensuing election. But I was urged to quit that honourable position on the ground that the battle of free trade was to be fought, and that the best field for such a battle was the metropolitan city of the United Kingdom. I accepted your invitation, and after a close contest was elected by a narrow majority.
