SPECIAL SHOWING OF Spring Millinery.

The advance shipments of our **MILLINERY** and **READY-TO-WEAR HATS** for Spring 1913 are just arrived. They number about 200 in all—no two alike—Each one a picture when framing the right face.

Many of them are direct from Paris and many more plainly showing Parisian influence. Every one who appreciates style and beauty in Millinery, combined with moderate prices, should visit the Royal Stores as soon as possible.

The ROYAL STORES, Ltd.

The Facts Are Incontrovertible.

CROSBIE'S FRENCHMEN EMPLOYED.

Special to Evening Telegram.

ST. LAWRENCE, To-day.
The Sagona's French crew worked on the "Lucy House." The St. Lawrence men, twelve in number, were put off. Sagona's men are Crobie's as much as the Port's men are Bowring's. The concessionaire of the French Government, is Miller, consequently when Miller puts his own and Crobie's French men to work, having put aside St. Lawrence men, what is the average man to think. There is a nigger in the wood pile somewhere. The Sagona's crew have been ordered to discontinue work and have been conveyed to St. Pierre by the Pokota. We do not know whose agent Miller is in this present case, but the facts cited above are incontrovertible.
V. P. TURPIN.

At the City Hall.

The weekly session of the Municipal Council was held last evening. Mr. C. P. Ayre called attention to a wall in the West End. Referred to Engineer.
Mr. J. J. Evans asked Council to have their statement published in the Nfld. Quarterly.
It was decided to pay Kam Lung \$17 owing to water being shut off from his house by mistake.
Solicitor Morris reported that the Council were not liable in the case of the award to Baine, Johnston & Co. It was a matter for the Government to consider. Ordered that claimants be informed.
Solicitor reported that the promoters of the hockey matches were liable to a tax and a summons will be issued for the recovery of same. He also reported that the promoters of the Gymkhana were not liable for the tax.
Plan of house to be built on Casey Street, by Jane Oliver, was approved.

An estimate of the cost of fencing the Parade Ground, will be obtained by the Engineer, who will also confer with the Government Engineer, on the planning of a new bridge leading to the South Side, to replace the old one.
The Act applying to such matters, must be observed by Mr. Tessier, in building on Water Street.
James Cook can repair his building.
The Water Committee advised that Waterman Flynn be given an assistant, and James Cronan was appointed.
The Engineer will look into the matter of placing hydrants on wharves where there are none at present.
Mr. J. P. Blackwood wrote giving suggestions to Council as to the collection of arrears and debts. Will be considered.
Councillor Martin referred to the adverse comments made as to the arrears for water and sewerage. The Mayor referred to the press comments held that every reasonable means had been taken to collect the accounts, but the collections were not up to the expenditures of the Council. He observed that from owners of small tenements, very little could be had, and such would be the case until the landlord was rendered liable.

Dangerous Position.

While Miss Laura Judge, an assistant in Mr. N. J. Coady's grocery store, Duggan Street, was trying to light the fire in the store there, Thursday afternoon she threw in some kerosene oil and the flame coming out suddenly ignited her hair and the blouse she wore. The other assistants tore off the clothing quickly and she thus escaped serious injury. Dr. Anderson was called to attend her.

Evening boots are quite high, coming above the ankle, having absolutely no leather showing.

Here and There.

RED CROSS LINE.—The S. S. Thyramelner, chartered by the Red Cross Company, will leave New York on Tuesday next for Halifax and this port.

PILES CURED IN 4 TO 14 DAYS.—Your druggist will refund money if PAZO OINTMENT fails to cure any case of Itching, Blind, Bleeding or Protruding Piles in 6 to 14 days. 50c. oct12a,1t

NOTE OF THANKS.—Mrs. Rees and family wish to extend sincere thanks to all those who so kindly sent wreaths and expressions of sympathy during their recent bereavement.—11

ADVENTIST.—The subject of Sunday evening's Bible Study at the Cookstown Road Church, will be "The Church as it was when Christ ascended on high. Why that Church fell during the dark ages and how it may return to its original purity and power." Elder Wm. C. Young will occupy the pulpit (D.V.). All seats are free.

CURES CAKED UDDERS OVER NIGHT Saskatchewan Stockman's Experience With Douglas' Egyptian Liniment

The stockman, and more particularly the dairy farmer, has to keep a sharp lookout for caked udders, for he knows how seriously trouble of this kind is likely to affect the milk production of his herd.
Mr. W. Robinson, of Ituna, Sask., does not worry about it any more, however, for he has found a quick and certain cure. He says:

"I have used your Egyptian Liniment with splendid results. I have had cows calve at night with their udders so badly caked that it was impossible to milk them, but after one application of your Liniment they were all right next morning."

Caked udders demand quick action. The safest, wisest plan is to keep a bottle of Douglas' Egyptian Liniment always on hand.
25c. at all dealers. Free sample on request. Douglas & Co., Napanee, Ont.

Cable News.

Special to Evening Telegram.
LONDON, To-day.
Railway and telegraph communication at Adrianople is being restored rapidly. Some idea of conditions of the city is beginning to reach the outside world. According to reports from Sofia, the condition of the population at Adrianople is not so desperate as has been depicted. While the Turks set fire to the grain store they overlooked the flour depot, the contents of which are being distributed among the poor. These reports declare that only a few buildings were damaged by bombardment. Nothing is said concerning the damage done by fires, which the Turks themselves started before the city fell. The last despatch the Turkish Commander of the fortress sent to Constantinople said he was destroying the great National Religious Buildings to prevent them being profaned by impure feet. That he succeeded to a large extent in carrying out his intention is evident from the flames which rose as the invaders approached the town. Many Turks before the enemy arrived took time to break their rifles and render useless a number of siege guns, destroy all ammunition depots and even kill their horses in order to prevent their falling into the hands of the invaders. The wireless telegraph station and searchlights were blown up by order of Shukri Pasha, who on the whole seems to have made a pretty complete job of his work of destruction. All accounts reaching here agree that the Turks have suffered a severe defeat at Tchatalja. Some correspondents place the Turkish losses as high as 26,000 killed and 7,500 wounded. These figures, however, are probably exaggerated. Only a few wounded have reached Constantinople. Ice Patrols.

Special to The Evening Telegram.
WASHINGTON, To-day.
The derelict destroyer Seneca and the revenue cutter Miami in a few days will make alternative cruises to the ice regions of the North Atlantic, each vessel remaining two weeks on the station. They will ascertain the extent and conditions of ice-fields, said Secretary McAdoo, and send this information by wireless each day to Navy Hydrographic Office for publication. They will also keep in touch with vessels in order to give them warning of conditions and locality of icefields.

Special to Evening Telegram.
SAN FRANCISCO, To-day.
Capt. Amundsen has signed a contract to buy two hydro aeroplanes which he will take with him into the Arctic next voyage of exploration in 1914. Amundsen believes the hydro aeroplane will be useful in summer months when there is much open water for reconnaissances and observations.
