If you don't like Armada Tea the first time you try it, don't blame the tea. ARMADA is so much better than any other tea, and so different, that you should not decide about it with your first cup. The way and time it is steeped makes an enormous difference. The correct way is to steep from 5 to 6 minutes, according to taste with freshly boiled water and then follow the most important remove the leaves from the pot. Other wise it will get strong and bitter. If you follow out these directions we have no hesitation in saying that you will find the best tea you ever tasted. ARMADA.

A CRYSTAL LIGHT.

Doesn't that suggest a clear, bright light? That is why the name CRYSTALITE was chosen.

TEXACO CRYSTALITE is a crystal light, giving forth soft, penetrating rays. It gives no smoke nor smell, and is good to the last drop.

TEXACO CRYSTALITE will not fluctuate, it gives a steady glow.

The next time you buy illuminating oil don't merely ask for "a gallon of kerosene". Ask for TEXACO CRYSTALITE and find out why this illuminating oil is known as "the light of the home".

TEXACO CRYSTALITE costs no more than ordinary kerosene and most good stores have it.

Remember the name. It will be worth your while to discriminate.
