Children Cry FOR FLETCHER'S CASTORIA

ACTIVITIES ARE VARIED WITH BRITAIN'S WOMEN NOW DAYS

One picture shows a pretty English girl selling roses for war relief, another shows a well-known London actress tickling her toes in the River Thames before taking an exhibition dive—also for the benefit of Red Cross funds, while the larger shows the pluckiest of all—an Englishwoman doing hard, manual labor in the barrel room of a vinegar factory, to help out her pension, her husband having been killed in the war, leaving her with seven little children.—(London Mirror photo.)

the leather stitchers were leading by 32 pins, and in the second game they added 40 more, giving them a total lead of 72 pins. The final game ended with the shoe makers leading with 15 pins, totalling altogether 87 pins in the three games. The shoe makers habit of finishing strong in the ninth and tenth frames was very noticeable to the spectators. Hayden and Avison were strong men for the locals, while Love and Fox bowled the game for St. Thomas. The St. Thomas boys are good sports and took their defeat like gentlemen, going away with the intention of winning the return game on their own alleys next Friday evening.

BOWLING Shoe Factory Again Victorious

The Shoe Factory quintette again proved themselves too much for the Has-Beens on Monday night last, when they won out in a three-game match by 181 pins.
From beginning to end there was no doubt as to the result as the shoe makers in their first game had a lead of 26 pins and in the second game increased it to 175. L. Seers and R. Finch were the headliners for the leather sewers, while the old steadies T. Hayden and C. Finch held their team up.

Telephone Courtesy is Growing in Favor.

Newspapers and periodicals, which reflect so well the trend of public opinion, are continually urging the practice of telephone courtesy.

Progressive merchants are studying its relation to their sales. Employees are being trained to treat telephone callers with the same degree of courtesy and consideration that obtains in a face-to-face conversation.

And the result for those who practice telephone courtesy faithfully is a constantly growing volume of telephone trade and good-will.

The encouragement you give to your employees in developing pleasing telephone manners will bear fruit in the promotion of good-will amongst your customers.
