SOULAND.

John Swan & Sons, of Edinburgh, in their weekly report of June 20, say: There were seasonably large supplies of June fed fat cattle in Edinburgh, and although the number in Glasgow was rather smaller there was a considerable contingent of Canadians, which made up the numbers. The trade all through this week has hardly been so good. As yet there is no sign of Irish grass-fed cattle coming to hand, and these will be at least two months later than usual. The demand for sheep was just the turn dearer, but secondary would be from is to 2s a head cheaper. Owing to the restrictions in Edinburgh there are few store cattle shown and sales exceedingly difficultite effect. Milch cows met a rather better trade; at about 20s a head more money. Among the pains and aches cured with marvelous rapidity with Dr. Thomas' Eclectric Oil, is car-ache. The young are especially subject to it, and the desirability of this Oil as a family remedy is enhanced by the fact that it is admirably adapted not only to the above aiment, but also to the hurts, disorders of the bowels, and affections of the throat, to which the young are specially subject.

Agreeable—There is nothing more refreshing during the warm worther than a little Persian Lotion may with the water perfore washing in the morning. Those who have once tried it will not do without it.
