turned from the continent to-day. Crowds
cheered him.

Failed for Nearly \$10,000,000.

LONDON, Jan. 10.—It is reported here
that two corn merchants of Dublin have
failed with liabilities amounting to nearly
\$10,000,000.

Rae, who on Dec. 24 was convicted of the
murder of his mistress, Annie Ritchie,
was to-day executed at Northampton.

It Was a Canard.

MALAGA, Jan. 10.—The report that the
Empress of Austria had been captured by
brigands while traveling in Spain was a
canard. Her Majesty arrived here to-day
from Granada.

The Silver Question.

BOMBAY, Jan. 10.—The Bombay branch
of the Indian Currency Association has re-
quested the Government to immediately
order the stoppage of the free coinage of
silver and to return to India bills under
a certain fixed rate.

Free Schools for Baden.

FRANKFORT, Jan. 10.—The public schools
of Baden have been declared free by all the
city and town authorities. The cities of
Mannheim, Freiburg and Karlsruhe ab-
olished tuition fees some time ago. Similar
action was deferred, however, by the other
Badenese communities until last week.

A Threat From France.

PARIS, Jan. 10.—The Matin says M.
Waddington, French Ambassador to Great
Britain, who is in France on leave of
absence, will when he returns to London
bear to the British Government dispatches
couched in firm and unmistakable
language declaring that France will not
tolerate foreign intervention in Morocco or
the acquisition in that country of any
privilege of another power.

Fierce Fight in India.

RANGOON, Jan. 10.—A dispatch from
Bhamo says that the hostile Kachins
made a desperate attack on the British
outpost at Simal. The British commander,
Morton, led his men in a fierce conflict with
the enemy, who were repulsed after a
struggle, in which Commander Morton
himself and five Sepoys were killed, the
Kachins leaving fifteen dead on the field.
The Kachins continue to make desperate re-
sistance to the British, and the subjection
of these mountaineers progresses very
slowly. They fire on the troops from the
jungle and protect their stockades with
pits in which sharp bamboo stakes are fixed
and covered over as a trap to their enemies.
They have been harassing the outpost at
Simal ever since the British troops were
stationed there.

Marie's Marriage.

SIGMARINGEN, Jan. 10.—Amid royal
pomp and splendor, and surrounded by
European sovereigns and their representa-
tives, Princess Marie of Edinburgh was
married this afternoon to Prince Ferdinand,
Crown Prince of Roumania. Among those
who witnessed the civil ceremony, which
was performed at 2 o'clock by Dr. von
Vondel, Emperor William's household
minister, were the Duke and Duchess of
Edinburgh, parents of the bride; King
Charles of Roumania, uncle of the bride-
groom; Prince Leopold of Hohenzollern-
Sigmaringen, father of the bridegroom;
the members of the Roumanian Ministry,
the presidents of both branches of the
Roumanian Parliament, and the more im-
mediate members of the families of the
bride and groom.It was 4:40 p.m. when the wedding
party arrived at the Stadtkirche for
the Catholic ceremony. Emperor William
was the first to enter, escorting the
Duchess of Edinburgh, the mother of
the bride. Then followed the Duke of
Connaught with the Princess of Hohenzol-
lern; the Grand Duke Alexis and Prin-
cess Leopold of Hohenzollern-Sigmaringen,
the parents of the bridegroom; King
Charles of Roumania; Prince Ferdinand and
the brothers and sisters of the bride pair.
The bride, leaning on the arm of her
father, the Duke of Edinburgh, entered
last.The parish priest tied the nuptial knot,
and Mr. Placidus, abbot of the Bene-
dictine monastery of Beuron, delivered the
benediction.The Protestant service was performed in
the private chapel of the Schloss after the
return of the party from the Stadtkirche.

The Party Crisis.

PARIS, Jan. 10.—At a Cabinet Council
held to-day Premier Ribot announced to
President Carnot that he and his colleagues
recognized that it was necessary to reform
the Cabinet. The Ministers thereupon col-
lectively presented their resignations to
President Carnot, and the president
charged M. Ribot with the duty of recon-
structing the Ministry. It is understood
that M. Ribot will retain the office of
Premier, but will exchange the Ministry of
Foreign Affairs for the Ministry of the In-
terior. It is also reported that M. Loubet,
Minister of Interior, and M. De Freycinet,
Minister of War, will probably not be
found in the reconstructed Cabinet.PARIS, Jan. 10.—Although the resigna-
tion of the Ministry caused widespreadexcitement there was no attempt to
create disorder. The order that is pre-
vailing throughout the city is due to
the fact that the lawless ele-
ment well knows that any disturbance
will be put down with a strong hand by
the military. The House resumed its
sittings and elected M. Casimir-Perier
President of the Chamber by a majority of
155—yeas, 408; nays, 253.The new Cabinet is as follows: M.
Ribot, Prime Minister and Minister of the
Interior; M. Tirard, Minister of Finance;
M. Bourgeois, Minister of Justice; Gen.
Loubet, Minister of War; M. Baudouin,
Minister of Colonies and Marine; M. Dupuy
Instruction; M. Viger, Minister of Agri-
culture; M. Siegfried, Minister of Com-
merce; M. Vietter, of Works. The most
notable difference between this Cabinet and
its predecessor is shown by the absence of
M. De Freycinet and M. Loubet.

HON. WILFRID LAURIER

At the Young Liberal's Ban-
quet in Hamilton.The Talented Leader Receives an Ova-
tion—He is Sangre of the Success
of Liberal Principles.HAMILTON, Jan. 10.—The eighth annual
banquet of the Young Men's Liberal Club
of Hamilton, held in the Palace Rink this
evening, was a magnificent success in all
respects. The large building was well
heated and handsomely decorated, and over
800 guests sat down to the well-laid
tables.After reading letters and telegrams of
regret for their absence from Hon. Oliver
Mowat and other prominent Liberals.
President MacMahon opened the toast list
with "Her Majesty the Queen," which was
duly honored.Hon. G. M. Gibson and Mr. N. Avery,
M.P.P., replied briefly and in appropriate
terms to the toast "The Legislative As-
sembly.""The Dominion Parliament" was replied
to by Mr. Somerville, M.P.; Mr. Gibson,
M.P., of Beausville, and Mr. Charlton,
M.P., of Norfolk.Hon. Wilfrid Laurier was given a most
enthusiastic reception upon rising to re-
ply to the last-mentioned toast. He thanked
the audience for the very hearty way in
which he was received, and he believed
that the gathering of the young men of the
Dominion would be a very successful one.
He was not in the least concerned, but said
very certain of the ultimate success of the
Liberal principles. He believed the result
of the last Presidential election showed the
great popularity of free trade, and predicted
that free trade would only place Canada
on an equal footing with the
United States. Unrestricted reciprocity of
free trade in natural products with the
country to the south was what Canada
most wanted at present, and he believed
the Liberal party in power this
measure could be obtained. The speaker
pronounced as a farce the attempts made
by the present Dominion Government to
secure unrestricted reciprocity with the
United States, and said that
when the Liberals obtained power
he hoped the doctrine of free trade would
be secured such a stronghold on the
hearts of Canadians that this policy would
be held out to the whole world as their
platform.Mr. Laurier spoke for over an hour. He
was given a very attentive hearing and
loudly applauded during his address. Other
toasts followed, and before midnight the
banquet was concluded.

THE GOVERNOR'S MOVEMENTS.

AT SARNIA.
SARNIA, Jan. 10.—His Excellency, the
Governor-General arrived to-day about
3:30 p.m., having been somewhat delayed
by last night's storm. He was received at
the station by a guard of honor, composed
of No. 7 Company of the Twenty-Seventh
Battalion, and the Twenty-Seventh Bat-
talion Band, accompanied by mayor and
council, J. F. Lister, M.P., Senator
Vidal, Chas. Mackenzie, M.P.P., and an
influential committee of the citizens.
He was driven to the town and the
Collegiate Institute, where in the
auditorium he was presented with an ad-
dress by the mayor on behalf of the citizens
of Sarnia and by Chief Jacobs on behalf of
the Chippewa Indians of the Sarnia Re-
serve, accompanied with a handsome bouquet
of flowers on behalf of the pupils of the
schools, to which he responded in a
few brief and well-chosen remarks;
after which an informal reception was held.
His Excellency was then driven to his
private car, when he left about 5:30 p.m.
to go through the tunnel. The town was
entirely decorated with flags and bunting,
but on account of the late hour of arrival
and the intense cold the programme as
originally arranged was somewhat inter-
fered with.

ingly effective."—[Christian World, Lon-

crease in 1893, \$14,193.The directors of the Boston and Maine
have approved the plans for a mammoth
union station on Causeway street, Boston,
which will abolish the grade crossings.
There will be twenty tracks in it, and a
train lobby 500 feet in width. It will cost
\$1,000,000.The Buffalo Courier says if Canadian
lines are getting away the business from
American railways it must be because the
Canadian lines give better service, and to
hurt the liberty of citizens in order to
swell the profits of corporations would be
a poor sort of patriotism. O. has been
detected in a shrewd scheme to defraud
the Erie. Tickets have been altered and
the value raised from 75 cents to \$19.45.
The tickets were made good to a station
just beyond a junction on division point,
and the passenger getting off the train
the ticket, which then being of but a few
cents' value, would be thrown away or
destroyed, thus concealing all traces of the
fraud.Rather a novel state of affairs exists with
some of the great railroad systems. The
last two years they have bought locomotives
so rapidly that there has been a scarcity of
engineers, and roads which fill that position
by the promotion of firemen have exhausted
the supply from that source, having pro-
moted all who have been in the position of
firemen long enough to pass the proper ex-
amination. On the Big Four a dozen engi-
neers have been employed in the last few
months from other roads; still, the com-
pany promotes every fireman who can pass
the necessary examination. On the
Pennsylvania lines there has been a great
deal of drawing of men from the less im-
portant lines to the more important
divisions, where trains are numerous and
cool-headed engineers are needed.The Grand Trunk Railroad management
has begun early in the work of prepara-
tion for the next season's travel to the
Chicago Exposition by putting in service
five new Pullman drawing-room sleeping
cars on their Boston and Chicago line, via
Montreal. The new cars are of the latest
design and fitted with steam heat, gas,
water and all the devices for luxury and
economy of space that have made the Pul-
lman designs so generally approved by the
travelling public. The cars are named the
Goethe, Scott, Burns, Dante and Dickens,
and passing through London daily, except
Sunday, for Chicago, via the St. Clair
tunnel, going east daily, except Sunday,
from Toronto at 8:45 a.m. for Boston.The Pullman style of the new cars is
exterior of the cars is of the latest type of
a dark olive, touched with gold. The
windows are of plate glass in mahogany
frames, with transoms of ornamental glass
over each pair, giving the exterior of the
cars a particularly attractive appearance.
They are mounted on six-wheeled trucks,
with triple brakes, and are vestibuled, so
that the maximum of easy motion, safety
and freedom from dust are insured.
They have a new roof pattern, the
empire deck, which largely increases the
roomy appearance.Each car has a commodious
drawing-room, finished in green enamel
and gold, with a toilet annex, all of which
can be used separately from the main car.
There are twelve sections in each car,
finished in carved mahogany and uphol-
stered in green velvet plush. The smoking
room is finished with vermillion wood and
embossed leather. In every part the new
cars promise all that can be desired for
luxurious travel. In delivering the cars the
Pullman people state that they are the
finest ever built by the company, and this
claim is approved by the experts who have
inspected them.J. P. Bradford, superintendent of the
