[New York Post.] Among the visitors to the Prince and Princess of Wales during their Indian Is wasteful and ridiculous excess. tour will be the ruler of Bhutan, a gentleman who rejoices in the title of Tongsa Penlop. The incident is one of camp grounds wiped out some political importance, because it indicates a renewal of good relations with the Bhutanese, whose country, lying to the east of the Chumbi Valley, flanks the only practicable route into Tibet. Thanks to the policy pursued by Col. Younghusband, the attidealings with Bhutan. During the Younghusband mission an agreement have spoken, was also destroyed. ruler, who consented to the construction of a road through his country, and gave Col. Younghusband an assurance of friendship with India. He himself proceeded to Lhassa with the mission and in January last was made a K. C. I. E. Soon afterward Mr. Claude White, the British political officer of that part of the frontier, was sent to

Bunakha, the Bhutanese capital, to invest the chief with the order. He was received with great cordiality, was allowed to travel through parts of the country never before viewed by Europeans, and returned to India d'ter a journey of great geographical interest

One on William.

[Chicago News.] In searching about the house in which the great William Shakespeare was born the historians observed a quaint old curtain still hanging over

"And what is this?" asked one of the "Possibly the shade of Shakespeare," replied the local buffoon, and the joke seemed so original he sold it to the London comic papers.

The Polygamy Bugaboo. [Hamilton Times.]

The Times does not share the alarm of some ladies of the W. C. T. U. over tell of his own life. Until a year and the Mormons of the Northwest. We a half ago he had to fight the great have not been able to trace it back desire. His reformation will no doubt to any justifying facts in the history prove a very interesting story. of the Canadian settlement. Those who are in the best position to discover it if it existed declare that the practice of polygamy has no part in the l'fe of the people there. township of Harwich, Kent County, Ontar o, there has been for many years a settlement of Mormons, name of the organization being "The Reorganized Church of Jesus Christ of recently put on a diver's suit in Ceylon Latter Day Saints." They have their and brought up from the paars, or peculiar belief, but polygamy is never mco ed, and they are good citizens and reighbors. We fancy that the thriling alarm manifested in some quarters about the settlement in Mani-tona is unjustified. We don't like the exclusive settlements idea, no matter of what race or sect, but we have feith in the rower of the Canadian law and its administration. We think that the chances of having to invoke it aminst a concerted campaign for polygamy are very remote. Not Solo-mon himself could make it popular in Canada; here every weman wants one man such as she can salve up, all to herself. Joa Salth's ideas don't go with the Canadian maidens.

Even a man of steel may lose his

Is Diseuse a Blessing in Disguise?

[From the Philadelphia Inquirer.] It is possible, and even likely, that The law relating to marriage recog- the address delivered by Sir Frederick sented as having made the statement Disobedience, adultery, barrenness, instead of being an evil jealousy, physical antipathy, talkativea kind of blessing in disguise, that its hard saying and it is not rendered satisfactorily intelligible by the illustra-

tions with which it is accompanied. It may be true that the inflamma-tion resulting from a wound is a process of cure to be imitated rather than hindered. Yet if the inflammation be permitted to continue unchecked the consequences are apt to be unfortunate. The same objection applies to the assertion that peritonitis is the operating surgeon's best friend, as in its husband is in the absence every case of appendicitis would prove fatal. Peritonitis may be "Never speak evil of your nighbors. of service by directing attention to the "Strict obedience to a husband is a existence of a diseased condition of the vermiform appendix, but that diseased condition itself can hardly, by any stretch of the imagination, be described as benevolent or desirable. It it, of course, true that the symptoms by which disease is attended frequently express the effort of nature to throw off the injurious element by which the system has been invaded, and that in this way they fulfill a useful purpose.

It is also undentable that they have of a danger to be recognized and reunconscious of his transcendental pelled, and if Sir Frederick had said no more than that his meaning could have been easily understood. But when he asserts, as he is alleged to In those first few days! How soft his have asserted, that disease is an indiswhich must challenge criticism and contradiction. It must be assumed that in his remarks the English surgeon was referring not to the disease itself not to the primary cause by dition of the body is produced, but to the exterior developments by which the the system is signalized and emphasized, which is quite a different thing. There was a time in the history of medicine when the symptom was cononly,
And has vanished, for he was too good

founded with the malady and when the suppression of the one was thought novels.

And his whistling, which was constant, if not all, diseases are produced by some characteristic bacteria whose pernicious activity must in some way be neutralized; but that those malignant bacteria to whose destruc-tion every effort of the modern science of medicine is directed are actually the friends of humanity is more than any sane person can be expected to believe. It is improbable that Sir Frederick Treves actually said that "Well, yes, considerable. At the if it were not for disease the human
