Doctors Delighted, Say New Remedy Is As Useful As Antitoxin

Late scientific research has brought forward results that seem ineredible. For centuries diphtheria was dreaded as the plague-now it is invariably cured by antitoxin, a remedy that kills germ life.

Knowing full well that germs caused catarrh, asthma and bronchitis, a committee of specialists have worked unceasingly to discover an antiseptic healing agent that would destroy the germs of these diseases. Their search has been rewarded, and now every sufferer is offered an absolute specific at small cost. The name of the treatment that so quickly cures catarrhal troubles is "Catarrhozone," which is inhaled with the air you breathe, thus reaching all the affected parts. It purifies as by fire, simply burning up the germs and foul secretions of catarrh. So healing and soothing is Catarrhozone that in three minutes you feel relief-nostrils that have been stuffed are cleared-throats that were raw are healed-bronchial tubes that wheeze and hurt are strengthened and made well. Physicians now acknowledge that Catarrozone is the only remedy that safely reaches diseased parts of the lungs, nose, throat and brenchial tubes, and are prescribing it whereever possible. For colds, coughs, throat weakness and winter ills it has no equal-it prevents and cures, too. Any good druggist can now supply Catarrhozone, large outfit for \$1, or a small trial size for 25c. We advise our readers to buy Catarrhozone.

Prime Minister Whitney confronted the big delegation rather timidly. He was armed with his diary and supture much interested in the proceedings hovered on the outskirts of the crowd with their ears wide open.

"If we had a place big enough for you," apologized Mr. Whitney, "we would put you in it. But we haven't." He added by way of suggestion that there were other deputations to meet the Government this morning. Also that all parties were pretty well seized of the matters to be referred to by the alliance folks.

President Gibson Speaks. Mr. Joseph Gibson, of Ingersoll, president, opened fire for the delega-

A Voice-And Mr. Hanna should back it up now by repealing the law. The Provincial Secretary smiled a broad smile. Mr. Gibson spoke of the repeal of

the three-fifths clause in Manitoba. "We have been advised that it is simply a majority vote that carries local option there now-nothing more is needed." Hon. Mr. Whitney-There's no

doubt about that. "Then Ontario, which is a much older province, should have the same chance to get rid of the bar as Manitoba," replied Mr. Gibson.
