REPEAT ORDER JUST IN

of our Celebrated Moquette Rugs, beautiful patterns, only \$2.47 each.

MORE AMERICAN BLUFF.

They May Try to Hang It on Us, But It Will Be a Boomerang.

A DUTY OF \$4 PER M. TO BE LEVIED.

Sir Julian Pauncefote is of the Opinion That the Proposal is in the Nature of a Bluff—What See. Gage Thinks of Doing.

Detroit, Mich., April 29.—A Washington special to the Free Press says that it is stated on excellent authority that the Treasury Department will adopt Secretary Gage's plan of levying a duty of 4 per thousand feet on Canadian lumber after a notice of thirty days, in the event that Canada fails to take action prior to May 15th, looking to the lifting of the embargo on the exportation of logs from Ontario owned by Americans. Daily conferences have been held at the Department concerning these important questions, and Secretary Gage has now become convinced that the possible embarrassment of the American members of the Joint High Commission is not a contingency to be feared. In this connection it is pointed out that the grievance in this case is that of American citizens who have suffered an injury at the hands of the Canadian Government, and that this injury has practically been received since the Joint High Commission was authorized. "Canada is the aggressor, and no action taken by the United States can be regarded as compromising our members of the commission. In spite

of the efforts that have been made to test the sentiment of the Canadian Government in regard to the proposed action of the Treasury, it is said at the department that no information on that score has been obtainable.
Sir Julian Pauncefote, prior to leaving Washington, expressed the opinion unofficially that the Canadian Government would not attempt to annul the act of the Ontario Parliament, and smilingly said that the proposed action of the Treasury Department was in the nature of a "bluff." It is known here that while no official communication has been sent to Ottawa on the subject, the Privy Council has been informally advised by the attorneys for the American lumbermen that the department intends to invoke the regulatory provisions of the Customs Act in default of the desired action on the part of the Dominion Government.
It is believed here that the whole question will be brought to a sharp issue within the next few days.

ANOTHER COREAN CRISIS

The Government Opposed to Civilization in Any Practical Form.

San Francisco, Cal., April 29.—The steamship "Maud," which brought the following correspondence to the Associated Press, under date of Seoul, March 28:—"During the past winter, the Korean government has passed through another of those crises which have marked her recent history with such regularity. The liberal element, which tried to make itself heard, was defeated, and today we see the same conditions of affairs which existed in the days when Korea thought she could defy all attempts to civilize her. The prisoners are being released, and the government is believed to be fatal retrogression. They have been given no trial or opportunity to speak for themselves. The government is in the hands of the most conservative element of the land. Financially they are making ends meet by misdirecting money, which may result in a discount, which will add heavy burdens to the people and hand to the government itself. A few days ago five of the Ministers of State were banished, usually on the charge of having sold offices, but it is generally understood that it was because they were not in full sympathy with the policy of retrogression, which now holds sway in the councils of the nation."

FOUNDERED OFF BERMUDA.

A Coal-laden Steamer Sinks—The Captain and Crew All Right.

San Juan de Puerto Rico, April 29.—The steamship Kanawha, of New York, Captain Evans, which left Newport News on April 2 with coal for Bermuda, yesterday broke her rudder and foundered 150 miles from Bermuda on April 6. Her officers and crew, 14 men in all, took to the lifeboats, leaving all their effects on board. The ship was rescued by the American brig Albatross. Captain Darling, bound from Philadelphia for San Juan with a cargo of lumber, was informed by a man from the Kanawha that she was in danger from hunger and thirst. The Albatross arrived here with the shipwrecked sailors, and the Kanawha was fully recovered from their shipwreck, and enthusiastic over Captain Darling's generous conduct. The steamer Kanawha was built at Bath, Maine, in 1887, was 12 feet long, 23 feet beam, 36 feet deep and of 431 tons. She was owned by John A. Bonnet.

"W. J. Kerr, of St. Thomas, has received a communication from the Fidelity and Deposit Company, of Maryland, asking for particulars regarding James E. Hannon, who is now in Toledo, Ohio. Hannon is the man who eloped recently with Miss Alexander. He applied to the company for a collector's \$100 bond.

WEEKLY CABLE LETTER.

Lord Lorne Refused a License for His Rosenenth-Hostelry.

GERMANY AND THE UNITED STATES

Cordial Welcome to New South Wales Troops.

HER MAJESTY'S MOVEMENTS.

Oliver Cromwell's Tercentenary Celebrations—The Australian Cricketers—Some Ghastly Stories Related—Mr. Morris' Choice of a Poet Laureate—Lydia Thompson's Farewell.

London, April 29.—London is still practically deserted by society people, most of whom are at Newmarket, where there is a very gay and fashionable gathering. Here the Prince of Wales has been enjoying himself, while Dr. Joseph Parker, from the pulpit of the City Temple, has been fulfilling against him as a horse-racing prince. The newspapers of this city generally have taken Dr. Parker very severely to task for his violent language in his sermon on Tuesday last, on the occasion of his address on Oliver Cromwell.

CROMWELL'S TER-CENTENARY.
The most interesting event of the week has been the ter-centenary of the birth of Oliver Cromwell, Lord Protector of England. Celebrations have taken place all over England at places connected with incidents in the life of Cromwell. The chief ceremony was held at his birthplace, in Huntingdon, on Tuesday, when sermons were preached and a great demonstration took place at Market Hill. Many thousands of people visited Cromwell's home at Hitchin, and meetings were also held on the battlefield of Naseby. At this latter place pastors of the Church of England protested against the seeming attempt to glorify the Nonconformists in monopolizing the Cromwell celebrations.

GAVE THEM WELCOME.

There was an Imperialistic demonstration on a small scale on Thursday, when a detachment of the New South Wales Lancers arrived at New Albert Dock and marched through London to the Waterloo station, from which point they went by railway train to Aldershot for six months' training. The Coldstream Guards led the procession as it passed through the streets. The Lord Mayor and sheriffs, in full robes of office, stood upon the balcony of the Mansion House to see the men march. The Lord Mayor, Sir John Voce Moore, frantically waved his cocked hat and shouted in applause. Large crowds filled the streets along the route, and the Lancers, who were greeted with great enthusiasm.

THE ANTIPODEAN CRICKETERS.

Another body of Australians whose doings will help to fill the newspapers during the next six months is the Australian cricket team, which will next begin a tour of England, during which they will meet all of the county cricket teams. The season of the national pastime opens on Monday. The newspapers are already devoting much space to discussion of the prospects of the game, and to arrangements which have been made for matches.

OPENED A NEW BRIDGE.

Queen Victoria this week opened a new bridge over the Pailion River, near Cimiez, on invitation of the local French authorities. The Mayor and a section of the municipal council wished to open the bridge named Victor, in honor of the Queen; another section immediately started a counter proposal to name the bridge for Felix Faure, the late President of the French Republic, while a third party wanted the bridge named after a local celebrity. Feeling ran high, and finally, after a farcical squabble, it was decided not to name the bridge at all.

A DOMESTIC AFFAIR.

The Queen is at present engaged in arranging the delicate matter of the divorce of her granddaughter, Princess Maud, who is already tired of living in gloomy Copenhagen. Her husband, Prince Charles, therefore, decided to seek refuge in the British service, and become a naturalized subject of the Queen. Crown Prince Frederick of Denmark is now at the residence of the subject with the Queen, discussing the subject with her.

TURNED LORD LORNE DOWN.

The Marquis of Lorne, son-in-law of the Marquis of Salisbury, has been refused a license for a hostelry at Rosenenth, known as Ferry Inn, which has the unique glory of having had a member of the royal family as an architect. Princess Louise of Lorne having drawn the plans for its reconstruction. The Marquis owns the inn, and recently evicted the landlady, who was his tenant for thirty years, in order to transfer it to his late butler. The licensing board marked its disgust at the Marquis of Lorne's action by refusing to renew his license for the inn, and granting the former landlady a new license for another house.

GERMANY AND THE STATES.

Mr. Robert P. Porter has returned to London from his mission to Germany. Mr. Porter said to the correspondent of the Associated Press:—"That he was entirely satisfied with the results of his visit. He had found a great growth of better feeling in German commercial circles towards the United States. He had also found Baron von Buelow, the Minister of Foreign Affairs, and the Minister of Commerce and all other Imperial functionaries prepared to go far towards furthering reciprocal treaties. While in Rome Mr. Porter met Signor Fortis, the Italian Minister of Agriculture, and learned from him that the Government intended to take full advantage of the new markets opened up in Cuba and Porto Rico in the case of goods which they manufacture equally with Spain, and with the open door policy. Mr. Porter thinks that Italy will eventually supplant Spain in the commerce of the West Indies. Mr. Porter will proceed to Paris in a few weeks to study Russian economic questions."

AN AMERICAN BISHOP'S VIEWS.

Bishop Whipple, of Minnesota, whom the papers here describe as the most striking figure at the Church Missionary centenary celebrations, has been quoted everywhere since his stay in London. He said that his view of the difference between England and America was that there was a widespread desire for unity. Speaking of Americanism in the Roman Catholic Church, Bishop Whipple said he believed it was a passing infatuation. He said that in America he was concerned, there is no such tendency anywhere. Conversation with the head of the church in England and America was of a very friendly character. There is a widespread desire for unity. Speaking of Americanism in the Roman Catholic Church, Bishop Whipple said he believed it was a passing infatuation. He said that in America he was concerned, there is no such tendency anywhere. Conversation with the head of the church in England and America was of a very friendly character. There is a widespread desire for unity.

TO CURE A COLD IN ONE DAY.

Take Laxative Bromo Quinine Tablets. All Druggists refund the money if it fails to cure. 25c.

England began. Bishop Whipple has just returned from a visit to Oxford University, and is going to Cambridge next week. In the course of his interview on his impressions during his visit, Bishop Whipple said that he had seen all the leading churchmen here, and as a result viewed the ritualistic controversy calmly. There was certainly, he said, no necessity of panic. As showing the difference between England and America, the Bishop said that in England the Episcopalians never go back to Rome, and as far as America is concerned, there is no such tendency anywhere. Conversation with the head of the church in England and America was of a very friendly character. There is a widespread desire for unity. Speaking of Americanism in the Roman Catholic Church, Bishop Whipple said he believed it was a passing infatuation. He said that in America he was concerned, there is no such tendency anywhere. Conversation with the head of the church in England and America was of a very friendly character. There is a widespread desire for unity.

SOME GHASTLY STORIES.

Advices from the Niger Coast Protectorate record the return of an expedition sent to the interior to put a rising. The troops bring back a ghastly story of fetish worship and human sacrifices among the native tribes. They found whole batches of natives crucified at different places, the victims being mostly women, who had been subjected to revolting tortures.

MR. MORRIS' CHOICE.

Mackail's "Life of William Morris," which is published this week, mentions the interesting fact that Mr. Gladstone was so much impressed by the book that he should be nominated Poet Laureate in succession to the late Lord Tennyson, and that Mr. Morris' choice of friends that he made in the poem of Lorne ought to be the Poet Laureate, the view of Mr. Morris being that the proper function for a poet laureate was ceremonial writer of official verse, and that the view of Lorne was best fitted for the post by reason of his position and requirements.

LYDIA THOMPSON'S FAREWELL.

There will be a grand muster of actors and actresses to assist at the farewell of Lydia Thompson at the Lyceum Theatre on Tuesday evening next, when the beneficiary quits the stage.

UNITED STATES NEWS.

SIX INCHES OF SNOW COVERS THE BLACK HILLS.

Articles of Clothing Blown 25 Miles by the Recent Storm.—Correspondent of the United States Company's Properties—Minor Telegrams.

Deadwood, S. D., April 29.—A howling blizzard has been raging all through the Black Hills for the past twelve hours. Six inches of snow have fallen here, and reports from farther north state that the fall is heavier than in this immediate vicinity. All farm work is suspended.

A CORNER IN VINEGAR.

Chicago, April 29.—The Tribune says:—"At the middle of May there will be but one vinegar factory in Chicago, the output of which is not controlled by the American Vinegar Company, which is being financed by Henry C. Ford, of New York. The American Vinegar Company will, it is said, control 95 per cent. of the vinegar and yeast outputs in the United States. The consolidation of all the interests will terminate a four years' war, which has resulted disastrously to yeast manufacturers. Yeast for some time has been selling for ten cents a pound, while the cost of manufacture is about five cents. The price of vinegar, at the latter figure, the future price of vinegar will be less affected, and may be neither raised nor lowered."

BLOWN TWENTY-FIVE MILES.

Lancaster, Mo., April 29.—A great many articles of wearing apparel, pearls and pieces of jewelry, bearing the names of Kirkville persons, were found strewn over the eastern part of this county yesterday. They were blown from the house of a twenty-five miles, by the tornado. Among other things was a \$100 note.

BURNED THE PROPERTIES.

Malone, N. Y., April 25.—All the paraphernalia belonging to Witherell Dowd, "Uncle Tom's Cabin" author, which was stored in a building here, was destroyed by fire last night. The company was to start on the road in a few days.

DEATH OF MR. GOELT.

New York, April 29.—World has been received from Naples, where New Goelt died on Thursday aboard his steam yacht Nahma, that the body has not been taken ashore, but will be allowed to remain aboard. The body was being kept in a cold storage for this port, carrying the body of her owner with her family.

CHINAMEN ON A NEW ROUTE.

El Paso, Texas, April 29.—Government frontier guards here are much disturbed now over the fact that Chinese in droves are constantly passing through the United States direct from Mexico, via San Francisco, to points in China. It was formerly their practice to land in Canada, but the vigilance of the army of guards along the northern border has induced them to go to Mexico instead, realizing that the extensive and ill-guarded frontier along the dry Rio Grande offers them every opportunity of crossing without hindrance.

CANADIAN PACIFICS STRONG.

A Wild Scene on "Change When the Advance of 212 Points Was Announced at Montreal.

Montreal, Que., April 29.—The prediction that Canadian Pacific would reach par in a few days, this morning, after being realized this morning on the local stock exchange, the price closing at 97 1/2, after opening at 95 1/2, an advance of 2 1/2 points in an hour and a half. London opened higher this morning, and New York followed suit, and as the figures of both boards were known to the local brokers before the opening here, there was a wild scene when the opening call was commenced, Canadian Pacific being the first on the list. There was a regular scramble to get the stock, and it took considerable time to get the market to unravel the tangle of buyers. Par now seems a certainty next week. Seven thousand seven hundred and fifty shares changed hands this morning.

PHINOSASK INDEPENDENCE

As a Condition of Surrendering Arms and Ammunition;

ALSO AN AMERICAN PROTECTORATE.

Gen. Otis' Conference With the Insurgent Representatives Fruitless.

FRESH PROPOSALS EXPECTED.

Full Amnesty Promised the 'Pinos by Otis on Surrendering—They Are Tired of War, But Seek Peace Through Their Representative Congress—The Yorktown's Crew.

New York, April 29.—A copyrighted despatch to the Evening Journal from Manila says that Aguinaldo to-day offered to surrender everything—men and munitions—to Gen. Otis upon the condition of independence for the Philippines and an American protectorate.

GIVEN THE TERMS.

Manila, April 29, 3 p. m.—The conference to-day between Gen. Otis and Col. Manuel Argueles and Lieut. Jose Bernal, who came from Gen. Luna under a flag of truce yesterday, to ask for a cessation of hostilities, was fruitless. It is understood that the Filipino commissioners were given the terms upon which the Americans will consent to negotiate. The Pinos admit that they have been defeated, and it is expected that they will return with fresh proposals from Gen. Luna.

AN AMNESTY PROMISED.

Washington, April 29.—The following despatch from Gen. Otis was given out to-day:—"Manila, April 29.—Adjutant-General, Washington.—Conference with insurgent representatives terminated this morning. They request cessation of hostilities three weeks to enable them to call their congress to decide whether to continue prosecution of war or propose terms of peace. Proposition declined, and full amnesty promised on surrender. Believe insurgents tired of war, and seek to secure terms of peace through what they denominate their representative congress.—(Sgd.) Otis."

HOLDING THEM PRISONERS.

New York, April 29.—The Herald has a despatch from its correspondent at Manila which says that the insurgents at Baler state that they have the missing men of the gunboat Yorktown and are holding them as prisoners. This refers to Lieut. Gilmore and the fourteen marines captured near Baler some time ago.

DRIVING A SHARP BARGAIN.

The envoys from Gen. Luna were very hospitably treated by Gen. Otis, who provided them with a house and with a guard, and permitted them to visit friends here. Returning to the palace this morning the envoys saw a illustration of American resources. A long train of wagons and pack mules was just starting with provisions for Gen. Luna, who has been dead and 120 injured. The 29 envoys at the palace lasted three hours. Mr. Jacob G. Schurman, of the United States Philippine Commission, attending, and Admiral Dewey dropping in for an hour. The discussion was mostly between Col. Otis and Col. Argueles, who had been selected for the mission by Gen. Luna because he had known Gen. Otis and his policy. To the Philippine committee which met the American authorities before the war in an endeavor to smooth over the impending troubles. Mr. Schurman emerged from the palace between two shock-haired, half-savage looking emissaries, and the three drove unattended to the office of the United States Philippine Commission, where they talked informally for about an hour. Manila is divided between two opinions, the majority believing that the Pinos desire peace, while others think that they are stalling for time in which to rehabilitate their demoralized army. The latter opinion gained color from the fact that reinforcements have been sent to the south, opposite the American lines. Col. Argueles, who is a lawyer, splendidly illustrated the Malay subtlety at words. While he declared with apparent frankness that the Pinos leaders wanted a chance to give up the struggle gracefully through the congress instead of surrendering ignominiously, he asked for a fortnight's armistice, so that the congress might be summoned on May 1. He endeavored to commit the Americans to greater concessions, and wanted to be guaranteed by treaty. He was to that recognition of the Filipino Government was impossible, and he was given to understand that a written guarantee of amnesty for all insurgents was the utmost that could be given. Col. Argueles argued that Spain had given similar guarantees and broken them, and he last much stress on the Spaniards' honor. He persistently declared that the Pinos must be permitted to retire with honor.

52 DEAD; 126 INJURED.

Tt Mortuary Roll of Victims by the Missouri Tornado.

St. Louis, Mo., April 29.—The roll of killed and injured at Kirkville, Mo., where half the population was destroyed by a tornado Thursday evening, continues to grow by reason of the finding and identification of additional bodies of the dead and wounded, and the release from their sufferings by death of some of the more badly hurt of the victims. A revised list shows the names of fifty-two dead, and 126 injured. To the list of deaths is added the name of Mrs. Hennon, wife of a newsdealer, who died shortly after midnight. At least a dozen of the injured are so badly hurt that their lives are despaired of. M. R. Elliott is added to the list of missing. Scarcely a household in the devastated district but lost a member by death or suffered injury in some way. In several instances whole families were wiped out. The total financial loss is placed at \$350,000, falling most heavily on small householders, who lost everything. It is believed that all the dead and injured at Newton have been accounted for. The number of dead is placed at 11 and the injured at 32.

A MAN OF WAR.

More From Germany's Delegate to the Peace Conference.

Ask your doctor how many preparations of cod-liver oil there are.

He will answer, "Hundreds of them." Ask him which is the best. He will reply, "Scott's Emulsion."

Then see that this is the one you obtain. It contains the purest cod-liver oil, free from unpleasant odor and taste. You also get the hypophosphites and glycerine. All three are blended into one grand healing and nourishing remedy.

60c. and \$1.00, all druggists. SCOTT & BOWNE, Chemists, Toronto.

The kidneys are the sewers of the body. If out of order they cannot carry off the body's impurities and disease surely follows.

WARNER'S SAFE CURE has proved for twenty-five years to be the only reliable corrector of the kidneys.

If you would avoid spring sickness, put the kidneys in order at once.
