THE YEAR 1904—A REVIEW.

At 12 o'clock last night the fourth year of the Twentieth Century closed out. Taken all in all, it has not been a very eventful one.

Politically it was a momentous year for Canada and the United States. Presidential elections in the United States and general elections in Canada had marked the year.

Canada as a whole has enjoyed remarkable prosperity. One feature of its expansion is the great volume of immigration to the country.

Some days ago the record announced that British Columbia fruit had not only been successful in its marketing but that the active industry and trade of the eastern provinces has been most marked.

Municipally in Victoria the year has been one of great expansion. We need only refer to the extensive public works that have been carried out and that are still in progress.

The ranks of the British Columbia politicians rapidly thinned out. One of those whom we call to mind as having passed away during 1904 are Sir John Trutch, then resident in England.

For lack of space we have reserved a brief review of the politics of Europe for another occasion. Since it is to be said that no events of importance occurred to mar the peaceful relations of the powers.

mental death roll of men and women prominent in every sphere of life, but space will not permit even brief reference to them.

During the early part of the year more especially there were wars and rumors of war, floods, disasters at sea and in the air, and holocausts, which might have been held, and probably were held by many, to be portents of the day of doom, so frequent were they.

Two of the large industries of the province have suffered severely. The first was the fishing industry, which was due to expected smallness of the run of salmon in the Fraser river.

General business throughout the province has been good, and prospects for the coming year are bright. The former, especially in the northern and western sections, has had a very successful year.

would not worry about charges brought by members of the Government that is carried in the breeches pockets of Senator Cox and Manager Hays.

No other man has done so much for the cause of reform in Russia as Count Tolstoy, and yet when a practical scheme of reform was made to be carried out, it was not always the best judge of the form which change should take.

NEW ZEALAND WANTS SALMON. L. F. Aron, commissioner and chief inspector of the Fisheries Department, has arrived at San Francisco for the purpose of taking home with him 1,000,000 eggs of the salmon.

When the written examination was first introduced as a basis for promotion, special stress was laid upon the final examination, that is, the examination held at the time the promotion was made.

pled to the James Bay mud flats. In the amount asked for sufficient? Who is responsible for the estimate? Would not the money asked for to be used in the improvement of Douglas street be better spent in building more streets?

Whether the money asked for in connection with the public works is not being wisely expended is a question which is being asked by many. What is exercising the minds of the taxpayers now is whether secret sessions are in the city's interest?

THE ESQUIMALT NAVAL STATION.

There are many citizens of Victoria who regret to see the same error repeated in the case of the Esquimalt Naval Station. The Esquimalt Naval Station is a very important one and it is to be expected that it will be a prominent feature in the city.

As an example of this, a Manitoba who is now in Victoria, asked me today if I could not do something to help him. He is a very poor man and he is in need of help. I am sorry that I cannot do more for him.
