MRS. FRED SMITH

SUFFERED 10 YEARS

Says the Good Tanlac Did Her Is so Wonderful as to be Almost Unbelievable.

When the Tanlac representative called on Mrs. Fred Smith of Power's Court, Glen Falls, St. John, N. B., he got a most hearty reception from both her husband and herself. "We are so glad to see you," said Mrs. Smith, who is a bright little Yorkshire woman.

"Anyone on Tanlac, business is welcome here, for if it hadn't been for that marvelous medicine I shouldn't be up and about the house to-day." Then was related a story which did the representative's heart good to listen to.

"You see I have suffered from dyspepsia and a disordered stomach for quite ten years. No one knows what I have gone through during all that time. I could never enjoy a meal even fish used to upset me. I had fits of dizziness and often I would jump up from the table with a feeling that I was going to faint. Some times my heart would palpitate so terribly I feared I had heart trouble, but I know now that it was only caused by the pressure of the gas which used to form on my stomach. I got so weak at last that I could scarcely get around, and it was quite a task to climb a flight of stairs. For the last two years my condition has been almost chronic, for in addition to my other troubles I have suffered terribly from rheumatism. The muscles at the back of my knee would knot up into great lumps causing me intense agony and the joints of my fingers used to swell up so that I could scarcely use my hands. For two months last winter I was in bed and my daughter had to stay at home and help nurse me. I was a pitiable sight I can tell you."

"It seems almost unbelievable but it was Tanlac which rescued me from this deplorable condition. My husband had read in the papers the statements of other people who had greatly benefited by its use, and it was he who bought the first bottle. That first bottle did me so much good that I cannot the present and it was not long before my rheumatism left me entirely and it has not returned. I got such an appetite and to my surprise found that my food agreed with me and was doing me good. I quickly got stronger and to-day I am so well that I can do my own housework and think nothing of a two-mile walk. Everybody who suffers as I did ought to know about Tanlac as it is for the reason that I give you this statement."

TANLAC is sold in Campbellton by THOMAS WRAN, Druggist; in Jacquet River, by S. McALLISTER, in Archibald Settlement, by M. SKEARER; and in Chandler by ARTHUR NADEAU.

A few short years of grief and pain. We reach that happy shore. Where death divided friends at last. Shall meet to part no more.

RETURNED SOLDIER

LOST IN WOODS

Was Three Weeks in Forest Alone—Lived on Berries and Was Nearly Dead.

After being lost in the wilds of Algoma for twenty-three days William E. Davis, who went overseas in the Sixty-ninth battalion, which remained one winter in St. John, has been rescued by prospectors who happened to find him lying on the ground in an emaciated condition and unable to help himself. Davis was wounded in France and bears a battle scar. He is thirty years of age, of Irish descent and was born in Montreal.

Last month Davis, who was in the employ of Clifford Miller, a pulpwood contractor, operating in the Michipicoten district, lost his bearings while packing to camp the dishes from which the crew had lunched. He got mixed on trails, and followed the wrong one, which ended in a cul de sac. He was unable to locate himself before night fell.

When the crew returned to camp and learned that he had not turned up, a search party started out but found no trace of him. They fired a few shots to give him the direction, but Davis, although he heard the shooting, could neither make out the direction of the shots, nor make himself heard. The search was kept up for several days by parties of from ten to thirty men, including Indian hunter parties. The weather turned quite cold at night, and the search was abandoned. Davis was believed to be either dead or to have quit his job and headed for Algoma Central Railway track.

The latter theory gained evidence as the time went by. But as the sequel showed he was neither dead nor had he quit his job willingly for he is now at work where he left off.

Story of Endurance.

It is a story of almost incredible endurance. Davis "chucked" the dishes on the second day, but hung on to the pack-sack. As he had no coat, and only one shirt, he cut a hole in the bottom of the pack-sack which he slipped over his head at night. This afforded him some protection from cold and rain. Although a smoker, he happened to see a person when he wandered off. He gave neither tobacco nor matches on lived entirely on partridge berries for the first two weeks. When the blueberries began to ripen he fared better. He drank little water.

A day or two before he was found he became very weak and felt that the end could not be far off. By this time, however, he was lying on a hill top within sight of Lake Superior, not over two miles from the shore. Although he heard motor launches pass, he was too weak to cross the scrubby broken country that intervened between his resting place and the water.

Providence finally came to the rescue. Two prospectors, "Doc" Lovell and Mike Rowan, happened to be negotiating a difficult portage. They decided to drop the canoe which they carried and hunt up some easier route. While doing so they separated, but kept in touch by talking loudly one to the other. Davis fortunately heard them, and summoned enough strength to make for the prospectors immediately made for the energy to raise a shout. The prospectors and his shouting in shrills, rendezvous and found a pitiable object. He was at first from sheer weakness unable to accompany them. One of them had knocked over a partridge just a little while before. They cooked it and made a bouillon which gave the poor man enough strength to accompany them to Michipicoten River village only two or three miles distant. There they left him in the kind hands of a party of river drivers employed by the Lake Superior Paper Company.

When the writer saw Davis three days after his rescue he was eating four meals a day—a three man portion to each meal. The boys had replaced his shreds with becoming raiment, and he was a very happy and grateful man.

Davis attributes his wonderful endurance to his four years' experience in the army.

HAS NOT RESIGNED;

WILL NOT RESIGN

Because Dr. Smith Missed One Meeting in the Year Gleaner Says He Resigned.

"Because I missed one meeting in three years, the Fredericton Gleaner reported that I had resigned from the government," Hon. Dr. E. A. Smith, Minister of Lands and Mines, stated this morning to the Globe. "I am still a member of the government and expect to carry on as usual," he said, in answer to inquiry about whether he had resigned. "I have not resigned," he smilingly remarked. Dr. Smith is attending the Exhibition at St. John Globe.
