

AFTER SIX YEARS OF SUFFERING

Woman Made Well by Lydia E. Pinkham's Vegetable Compound.

Columbus, Ohio.—"I had almost given up. I had been sick for six years with female troubles and nervousness. I had a pain in my right side and could not eat anything without hurting my stomach. I could not drink cold water at all nor eat any kind of raw fruit, nor fresh meat nor chicken. From 178 pounds I went to 118 and would get so weak at times that I fell over. I began to take Lydia E. Pinkham's Vegetable Compound, and ten days later I could eat and it did not hurt my stomach. I have taken the medicine ever since and I feel like a new woman. I now weigh 127 pounds so you can see what it has done for me already. My husband says he knows your medicine has saved my life."—Mrs. J. S. BARLOW, 1624 South 4th St., Columbus, Ohio.

Lydia E. Pinkham's Vegetable Compound contains just the virtues of roots and herbs needed to restore health and strength to the weakened organs of the body. That is why Mrs. Barlow, a chronic invalid, recovered so completely. It pays for women suffering from any female ailments to insist upon having Lydia E. Pinkham's Vegetable Compound.

NOTE AND COMMENT

"By the way, what has become of Mme. Schwimmer?" asked an exchange. Evidently she has been engulfed in the waters of oblivion, having got beyond her depth.

The breaking of diplomatic relations between the United States and Germany might result in releasing the hundreds of interned enemy ships in U. S. ports. This would be welcomed. Enemy subs, sinking their own vessels, too, might then become a feature of Germany's naval success.

Since the inception of the Patriotic Fund in Montreal there have been 800 maternity cases. Last week a widow of one of the soldiers gave birth to twins. The Government was awaiting the event before granting the pension; now it will be required to pay \$10 instead of \$5. Statistics compiled by the Fund executive show that there have been more births in the Montreal district than there have been lives lost of soldiers who went into the battle zone.

The first year's test of the Workmen's Compensation Act establishes this as one of the best measures ever introduced in this Province. The report of the Board shows that the assessment for the first year

MRS. MELTON'S LETTER

To Tired Worn-out Mothers

Jackson, Miss.—"I shall feel repaid for writing this letter if I can help any tired, worn-out mother or housekeeper to find health and strength as I have. "I have a family of five, sew, cook and do my housework and I became very much run-down in health. A friend asked me to try Vinol. I did so and now I am well and strong and my old time energy has been restored. Vinol has no superior as a tonic for worn-out, run-down, tired mothers or housekeepers."—Mrs. J. N. MELTON, Jackson, Miss.

Taylor & Son, Druggists, Watford.

more than covered the actual needs, and that as the result there will be a considerable reduction in the rates brought into effect for the present year in a number of classes of industries. One of the chief advantages shown in the actual operation of the Act has been the prompt payment to injured workmen and their families, some of the cheques being sent out within two or three days after the full particulars had been received. The cases dealt with numbered nearly ten thousand, and all these were settled without recourse in a single case to legal proceedings.

St. Thomas Times: A wise piece of legislation has just been passed at Toronto—a bill empowering municipalities to increase the poll tax on all male residents not paying land or income tax from the former maximum of \$1 to \$5. The tax is optional with the municipalities, and is collectable from the non-assessed over 21 years of age and under 60 years. The purpose of the bill, as explained by its sponsor, Mr. A. M. Rankin, M. P. P. for Frontenac is to reach the young men who are not property owners or income tax payers, but who are of age and enjoy most of the privileges of citizenship without assuming any financial responsibility except the ridiculously low poll tax of \$1—and many of them have in the past dodged even that. The movement for the right to increase the tax up to \$5 has been hastened by the war, with its added calls for funds for patriotic purposes.

\$100 Reward, \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

The Testing of Dairy Products

The price of success is attention to detail. This fact is distinctly emphasized in a bulletin recently issued by the Dairy and Cold Storage Branch of the Federal Department of Agriculture under the title of "The Testing of Milk, Cream and Dairy By-Products by means of the Babcock Test" and written by J. F. Singleton, Chief Inspector of Dairy Products. Without being profuse Mr. Singleton tells in plain language about all that is to be told of the practical application of the test, the care should be taken of the component parts of the apparatus, the measurements advisable and the methods that should be employed. The qualities naturally most emphasized are exactness, cleanliness and temperature. The Dairy Commissioner in his introduction says there is nothing fundamentally new in the bulletin but that the contents are presented with such a clearness of diction and the processes so aptly set forth that the result is a reliable handbook for those who value information on the testing of milk, cream and so on. A number of exact and plain illustrations lend additional worth to a notable bulletin, the number of which is 45 of the Dairy and Cold Storage Series and that can be had by post-free application to the Publications Branch, Department of Agriculture, Ottawa.

Certain morbid conditions must exist in the stomach and intestines to encourage worms, and they will exist as long as these morbid conditions permit them to. To be rid of them and spare the child suffering, use Miller's Worm Powders. They will correct the digestive irregularities by destroying the worms, conditions favorable to worms will disappear, and the child will have no more suffering from that cause.

To lessen the noise of a rubber hand stamp there has been patented a sound-deadening pad on which papers to be stamped can be placed.

The government of Holland is planning to establish direct wireless communication between the home country and the Dutch West Indies.

No one need endure the agony of corns with Holloway's Corn Cure at hand to remove them.

Obituary

George W. Partlow, a former resident of Walnut, who moved to Chapin, Mich., about 25 years ago, died on March 28th, 1916. The following notice from the Chapin paper will be of interest to many of the older settlers of Brooke:—

George W. Partlow was born July 9th, 1837, in the township of Malahide, County of Elgin, Ontario, and passed away at his home in Chapin March 28, 1916, aged 78 years, 8 months and 19 days. At the age of eleven he with five other children were left fatherless.

At the age of 23 he was married to Hannah A. Crane of the same neighborhood and moved onto a farm near Sarnia, Ontario. To this union was born two sons and one daughter, who passed away in 1894. Soon after his marriage he was converted and took connection with the Baptists and for about 25 years was superintendent of the S. S., which was first in the old log school house and then in the church which he helped to build.

After he had led the S. S. for so long, he thought he would let someone younger take it, therefore he resigned, and before two weeks had passed he was holding S. S. in a new part of the township where there had never been meeting. For five years he led the S. S. with a full house, until 1891, when he moved his family to Michigan and united with the Christian Church at Chapin. For twenty-five years he has been faithful and always found in his place at the church as long as he could attend.

On January 15, he fell on the ice, but in a few weeks was able to be about the house with a little help, until March 21, when he received a light stroke of apoplexy and he gradually went down until March 28, he left us.

He leaves to mourn, 2 sons, 5 grandchildren, 2 sisters and 1 brother together with hosts of friends.

The funeral was held at the Christian Church Chapin, Rev. Q. A. Kimberling officiated. Burial in Brant beside his companion, who passed away two years ago, April 12, 1914.

The pall bearers were five nephews and a grandson: Ernest R. Dexter, of Mt. Pleasant, Harvey Crane, Dillis Crane, Chester Crane and Jehiel Whaley of Brant, and one grandson, Oscar Willoughby.

SCHOOL REPORTS.

School report of S. S. No. 8 Warwick, for month of April. Class IV.—Winnifred Muma, Willie Boyd, Clare Dunlop. Class III.—Sr.—Arthur Percy, Shirley Benedict, Mildred Benedict, Jr.—Anna Percy, Winnifred Eastman, (Joe Dunlop, Joe Percy) equal, Greta Muma, Irene Eastman, Bertram Evans, Class II.—Edna Dunlop, John Cadman, Ethel Dunham, Clifford Sitter, Ellwood Benedict, Olive Dunlop.
