One appeal:
Angus Fisher, Sworn said, I am the owner of w ½, lot 5, con. 10, do not use this drain as my land is all tile drained

to the Burns drain.
Sutton — Campbell, that assessment against w ½ 5, con. 10, be struck off and

LIQUID-PAINT

PURE GRAY 29

is endeavoring by other means to encourage and develop our domestic manufactures and to utilize every reserve of resource in the Dominion. To do this it will be their aim to turn to the best account the work of Canadians in the factory as well as the field-to induce our people as far as practicable to make at home the things we need at home. The same spirit of patriotic sup-

port shown from to-day in the purchase of things made at home as was shown during the food campaign and in all national efforts for war, would remedy much of this great adverse trade balance without further machinery. An adverse balance means a lessening of our power to reconstruct Canadian trade, and to maintain and promote good wages and favorable living conditions. It is therefore an immediate and important duty for Canadian women wherever and whenever possible to insist on getting Canadian-made goods, and to help in making the national trade-mark, "Made in Canada," one of a high standard of excellence in our domestic as well as in foreign markets.

What Bolshevists Wish to do

peasants and agricultural laborers Their creed means the overthrow of the manufacturer and the merchant. It menaces the welfaae of every man who, by individual initiative and ability, has created his own business and established his little shop. denies recognition to everything but mediocrity. It acknowledges only manual workers, There is no place in its citizenship for mer who have made sufficient out of their own efforts to retire in their old age upon their little savings. Those who direct industrial affairs, the professional men and women who conduct great departments of public life, are aristocrats or bourgeoisie who are permitted to live only at the discretion of a tyrannical and ignorant party exercising an autocratic power as des-

ford in 1872.

Every woman-every girl-wants pink cheeks. They mean not only beauty but good health. When a woman's blood is scanty or anaemic, her color fades, she looks debilitated, is short of breath and her heart palpitates after slight exertion. Sometimes this trouble is accompanied by severe headaches, or pains in the back or sides, This condition is entirely back or sides, This condition is entirely due to weak, watery blood, and can only be cured by making the blood rich, red and pure. For this purpose there is nother ing can equal Dr. Williams' Pink Pills, which act directly upon the blood, and in this way bring new health and strength to weak, ailing people. Mrs. Anderson, Hearst, Ont., says: -"Before coming to Canada from England, I was a sufferer from anaemia for upwards of a year. I had been gradually getting paler and weaker. I did not realize that I was sick but felt constantly tired and worn out. I but felt constantly tired and worn out. I had no ambition for anything, and grew so white that my brothers used to call me "snowball." At this stage my mother decided that she would get Dr. Williams" Pink Pils, which are a favorite medicine in England as well as in Canada. On the day I commenced taking them I fainted on getting out of bed and mother nrged me to stay in bed for a few days. I really What bolshevists Wish to do

What the Bolshevists demand is a revolution in the established order of modern society which would deny authority and the means of livelihood to any but those professing their principles. They would have Labor own the tools of production and control the workshops. They would divide all land among the would divide all land among the peasants and agricultural laborers. serve all the credit for my restoration

You can get Dr. Williams' Pink Pills You can get Dr. Williams' FIRE FIRE through any dealer in medicine, or by mail at 50 cents a box or six boxes for \$2.50 trom the Dr. Williams' Medicine Co., Brockville, Ont.

The death of Georgina Munro, aged 14, the fifth daughter of John A. Munro, occurred at her home, township of Mosa, from diphtheria, Monday. Prior to her illness she attended Alvinston High School with her sister Edua. Interment was made in the Alvinston Cemetery. Warren, now overseas; and five sisters, Mabelle, in training at Victoria Hospital, London, but now convalescing at her home; Amy, teaching in the home school and Kathleen, Edna and Bessie at home.

given to national effort in food how great their collective influence may be in other directions. In every national undertaking during the war, the sympathy, understanding and active co-operation of women were proved to be essential. For the present and the immediate future, there is on women especially the obligation to see that purchases for the homes are made in such a way that the effect will be to stabilize Canadian trade. Wherever possible, they should buy only Canadian produce and Canadian products, because this will give employment in additional lines of production to returned soldiers and to those, many thousand in number, who were formerly occupied in war work. In this way, they will not only insure employment for our workers, but they will help also to lessen the financial pressure which is likely to be in-

same.—Carried.

W. J. WEED, Clerk.

TO THE WOMEN OF CANADA

The Canadian Trade Commission

is undertaking an extensive inquiry

into conditions in the Dominion for

the purpose of promoting an expan-

sion of "after-war" trade. It is felt, for reasons which will be easily un-

derstood by all women, that a return

to pre-war standards in trade, as in all other national aims and aspir-

ations, even if it were possible,

would not meet the new need, as the

huge financial burdens of the war and its consequences will have to be

The women of Canada, singly and

through their organizations, have

shown by whole-hearted support

borne for many years to come.

creasingly felt. Without entering exhaustive into the field of national economics, women will quickly realize that every dollar sent out of the country for commodities which can be produced at home will affect the financial situation adversely and at once. As the women of Canada purchase about 90% of the commodities used in our domestic life, a realization by them of their power to re-make and vitalize Canadian trade and finance is a first step towards relieving the situation and safeguarding the nat-

ional future. For every million dollars retained in Canada by a refusal to buy other than Canadian goods, a year's continuous employment can be given to at least 1,000 people.

The Canadian Trade Commission
