

GRAND

CLUBBING OFFER

We wish to add 5000 names to our subscription list during the next three months and to that end we make the following liberal offer:

We will send the **Canadian Science Monthly** in **Clubs of Five**, to separate addresses as desired, for one year, for **60 cts. each** subscription; in **Clubs of Ten**, **50 cts. each**.

This offer applies only to Canada, United States and Newfoundland, and holds good only till March 1, 1885.

The **MONTHLY** is not an abstract periodical filled with dry technicalities and articles interesting to but a few. It aims to combine the freshness and romance of out-door life—the trill of bird, the beauty of flower, the murmur of stream and dashing of waterfall with the more studious contemplation of Nature. It aims to lead its readers to a deeper love and nobler appreciation of the works of the Divine Architect which are spread around in such marvellous profusion and beauty.

The **MONTHLY** is printed on fine paper and enclosed in a neat cover. **VOL. III** begins with January 1885. **Subscribe now.**

Remit by Post Office Order, Registered Letter or Postal Note on New York.
