

## COGENT REASONS WHY

THE

CHATHAM

WAGGON

Adopted by the Government of the Dominion of Canada as the STANDARD WAGGON,  
should command your preference :—

The intrinsic cost and value of it is at least \$10 more than any other wagon made in Canada, and any unprejudiced practical man will tell you so, and the thousands who now have them in use say so, because it is not only made from the best, carefully selected and thoroughly seasoned timber and best of iron, but the axles used, made only by us, are superior to any skein made or used in Canada, and are constructed specially to receive our Olimax Truss Rod, which doubles the strength of the axle; the boxes of the hubs are pressed, not wedged in; a guarantee for a year accompanies each wagon, and notwithstanding this additional cost and superiority, the Chatham Wagon can be purchased at no greater price than is charged for inferior wagons. Bear in mind it is the running gear that carries your load, and no amount of fancy painting on the box will make an easy running and great carrier of a poorly constructed wagon.

**\$1,000 REWARD FOR ITS SUPERIOR**  
Washing made light and easy. The clothes have that pure whiteness which no other mode of washing can produce. No scrubbing required—no friction to injure the fabric. A ten-year old girl can do the washing as well as an older person. To place it in every household, the price has been reduced to \$3.00, and if not found satisfactory, money refunded within one month from date of purchase.

See what The Baptist says: "From personal examination of its construction and experience in its use we commend it as a simple, sensible, scientific and successful machine, which succeeds in doing its work admirably. The price, \$3.00, places it within the reach of all. It is a time and labour-saving machine, is substantial and enduring, and is cheap. From trial in the household we can testify to its excellence."

See what the Canadian Presbyterian says about it: "The Model Washer and Bleacher which Mr. C. W. Dennis offers to the public has many and valuable advantages. It is a time and labour-saving machine, is substantial and enduring, and is very cheap. From trial in the household we can testify to its excellence." Send for circulars. Agents wanted.
