THE CANADA LANCET.

started since the beginning of the war, according to information received from Hon. George H. Perley, Acting High Commissioner. Mr. Perley is president of the association, which includes in its membership Canadians and Anglo-Canadians resident in Great Britain. It is estimated that the provision and maintenance of the hospital for a year will case \$100,000, and Canadians are being asked to subscribe.

MEDICAL PREPARATIONS

THE TEST OF A TONIC.

The field and function of a systematic tonic is generally understood and appreciated by both physician and patient. To stimulate, whip or goad the vital processes is not to "tone," but, on the contrary, to ultimately depress. A real tonic is not a mere "pick-me-up," but some agent that adds genuine strength, force and vigor to the organism. The genuine tonic is a builder or reconstructor of both blood and tissue. Any agent which will increase the power of the blood to carry and distribute the life-giving oxygen is a tonic in the best and truest sense of the word. Iron in some form is an ideal tonic, as it builds up the vital red cells of the blood and the hemoglobin which is their essential oxygen-carrying element. Of all forms of iron, none is quite as generally acceptable and readily tolerable and assimilable as Pepto-Mangan (Gude). It creates appetite, tones up the absorbents, builds the blood, and thus is a real tonic and reconstructive of high order. It is especially desirable because of its freedom from irritant properties, and because it never causes a constipated habit.

GLYCO-THYMOLINE IN TYPHOID FEVER.

To keep the alimentary tract as free as possible from fermentable matter, to inhibit as far as possible the activity of the putrefactive bacteria which normally inhabit the intestinal canal, and to eliminate the toxin produced by the bacillus typhosus as rapidly as possible are desirable results to accomplish in treating typhoid cases.

The power of Glyco-Thymoline to produce these results is amply proven by clinical reports from eminent physicians in all parts of the country.

The distressing condition of fissured tongue and "cracked" lips is immediately relieved and the sordes of teeth and mouth quickly removed by the use of Glyco-Thymoline.
