"THE AUDIENCE WILL PLEASE JOIN IN THE CHORUS."—Late Chairman Reform Meeting.

MEMS. FOR FRESH-AIR SEEKERS.

It may not be generally known that Toronto is at present honored by the presence of a royal visitor. Yes, the Empress of India is here, and she never looked so blooming in her life as she does now. She has undergone a thorough renovation, and is gorgeous with carpets and fresh coats of paint, while her machinery has been so improved that she is now faster than before by a mile an hour. The ever genial Capt. Van Dusen is still in command.

The excursion steamer "Rupert" has been put upon the Lorne Park route for the season, and will no doubt command a large patronage from the admirers of that beautiful retreat.

THEY ALL DO IT.

Dentist—Do I hurt you, much, ma'am?
Patient—Oh, no, I scream because I like to!

John is a strapping youth. Yes, and he is also a youth who has been often strappell.

The question is asked, "With what book—not religious—would you be the most unwilling to part?" Many, if they would speak the truth, would say, "My pocket-book—that is, if it had anything in it."

THE GREAT GERMAN REMEDY.
FOR
RHEUMATISM,

*Neuralgia, Sciatica, Lumbago,
Backache, Soreness of the Chest, Gout,
Quinsy, Sore Throat, Swellings and
Sprains, Burns and Soalds,
General Bodily Pains,
Tooth, Ear and Headache, Frosted Feet
and Ears, and all other Pains
and Aches.*

No Preparation on earth equals St. JACOBS OIL as a safe, sure, simple and cheap External Remedy. A trial entails but the comparatively trifling outlay of 50 Cents, and every one suffering with pain can have cheap and positive proof of its claims. Directions in Eleven Languages.

SOLD BY ALL DRUGGISTS AND DEALERS IN MEDICINE.

A. VOGELER & CO.,
Baltimore, Md., U. S. A.

Miss Plantaganetta de la Sholly has just finished her education at a fashionable boarding-school. She is a young lady of an inquiring turn of mind. She has heard of coffee-houses. She would like to know how houses can be built of that material, as houses are built of wood, brick, or stone. She would like to see some of the yarn which boys make when they spin their tops. She sometimes hears it said to a dog, "S—catch him!" which she takes to mean, "Sketch him." She would like to see a dog draw a picture. She thinks that those who grind their teeth will leave themselves none wherewith to eat. She would not "for the world" eat bread made of ground teeth.

The Spirometer.

THE INTERNATIONAL THROAT AND LUNG INSTITUTE 75 Yonge street, corner King and Toronto. A body of French and English physicians are in charge. Great reformation in medical science. The Spirometer, the wonderful invention of Dr. M. Souvielle, of Montreal, an ex-aide surgeon of the French army, which conveys medicinal properties direct to the seat of the disease, has proved in the leading hospitals of Europe to be indispensable for the cure of catarrh, catarrhal deafness, bronchitis, asthma, and lung disease. Dr. Souvielle and a body of English and French surgeons and physicians are in charge of this, the most scientific institution on this continent. We wish country practitioners who have not sufficient practice to distinguish the different forms of lung disease to bring their patients to our institute, and we will give them free advice. This institute has been organized by this body of scientific men to place Canada in a position to compete on scientific views with any part of Europe, and to protect the people from the hands of insignificant men. Dr. Souvielle's Spirometer and its preparations were invented after long and careful experiments in chemical analysis and use in hundreds of cases to prove its effects. He has the sole right in France, England, the United States and Canada. Last year over 1,000 letters of thanks were received from all parts of Europe, Canada and America for the wonderful cures performed by the Spirometer. Hundreds of the leading people of this country given as references. Write or call at the International Throat and Lung Institute, 75 Yonge street, corner of King, Toronto, and you will be received by either of the surgeons. Consultations free to physicians and sufferers. Call or write, inclosing stamp for pamphlet giving full particulars free.
