

Acknowledgements

The members of this Task Force wish to pay tribute to all those whose advice and experience assisted us in the performance of the assignment given to us by our Terms of Reference. Without the knowledge and experience we gained through briefs presented, consultations with competent persons in the airline industry, government, business, labour and other organizations and agencies we could not have performed our task. This assistance was willingly and generously provided and made our job less difficult.

Throughout our work we were assisted by Dr. M.W. Tretheway our Director of Research. He brought to his duties a sound knowledge of air transportation and general economics, an objective approach, integrity and a progressive vision. It was on the basis of the studies that he conducted and his sound counsel that many of our recommendations were based. We were able to secure Dr. Tretheway's service with the cooperation of the Faculty of Commerce and Business Administration of the University of British Columbia and we are appreciative of this consideration.

In addition to Dr. Tretheway's own work, special studies were conducted by Dr. Tae Oum of the Faculty of Commerce and Business Administration, University of British Columbia, and by Mr. Andrew Schmidt of J.P. Braaksma and Associates, Ottawa. This work was provided in a timely and competent manner and was of significant assistance to the Task Force.

Mr. Tom Byerley was our Administrator. We are grateful to the Inquiries Secretariat of Transport Canada for making his services available. The able manner in which he arranged meetings, obtained information and handled our administrative requirements made our work easier than could have been anticipated.
