

9. The Host Party shall provide training as necessary for preclearance officers on its laws and regulations which pertain to preclearance.

ARTICLE V

INSPECTING PARTY'S OBLIGATIONS AND AUTHORITIES

1. On the territory of the Host Party, the Inspecting Party shall:
 - (a) provide a high level of service to the travelling public and efficient preclearance operations;
 - (b) provide a sufficient number of preclearance officers, supported by technologies, to carry out with reasonable speed and efficiency preclearance of travellers and their goods, crew, baggage and aircraft stores on eligible flights of carriers to which preclearance has been extended;
 - (c) give consideration to using flexible practices and operating procedures, which may improve the efficiency of preclearance or address temporary disruptions;
 - (d) make best efforts to secure resources if additional staff and other resources are required to operate preclearance approved by both Parties;
 - (e) consider requests from air carriers and airports to improve their operational efficiency through flexible procedures that meet the controls and sterility standards established by the Inspecting Party and are consistent with the efficient use of preclearance personnel and resources; and
 - (f) give notice 90 days in advance of reductions in service to the appropriate airport authorities and to the Host Party.

2. The provisions set forth in Annex V shall be applied in determining the flights for which preclearance is authorized by the Inspecting Party.

3. The Inspecting Party has the right:
 - (a) in any case where required under its law, to deny preclearance to flights;
 - (b) to require post-clearance as it deems necessary of any aircraft, passenger or passengers and their goods on any flight that has been precleared. Any flight that is diverted or required to be post-cleared shall be given preferential treatment for the purposes of post-clearance inspection;
 - (c) to preclear eligible flights only if passengers can be routed through the designated preclearance area;
