

RUSSIANS BRING END OF ADVANCE NEAR

Germans and Austrians Make Little Headway in Warsaw Drive.

ATTACKS EXHAUSTING RUN OVER BY A TRAIN

Offensive of Germans Undertaken Against Russia at Tremendous Cost.

(Continued from Page 1).

Even less progress apparently has been made, while along the Narva where Field Marshal Von Hindenburg has been directing operations in an effort to drive a wedge in behind the city, he is now largely occupied in meeting the Russian counter-attacks.

The counter-attacks, according to Petrograd, have succeeded in forcing the Germans who crossed the river to return to the northern bank at several points, but Berlin asserts that they failed and that the German force is advancing in an easterly direction.

The Russians, who retreated in the Baltic provinces recently, have also turned, and according to the Berlin official report, have delivered an attack from Mitau, which Berlin says was repulsed. The Russians may have another story to tell.

May Turn Southward. Further to the south the Germans continue their advance eastward, towards the Vilna-Petrograd railway, but there is a lot of territory to cover before this is reached, and it is considered more likely that General Von Suolow, who is in command here, will turn to the southwest to threaten the Russian armies which are facing Von Hindenburg.

Everywhere the battles are at their height, especially that in which Von Mackensen is engaged. All the military critics here believe that this is the critical of the campaign, for the whole German plan depends on his reaching the Lublin-Chelm railway.

French Progress in Alsace. With interest largely centred on the east, the important offensive of the French in Alsace has been almost disregarded. They report tonight another success to the north of Munster, which apparently is their objective, and the repulse of a series of German counter-attacks. The French have concentrated a lot of artillery in this region, and with the aid of the German defensive works, which are among the strongest along the whole line.

First Aid Instructor Gets Thirty A Month. G. Spademan receives a salary of \$30 a month as an instructor in first aid in the employ of the hydro-electric, according to his evidence before the Hydro-Electric Conciliation Board in the city hall yesterday.

Fred Bancroft asked him if he did not think the position was one of importance, to which he replied that he thought it ought to be. "It is the kind of thing in which a man can be engaged," he said.

P. E. Hart, managing engineer for the hydro-electric, corrected his former statement. He said the installers did not get holidays, and remarked that also he did not know whether half of the staff was laid off last spring. He knew some of them were laid off on account of slackness of work. He also admitted that it was his intention to divide the work and not lay off the men.

How To Prevent Acid Stomachs and Food Fermentation. By a Stomach Specialist. As a specialist who has spent many years in the study and treatment of stomach troubles, I have been forced to the conclusion that most people who complain of stomach and digestive troubles are absolutely healthy and normal. The real trouble, that which causes all the pain and difficulty, is excessive acid in the stomach, aggravated by food fermentation. Hyperacidity irritates the delicate lining of the stomach and food fermentation causes wind, which distends the stomach abnormally, causing that full bloated feeling. Thus both acid and fermentation interfere with and retard the process of digestion. The stomach is usually healthy and normal, but irritated almost past endurance by these foreign elements—acid and wind. In all such cases—and they comprise over ninety per cent. of all stomach difficulties—the first and only step necessary is to neutralize the acid and stop the fermentation by taking a little warm or cold water immediately after eating, from one to two teaspoonfuls of bisulphated magnesia, which is doubtless the best and only really effective acid and food corrector known. The acid will be neutralized and the fermentation stopped almost instantly, and your stomach will at once proceed to digest the food in a healthy, normal manner. Be sure to ask your druggist for the bisulphated magnesia, as I have found other forms utterly lacking in its peculiarly valuable properties. F. J. G.

LATE FRANK MURPHY CARRIED SOME MONEY

Further Evidence Required by Jury and Inquest Was Adjourned Until Tonight.

The inquest on the body of Frank Murphy, a cornice-maker, who was killed on Wednesday last by falling from the third storey of a building under erection at 97 Ontario street, was adjourned by Coroner Lynd until tonight thru insufficient evidence regarding the amount of money which was in his person at the time of his death.

According to the dead man's sister, Murphy's landlady had said that when he left the house that morning at 3 o'clock he had a considerable amount of money with him and intended paying some bills. Altho the accident occurred at 9:30 a.m. and the body was not examined until it reached the hospital, only 40 cents was found in the pockets.

An unpaid tax bill was also found. The jury was of the opinion that further evidence was required in this connection and the enquiry was adjourned until tonight, when the landlady and the nurse at the hospital will appear.

PARIS, July 27.—The governor-general of the French Congo, which adjoins the German colony of Kamerun in equatorial Africa, reports by telegram that after a series of combats at Monso Besam and Assobam a French column occupied the important German post of Lomic on June 25.

The column then advanced as far as Deschapothen, where it effected a junction with another French force, which occupied strong positions to the north and northeast as far as Ngamela.

The entire Nzoum region, according to the governor-general's telegram, is in open revolt against the Germans.

NO MORE DOCTRINES ABOUT SOCIALISM

"We Have Been Too Tolerant With Bourassa," Says Mayor Church.

RECRUITING CAMPAIGN

All British and Workingmen's Clubs Unite to Secure Men.

"We don't want any more doctrines of socialism; we have been too tolerant with Bourassa. In 1899 he preached the gospel of treason. He said we have nothing to do with England's war. The heart of Canada is strong. We will not let up until kaiserism is crushed," said Mayor Church at the recruiting meeting last night, held under the auspices of the All-British Club and the Workingmen's Club of Rhodes Avenue Presbyterian Church.

His worship continued with an appreciation of the solemnity of the present conflict. "When the Hun is at the gate; when men, women and children are being massacred, when the house of God is being destroyed it is time every respectable man should rise up and say 'Mr. Kaiser, with the brand of Cain on your brow, I denounce you!'"

Joseph Russell, M.L.A., acted as chairman of the evening. He impressively stated that the call that goes out for recruits is a call from the King.

Claude Macdonell, M.P., felt that the people of Canada would back up everything Premier Borden had done for the defence of Canada and assistance to the empire. He said the present fight is for the liberty of the world against the domination of Prussianism.

"We must admit there are some shirkers but we must win this fight. Over 10,000 men who have laid down their lives must be remembered; we must reinforce the ranks," he said.

Controller Spence, M.P., said that William would have been present to see the spirit which animates British people today.

Rev. D. Wallace Christie said: "Canadians are vindicators of the rights of their country."

Lieut. Simpson of the Queen's Own Rifles, and a supporter of President Garfield of the Princess Patricia were among those who spoke. Moving pictures of war scenes in Flanders were shown.

POLITICAL PRISONERS MASSACRED IN HAITI. Putting of Hundred and Sixty Men to Death Precipitates Revolution.

PORT AU PRINCE, Haiti, July 27.—General Oscar, governor of Port au Prince, and a supporter of President Guillaume, caused to be executed today at the time of the outbreak of the revolutionary movement in this city all the political prisoners in the hands of the government to the number of about 160 men.

The victims of this massacre included General Oreste Zamor, a former president of Haiti, who was driven out of the country last year and returned in March, 1915, and was made a prisoner.

When the people of Port au Prince learned of this massacre there was a general outbreak of indignation. A mob invaded the Dominican legion, where General Oscar took refuge after his unsuccessful defence of the presidential palace against the rebels. General Oscar and dragged him before the court martial, where he was promptly executed in his turn by a fusillade of rifle shots.

The mob, excited to a great degree, turned to the French legion and threatened to invade this building to encompass the execution of President Guillaume. Guillaume took refuge under the flag of France this morning after he had been compelled to flee before the rebel attack.

RAILWAY BOMBARDED BY AUSTRIAN WARSHIPS. Two Hydroplanes Accompanied Cruiser and Destroyer in Raid on Coast.

ROME, July 27.—An Austrian cruiser and four destroyers today bombarded the Sinigaglia-Pesaro Railway, running parallel to the Adriatic seacoast, and shelled the Town of Fano, midway between Sinigaglia and Pesaro.

Two Austrian hydroplanes, accompanying the attacking squadron, bombarded Ancona, inflicting some damage.

Fano, a noted Italian watering place, has been bombarded by Austrian warships and aircraft on previous raids on the Adriatic coast. Ancona, one of the most important Adriatic seaports, was shelled by an Austrian fleet early in the Austro-Italian war. These points are almost due south across the Adriatic from Pola, the naval base.

LITTLE GIRL PERISHED IN JACKSON'S POINT FIRE

Paul Jarvis of Toronto Lost Four-Year-Old Child and Summer Home.

SPECIAL TO THE TORONTO WORLD. JACKSON'S POINT, Ont., July 27.—Fire, believed to have been caused by a number of children playing with matches in an upper room of the two-storey frame cottage of Mr. and Mrs. Paul Jarvis of Toronto, at 4 o'clock this afternoon, was responsible for the death of their four-year-old daughter Dorothy. The other children ran downstairs and out of the front door, but the fire gained such headway that little Dorothy was unable to follow them.

Mrs. Jarvis, who was outside, was only restrained from entering the burning building by the forced efforts of a number of the cottagers who had gathered to fight the fire.

The charred remains of the little girl were found after the building had been totally destroyed. Mr. Jarvis is the Toronto representative of Spencer, Trask & Co., bond merchants of New York, with offices in the Traders' Bank Building.
