

MINISTRY FAVORS LIVE STOCK ARENA

Winter Fair Executive Promises Co-operation With New Government.

A deputation of the executive of the Ontario Winter Fair Association, headed by the president, John Platt, Hamilton, waited upon Hon. Manning Doherty, minister of agriculture, yesterday. They discussed with him the question of the future of the country show in view of the organization of the larger fair likely to be held in Toronto next year.

Mr. Platt expressed his felicitations to Mr. Doherty on his appointment, and promised every co-operation with him for the advancement of agriculture.

Mr. Doherty voiced his appreciation, and said it was only by such co-operation that anything could be accomplished for agriculture and the province in general. He stated that the government was heartily in sympathy with the project for a live stock arena, and believed that most of the farmers were of the same view. Mr. Doherty could not say whether any financial support would be given, but the government would continue its support of the provincial fat stock show at Guelph, which would do nothing to detract from the value of the enterprise.

The members of the fair executive held a meeting in the parliament buildings to discuss plans in connection with the stock show to be held at Guelph next month, for which the prospects are reported to be very encouraging.

OPINIONS DIFFERED

That a mere difference of opinion in respect to their work was the indirect cause of the death of Joseph Caramandi, who was fatally injured on Nov. 13, when struck over the head with the sharp edge of a shovel by Joseph Genero, was indicated by the evidence of witnesses at the inquest last night.

The two men, both of whom were Italians, were engaged with a construction gang at the rear of 103 East Queen street, when the brutal assault was made upon Caramandi, his assailant making good his escape. He has not been apprehended by the police. The evidence of witnesses showed that Genero had struck his countryman twice with full force over the head with the shovel and then fled.

The inquest was adjourned a week to secure the evidence of another workman who witnessed the assault.

CHANGE OF TRAFFIC

Deputy Chief Dickson announced yesterday afternoon that in order to avoid nightly congestion of rush-hour traffic, a new scheme will be tried out next Monday. Church street and northbound traffic will proceed east and west along Charles street. Park road on the east, will be utilized, and Balmuto street on the west. The same experiment on Bay and Victoria streets has been successful.

COMMERCE BOARD FIXES PROFITS

Retail Clothiers Limited to Percentages Made on Sales.

Yesterday Major Duncan, local representative of the board of commerce, issued an order regulating the gross profits to be made on men's ready-made and semi-ready suits and overcoats. The order applies to the present and future.

"Whereas it has become necessary to ensure the securing of either of the said commodities at fair prices by persons of moderate means, and the organized retail clothiers and other retail clothiers of the city of Toronto have agreed to the terms of this order, the board orders that on and after Dec. 15 'when the cost of the commodity to the vendor is \$25 or under he may mark, offer or sell at a gross profit or margin not greater than 25 per cent. of the sale price marked or demanded, but when the cost of the commodity to the vendor is over \$25 he may mark, offer or sell at a gross profit or margin not greater than 33 1/3 per cent."

After March 15, next the dividing mark is to be \$30 instead of \$25. "For the purpose of this order," the board announced, "and for the calculation of the percentage of gross profit or margin on sale, the cost price of the article shall mean the invoice price plus duty, exchange and freight actually paid and less all discounts allowed or obtainable."

Must Show Cause.

All vendors of the same commodities within Canada, but excluding Toronto, are given until Jan. 1 to show cause why the order should not apply to them. They are to submit complete annual balance sheets of business for each of the years 1912 and following; a statement of assets and liabilities and of profit and loss and trading accounts for each of the said years, and an itemized statement of Nov. 30 of stock on hand of men's ready-made suits and overcoats. "This latter and the balance sheets are to be certified as correct by an accountant."

The order deals only with distribution. The question of the manufacture of cloth and clothing is still under investigation.

T. W. Williams of Los Angeles, California, will speak at the Allen Theatre Sunday night. Subject: "Lord, Speak Again!"

MORE U. S. CHASERS ARRIVE

Four more American submarine chasers arrived in Toronto harbor, making eight in all now anchored in the bay. Two are anchored at the Police Iron Works docks and the others off the American Oil Company's docks at the foot of Cherry street. The boats have run in to Toronto to get oil on their way to Montreal. They carry three guns and were built by Henry Ford. Each burns up 5,000 gallons of oil a day.

LIQUOR PROFITS EXCEED COOPER'S

Changed From Barrel-Making to Whiskey Selling, Say Police.

Two hundred and ninety-four bottles of Scotch whiskey were seized yesterday by Detectives Crowe and Hess, who also arrested Arthur Carter Winch and George Haggarty on charges of committing a breach of the temperance act. Winch is charged with aiding and abetting in bringing liquor into the province, while Haggarty is charged with bringing it in.

Police headquarters received a message from the G.T.R. express to the effect that seven cases had been stolen from the freight sheds. Crowe and Hess located Arthur Amos, Yorkville avenue, the expressman who delivered the cases. He said he had been instructed to do so by Haggarty. One case was found on his truck and the driver drove the police to the different places he had delivered cases to. Three cases were found in a house at Todmorden, one on Elmaley place and two at Birch and Yonge street.

When examined by Inspector Guthrie Amos said Winch would drive in a motor car ahead of his truck directing him where to deliver the whiskey to.

Not a Bootlegger.

Haggarty told the police he was a cooper before entering the liquor business. Making barrels did not prove as big a turnover as handling whiskey. He is said to have handled the trade in the north end of the city and sold each case at \$36. Haggarty denied bootlegging, asserting that all his sales were for large amounts. A large sum of money was found on him, but Haggarty claims he intends returning to his former business.

Amos did not sign the way bills when he took the cases from the freight sheds and when they were missed men in charge formed the opinion they had been stolen.

Inspector McKinney stated last night that he had not yet decided whether action would be taken against the retailers of the whiskey.

Ancient Order United Workmen Hold Concert at Massey Hall

More than 1,000 people attended the annual concert and rally of the Toronto district, Ancient Order United Workmen in Massey Hall last night. Songs and humorous skits were put on by various local artists, and altogether the night was voted one of the most successful by the members of the craft who attended. F. G. Inwood, grand recording treasurer, presided, and E. F. Drake, grand master workman, addressed the meeting, as did A. G. F. Lawrence, grand solicitor. Among the artists who assisted were Miss L. Hurd, Miss N. Forde, H. Bennett, G. Nell and John McKie.

216th TO DEPOSIT COLORS

The colors of the 216th Battalion will be deposited in the Eaton Memorial Church next Sunday. Mrs. Timothy Eaton will receive the banners.

ASSOCIATED BOARDS END CONVENTION

Resolution Passed for Canadianization Policy to Educate Foreigners.

After a session lasting for two days, during which time many valuable resolutions were discussed and passed, the Ontario Associated Boards of Trade and Chambers of Commerce concluded their annual convention at the city hall yesterday. It was decided to accept the kind invitation of the Belleville board of trade and city council to hold their 1920 convention in that city.

The report of the nominating committee accepted in its entirety and is practically the same as last year's, with the exception of a number of added names to the executive board. The new officers are as follows:

Officers Elected.
Honorary presidents, Dr. H. T. Reason, London; Lieut.-Col. W. N. Ponton, K.C., Belleville; A. J. Hewitt, North Bay; R. Home Smith, Toronto; president, William Taylor, Owen Sound; first vice-president, Hewitt, Toronto; second vice-president, John Elliott, Belleville; third vice-president, William Anderson, Chatham; secretary, F. G. Morley, Toronto; executive, John Bingham, Ottawa; Lieut.-Col. H. Brock, Toronto; M. P. Byrnes, Collingwood; A. E. Carscallen, Wallaceburg; W. M. Cockshutt, M.P., Brantford; George C. Copley, Hamilton; K. J. Dunstan, Toronto; J. G. Elliott, Kingston; John Goodwin, Welland; T. J. Hannigan, Guelph; John G. Henry, Sudbury; John A. Hussey, Sault Ste. Marie; G. C. Martin, Hamilton; G. F. McKinnis, Smith's Falls; A. T. H. Taylor, Cochrane.

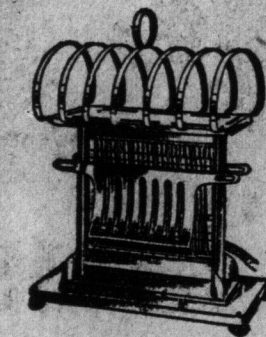

One of the first resolutions to come before the convention was the one advocating the appointment of a royal commission to study the tariff. Discussion was left over on this resolution and a substitute resolution was offered, which urged the government to make a careful study of existing conditions, giving particular attention to the claims of organized industrial, agricultural and business associations.

Mr. Dunstan advocated the appointment of a permanent board of experts on the matter, such board to be entirely divorced from politics. The resolution finally passed with the recommendation for a permanent board attached.

Delegate Smith of Sudbury introduced a resolution which carried unanimously, calling on the Canadian government to establish nickel coinage as is in use in fifty-four other countries throughout the world. In sponsoring his resolution Mr. Smith advanced 85 per cent of the world's nickel supply, and that silver had produced to such an extent that it might be profitable to melt the silver at present being used in coinage into bullion. The nickel could be used in all nickel coin for the smaller denomination coins.

Canadianization Policy.
A resolution put forward by Toronto's board of trade calling on the provincial government to adopt a Canadianization policy and for the education of foreigners in English and the principles of British citizenship was moved by Delegate W. H. Alderson.

Let Electricity do your Housework

Electric Toaster \$5.70

This model is equipped with a rack. The toaster shell has a very handsome appearance and is heavily nickel-plated. It makes two slices of delicious, golden-brown toast at a time. Comes complete with 1 ft. of cord and plug.

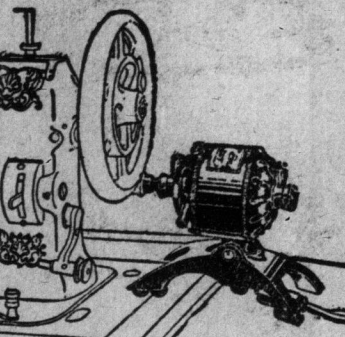

'Sovereign' Electric Iron \$5.00

The 'Sovereign' Iron has many distinct qualities which appeal to the housewife. It is perfectly balanced, has a tapering nose, extra cool handle, and is very economical. The 'Sovereign' Iron will take all the hard work out of ironing day.

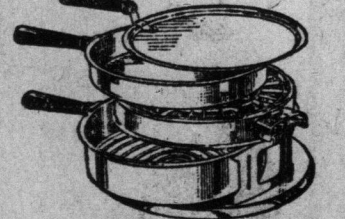

Premier Vacuum Cleaner \$49.00

'Home Motor' \$19.00

By simply placing this willing little motor under the hand-washed best serving Machine, it will do all the hard work while you sit at ease in a comfortable chair. There are no bolts, clamps, screws or bolts to bother with.

Four-Heat Electric Table Grill \$12.00

One of the most popular of electric table appliances is the Four-Heat Grill. It will broil, toast, stew or fry, or cook an entire meal for three persons right on your dining-table. It has three nickel-plated pans, any two of which can be used at the same time.

PREMIER VACUUM CLEANER is a necessity in the Home. It is just as essential for the housewife to have Labor Saving Devices as it is to have Adding Machines and Typewriters in an Office. Efficiency is the keynote of the Modern Woman's policy of Housekeeping.

The Premier Cleaner is equipped with a rubber brush just inside the nozzle. This brush revolves at a high rate of speed. It loosens the embedded dirt in carpets and rugs without removing the nap or otherwise injuring them. The nozzle is extra wide. It is square and thin at the ends, enabling it to get into corners of rooms and stairs, making it unnecessary to make a separate job of cleaning these out-of-way places.

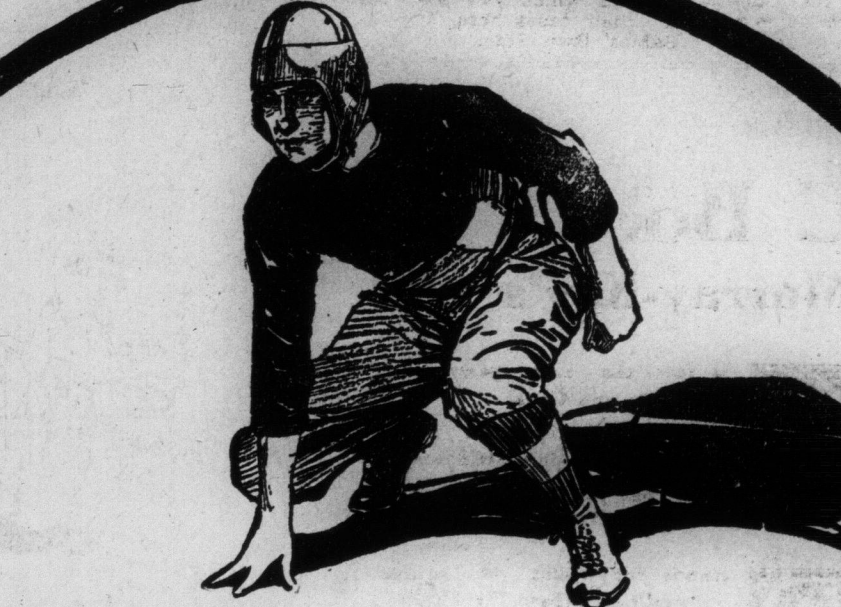

The control is all centered in a comfortable pistol-grip handle. A quarter turn to the right starts or stops the machine. Everything under your thumb.

Ask your dealer to show you C.G.E. Electric Labor Saving Devices.

Up On Your Toes

What a thing it is to be fit! To be not merely free from actual sickness, but to be well, absolutely well—and to have the mental vim, stamina, vigor, which go with physical well-being.

But you can't be fit if constipation is constantly breeding poisons, which are taken into the blood and undermine the whole system.

The modern treatment for constipation is Nujol.

The action of Nujol is entirely different from that of castor oil, pills, salts, etc. Nujol is pleasant to take and does not force and weaken the system, nor impair digestion.

Nujol prevents constipation because it softens the food waste and encourages the intestinal muscles to act naturally. It thus removes the cause of constipation and self-poisoning.

Nujol helps Nature establish easy, thorough bowel evacuation at regular intervals—the healthiest habit in the world. Get a bottle from your druggist today.

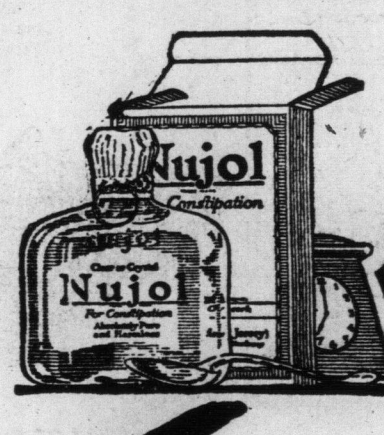

For valuable health booklet—"Thirty Feet of Danger"—free, address Nujol Laboratories, Standard Oil Co. (New Jersey), 50 Broadway, New York.

Warning: Nujol is sold only in sealed bottles bearing the Nujol Trade Mark as shown here. Beware of products represented to be "the same as Nujol". You may suffer from substitutes.

Nujol

For Constipation

SICKNESS PREVENTION

PLAN SUBDIVIDING

Fifty-Three Acres of Land North of Danforth Ready to Be Broken Into Lots.

The councils of Toronto and York township will be asked in a few days to approve of plans for a subdivision of 53 acres of land on the north side of Danforth avenue between the Harris property and Woodbine avenue, which has been laid out in building lots. This land is the property of the Anglo-Canadian syndicate and is part of the clergy reserves. It was farmed for a great many years, but during the last dozen years this acreage has lain practically unused. The block of land is in York township except the strip along the north side of Danforth about 200 feet deep. It is proposed to make this section a high class residential district. The block is worth about a half million dollars.

Houses Sold.
The property at 18 East Esplanade has been sold by Mrs. Elizabeth Burns to the Lake Simcoe Ice and Cold Storage Company for \$20,000. This property formerly belonged to the Knickerbocker Ice Company, of which the late William Burns was proprietor. The property at 17 Wellesley street has been sold by the Imperial Bank of Canada to Alice M. Brown for \$14,250. The lot has a frontage of 48 feet 6 inches by a depth of 155 feet.

Albert L. Burnham and J. E. Jones have sold to Mary Phuddy the property at 99 East Gerrard street for \$12,500. The lot is 53 feet 3 inches by 108 feet. The row of houses known as Nos. 20 to 28 Russell street, has been disposed of by Mary J. Keenan, widow and executrix of the estate of her

husband, Wm. Keenan, to Fanny Shumer for \$18,000.

TORONTO POSSESSES LARGEST CAMERA

C. W. Perry Explains Three-Color Photography to Electric Club.

C. W. Perry instructed the Electric Club at luncheon yesterday on the mysteries of three-color photography as applied to the reproduction of color paintings by electric light. The processes had formerly been secret, and a workman going into a dark room would not know what his mates were doing, while he himself kept his own proceedings private.

Electricity was now used in reproduction work, for the sunlight could be used, it required such a tremendously long exposure, the expeditious electric process was preferred. The color re-

production work was very popular, one firm having spent \$50,000 in reproducing dresses in a \$20,000 catalog.

In 1900 the ultra-violet rays in the lamps used were too weak to get detail which had to be added by hand, but now a lamp of 10,000 candle power was available. Mr. Perry also showed a device for photographing a large surface, upon which twelve 1000-watt lamps were distributed. The largest camera in the world is used in Toronto, and a prism is used to reverse the image for the lens. The plates have to be developed in absolute darkness and the processes regulated by the clock. Quadra-color as well as tricolor work is now being done.

Dr. Carr, in introducing the speaker, said that he hoped by this means to introduce the art galleries of the old world to the humblest homes of the new.

CLOT CAUSED DEATH

Millicent Collier, aged 19, of 210 Vaughan road, died in the General Hospital Thursday night from a clot formed on the brain. She was taken ill at 11 o'clock and rushed to the hospital and died two hours later. It is likely an inquest will be held.

To Manufacturers, Wholesalers and Other Importers

BITUMINOUS COAL

Any of the foregoing who have orders at mines not affected by the strike in the United States are requested to furnish full details of same to the undersigned.

In order to prepare for a proper distribution of coal it is requested that this information be sent to this office as soon as possible.

H. A. HARRINGTON,
Fuel Administrator for Ontario

November 21, 1919
