WOMAN'S WORLD.

DEATH OF MRS. O. B. STANTON.

In the death of Mrs. O. B. Stanton, who passed away at the family residence, 12 Simpson-avenue, on Tuesday last, after one week's illness with pneumonia, Toronto loses a prominent friend of its little children. She was also the teacher of the primary class in Carlton-st. Methodist Sunday School. Since its inception, Mrs. Stanton has been, along with her husband, one of the foremost workers in the Toronto Primary Sunday School Teachers' Union and at the time of her death had charge of the primary class in St. James Cathedral. Many of the growing children and young people of the city, as well as her associates in the Primary Union and other work, who have had the benefit of her counsel and instruction, will regret to learn of her thus early and sudden demise. Besides her husband, she leaves three young children, Mrs. Lawson of 36 Bernard-avenue is Mrs. Stanton's mother. The funeral takes place this afternoon, to St. James' Cemetery.

WORLD PATTERN DEPARTMENT

No. 2338.—A PRETTY WAIST IN DOTTED SILK. For a simple waist to be made at home, the round or square yoke effects are very attractive. A suggestion for one which is tucked to yoke depth is shown in these soft silks or crepe de chine the tucks may be run by hand and increase the beauty of the waist. The design shows a pretty fullness at the waist line, which renders it best adapted to soft fabrics, while the trimming may be velvet or cloth. The pattern allows of several variations, the long or shorter sleeve and the plain high neck or the yoke effect in Dutch square or round outline. For the medium size 2 3/4 yards of 32-inch material are needed.

No. 2338.—SIZES 32 TO 42 INCHES Bust measure.

PATTERN DEPARTMENT TORONTO WORLD. Send the above pattern to Name Street No. Town Province Measurement—Waist Bust Age (if child or miss) pattern.

NOTE—Please enclose above illustration and mention size of pattern wanted. If the pattern is bust measure only mark 32, 34, or whatever it may be. When in waist measure, 22, 24, 26, etc. If a skirt, give waist and length measure. When miss' or child's pattern write only the figure representing the age. It is not necessary to write "inches" or "yards." The price of each pattern is 10 cents. Do not send stamps.

The residence of Mr. and Mrs. Jos. Padden, 25 O'Hara-avenue, Parkdale, was the scene of a very happy event on Thursday afternoon at 4 o'clock, when their sister, Miss Maud Short, of Brampton, was married to Mr. J. Edward Fullerton of Brampton, Ont.

To the strains of the wedding march, played by Mrs. George Short of Stratford, the bride entered the parlor on the arm of her brother, George, looking very charming in a white dress of white silk, with customary veil, and carrying a bridal bouquet of white roses, her only ornament being a pearl crescent, the gift of the groom. She was attended by her sister, Miss Kate, who looked very pretty in a dress of white organdie and carrying a bouquet of white carnations.

The groom's gift to the bride was a gold watch, and the bridesmaid was Miss L. Hurst of Brampton attended the groom. The Rev. William Wainwright, of Church of England, performed the ceremony, after which all sat down to a dainty wedding supper. The presents were numerous and valuable. After the wedding a very jolly little dance was given.

Mr. and Mrs. Fullerton will reside in Toronto.

BRONCHITIS CAN BE CURED

Dr. Wood's Norway Pine Syrup Will Do It.

Bronchitis is generally the result of a cold caused by inclement weather or exposure to wet, and is a very dangerous inflammatory affection of the bronchial tubes. The symptoms are tightness across the chest, sharp pains and difficulty in breathing, and a secretion of thick phlegm, at first white, but later of a greenish or yellowish color.

Neglected Bronchitis is one of the most general causes of consumption, so cure it as early as possible.

Dr. Wood's Norway Pine Syrup Mrs. F. Fidler, Linton, N.E., writes: "I feel it my duty to let you know of my experience with Dr. Wood's Norway Pine Syrup. My little girl was very low with Bronchitis and our doctor did all in his power, but could only give her relief for a short time. My husband saw your medicine advertised, and immediately procured three bottles. I never saw anything give so much relief in so short a time, it stopped the annoying cough at night and she is now perfectly cured. I am so glad I can hardly express my gratitude for what Dr. Wood's Norway Pine Syrup has done for us."

Price 25 cents at all dealers.

MILLION DOLLAR COMPANY TO BUILD CHEAP HOUSES

Will Also Insure the Lives and Safety of Those Purchasing Properties.

The Toronto branch of the Canadian Manufacturers' Association at luncheon yesterday evening discussed a plan for building ten thousand artistic, well built, sanitary homes for workmen in the employ of the members of the C.M.A. These houses will cost \$1200 each, including land, and will be sold for \$1000 down by the company. The houses will be built in groups of 144 months, which includes payment of the principal, interest and taxes. The company will also insure, fire insurance and also a life insurance, so that in the event of death, the wife or dependant would receive the house free without further payment. It is also proposed to combine an accident insurance, to provide monthly payments during sickness or accident.

The houses will be erected in pairs in various parts of the city. Alexander Laird, general manager of the Canadian Bank of Commerce; D. E. Thomson, K.C.; James P. Wilson, Rev. Morley Wickert, Ph.D.; Thomas Ross and Mr. Thorn of the provincial accountant department, are behind the project. The project was first carried out by the C. M. A., but only under their auspices.

Many men had gone out into the suburbs and had tried their hands at building houses for themselves, usually situated in very desirable localities. As a result of present conditions they found 34 people living in one room, and 20 in another, and 20 Italians slept where bananas were ripening.

Conditions like this were impossible in Great Britain with all the poverty of their sium life. These conditions bred discontent, the mother of anarchy. A discontented man was no gain to an employer. It is to an employer's own interest to have his men and their families contented and happy. There was nothing which so conduced to making a workman happy and contented as to be with his family safely settled in their own comfortable, sanitary little home.

The speaker told of a place where the landlords were so greedy that they raised the rent from \$7.50 to \$12. He also showed photos of the typical tenement architecture of the West End and district. He said that railway extension in the east end had disposed of 320 families, and the new hospital would put 20 more out of their homes. These conditions rendered action imperative on the employers of labor.

Mr. Close of Hamilton said that his board of trade were tackling the same problem. They had plans drawn and were co-operating with the Trades and Labor Council to offer these houses at cost. He showed plans of the Hamilton cottages.

Financial Situation. Mr. Thorn of the provincial accountant department explained the financial details of the project. The plan had been laid before the insurance companies and they would give them the \$355,000 at a 12 per cent. They would have ample security in real estate to offer. They would ask for a payment of \$100 down to each purchaser. It was proposed that each purchaser's life should be insured and the premiums paid by the company. The policy would be written in such a way that the widow or beneficiary would receive the sum of the policy from year to year as the equity in the house increased, so that in the event of death the widow or beneficiary would have the property free.

The speaker went in detail thru the financial situation, showing that every continent item had been exaggerated and that at the end of the time there would be left a sum to divide among the buyers. The stockholders would

merely draw 4 per cent. on their money invested.

W. K. McNaught, M.L.A., said he had given his attention to this subject and had conferred with Right Hon. Joseph Chamberlain and Right Hon. John Burns about it. From the latter he had received a book upon "Workmen's Homes." He told of a friend of his near Philadelphia who had created a loophole for the unscrupulous to illicitly defeat the intent of the law. He had sent some delinquents to jail and had caused many to be fined, and the wholesome restraint those examples had created would render his work easier. He had a loophole for the unscrupulous to illicitly defeat the intent of the law. He had sent some delinquents to jail and had caused many to be fined, and the wholesome restraint those examples had created would render his work easier.

Dr. Morley Wickert considered the proposed plan unique and well adapted to our local conditions. He had found the building restrictions a hardship upon the average citizen and he was neither philanthrop nor charity. He was neither philanthrop nor charity. He was neither philanthrop nor charity.

Mr. Roden said that the Civic League for the purpose of developing the many of the houses will be built in groups of 144 months, which includes payment of the principal, interest and taxes. The company will also insure, fire insurance and also a life insurance, so that in the event of death, the wife or dependant would receive the house free without further payment. It is also proposed to combine an accident insurance, to provide monthly payments during sickness or accident.

There was no indication of hostility or one of bitterness in the deliberations of the annual session of the Ontario branch of the Dominion Alliance, which held its first day session yesterday at the Toronto Convention, held in the Grand Hotel, Toronto.

The president, G. F. Marler, in his address, stated that the campaign carried on by the liquor traffic rather than the men engaged in it, and that whatever usefulness the old tactics had been in their day they were now outlived by the more practical and systematic methods which were being employed by the liquor traffic. He said that the liquor traffic had been in the main rather than to common sentiment. The main objective of the alliance was the bar. While temperance people had in the past lost some support thru putting the cause first, which often displeased the both political parties, and also the liquor traffic had operated within their own ranks, thru men of temperance sentiments dividing on the question because of other political issues, the general resentment to the bar had been silently increasing. Now it had become a question that had entered into the municipal life of the greater part of the province with a pronouncement for the abolition of the bar.

The three-fifths majority clause, which certainly had raised higher the wall of defence surrounding the interests of the liquor traffic, had been in most cases surmounted thru the reinforcements each year brings forth and he thought it would not be contrary to the usage of war that the interests of the people if license fees were made so high that the occupation would be prohibitive.

When a town or township had failed to carry local option because of the three-fifths clause the council had the power to raise the license fee, so that no one could enter into the hotel business with profit, and the people had the power in their hands to elect a favorable council.

In the same manner, in an enlarged form, the voice of the people could be sent to parliament, so that every reformer would legislate for temperance and reject all who failed to include in their respective policies "straight out abolition of the bar."

Enforcing Laws. Provincial License Inspector Rev. J. A. Aylmer reviewed his pen's work. Although he had jurisdiction over all districts in the province, he had confined his efforts to three-fourths of his time and efforts to law enforcement in local option dis-
