William Burns,

The announcement in The World vesterday that a candidate for the Board of Control had voted three times on controllers' ballots in three different polling divisions created a sensation

it became known that the poll books threw suspicion on ex-Ald. William Burns, a man who has been long and favorably known in connection with municipal government in Toronto.

different polling divisions, and that in twice on aldermanic tickets in one ward. Mr. Burns states that the suspicions conveyed by the poll books are unfounded, that he voted only once on a controllers' ballot and that he voted only once on a controllers' ballot and that he voted only once on a controllers' ballot and that he voted only once on a controllers' ballot and that he voted only once on a controllers' ballot and that he voted only once on a controllers' ballot and that he voted only once on a controllers' ballot and that he voted only once on a controllers' ballot and that he voted only once on a controllers' ballot and that he voted only once on a controllers' ballot the poll books have been to be very strong, as far as so conspicuous as to require a thoro inquiry. It is clear that if Mr. Burns is brought face to face with the charge of missified. If, on the other hand, the poll books are accurate, Mr. Burns is brought face to face with the charge of misserpresentation of his actions on polling day.

Nedless to say, the friends of Mr.

Intries that no doubt exist in the casting of the recent vote.

Mr. Fullerton, "That is no part of my duty."

The World explained that the information sought was in regard to the authority upder which any contemplated action should proceed, and Mr. Fulleton spoke very fully and freely.

"Under Section 324 of the act the Council may pass a resolution calling. From what I can gather, the evidence does not seem to be very strong, as far as any specific charges are concerned. The evidence from the newspapers, as any specific charges are concerned. The evidence on the nance of the poll books have been to be very strong, as far as any specific charges are concerned. The world explained that the information of the begin an investigation, on the other individual proceed, and Mr. Fulletton should proceed, and Mr. Fulletton spoke very fully and freely.

It is being charged, on the other hand, that plugging and personation took place in certain polling divisions of Ward 4 where Controller Richardson polled an abnormal majority. In polling sub-division No. 9 in Ward 4, Controller Richardson polled a vote far in excess of his strength in other divisions in that ward, and from this it is argued that there must have been irregularities in this polling division conducted by Samuel Thompson, secretary of the Ward 4 Liberal-Conservative Association. Mr. Thompson denies most emphatically that he was a party to any plugging or personation party to any plugging or personation in his polling sub-division, and again we have a clash of testimony against testimony, the word of the individual being opposed to the strong suspicions contained in the election returns.

It is freely admitted that the suspi-sions awakened by the revelations of the poll-book, insofar as ex-Ald. William Burns is concerned, and the ex-traordinary character of the vote in polling division No. 9 of Ward 4 can no middle way for the amelioration of the situation, which to-day is giving the citizens of Toronto so much concern. The publication in yesterday's World of the paragraph which throws strong suspicions on the election to the Board

of Control has been the means of insti-tuting proceedings which cannot be closed until guilt or innocence has been City Clerk Notified.

How can an enquiry into the irregularities in connection with the recent municipal elections be effected? The law provides a way. The applying section of the Consolidated Municipal Act is given below:

Investigations of charges of malfeasance, etc., or judicial enquiry

ENQUIRY BY COUNTY JUDGE.

Investigations of charges of malfeasance, etc., or judicial enquiry in relation to municipal matters; Investigation or enquiry by county judge:

"In case the council of any municipality at any time passes a resolution requesting the judge of the county court of the county in which the municipality is situate to investigate any matter to be mentioned in the resolution, and relating to a supposed malfeasance, breach of trust or other misconduct on the part of any member of the council, officer as servant of the corporation or of any person having a contract trust or other misconduct on the part of any member of the council, officer or servant of the corporation, or of any person having a contract therewith, in relation to the duties or obligations of the member, officer or other person, to the municipality, or in case the council of any municipality sees fit to cause enquiry to be made into or concerning any matter connected with the good government of the municipality, or the conduct of any part of the public business thereof, and passes a resolution requesting the county judge to make the enquiry, the judge shall enquire into the same, and shall for that purpose have all the powers which may be conferred upon commissioners under 'the act respecting enquiries concerning public matters,' and the judge shall, with all convenient speed, report to the council the result of the enquiry and the evidence taken thereon."—Consolidated Municipal Act, Sec. 324.

I cast my ballot for the old members of the Council, but I went to Ward One, because I had promised Dr. Barrick to do what I could for the brilaw. Do was out hunting a few days ago, and I voted wherever I had property."

Mr. Burns said it was a very serious matter that a public man's repulsious matter that a public man's repulsious matter that a public man's repulsion of the children of the mount of ballot papers by a Hitle tick or the infitials of a clerk. Mr. Wright said last night: "Yes, Mr. Burns voted at my sub-division. I think it would be about noon, but the poll book will about noon, but the poll book will show that better. I know Mr. Burns personally and am certain it was he who voted. I don't remember what ballot papers he asked for, but whatever the poll book shows I will stand by. That is the only evidence there is, but it is correct. If the book shows that he voted for Board of Control, aldermen and the sanitarium bylaw, then he must have done so."

And the poll book shows he voted for all three.

William Burns Explains.

William Burns discussed the mattar with the utmost frankness in speaking to a World reporter last night.

## LEGISLATURE TAKES REST Speech From the Throne Moved and Seconded in Exceptionally Able Addresses.

WITH NO BUSINESS READY

It was agreed between the leaders on both sides of the House yesterday that they should defer their speeches on the address until Monday. Consequently quite a large number who had Mr. Whitney was on his feet after the seconder of the reply to the speech had sat down, when Premier Ross suggested an adjournment. Mr. Whitney government was not anxious to go on,

His words are always well chosen, his enunciation clear and his gestures reserved. Standing erect and not straining for effect he made a good

impression on his hearers.

There was no preliminary business, the only item on the order paper being the "consideration of the speech of His Honor the Lieutenant-Governor the Lieutenant Covernor th at the opening of the session." After prayers Premier Ross moved that the speech be taken up, and Charles Napier Smith of Sault Ste. Marie took the floor amid the liberal applause of the government benchers.
