Oxford Gas Range

It is built high and requires little stooping to get at the oven. Every part is easy to get at and keep clean. Burner tops lift off without tools, and grease is wiped out in a moment. Gas and air inlets are so regulated that all the gas burns with clear blue flame, all heat and no waste. Oven doors drop flat instead of swinging, and will hold up a heavy roast without breaking the hinges. Thermometers in oven doors change baking from guesswork to a certainty. And there are plenty of other features worth your while.

Call in and see this range, and let us demonstrate to you its economy and efficiency. The price of this high-grade gas range, with 16-inch oven, is from

518.00 to \$20.00 according to finish.

This range is also fitted for use with natural gas.
