COBALT---Continued Apathetic Feeling in Regard to Cobalts---COBALT Cobalt Securities Display

Slight Reactionary Tendency Speculation Generally Flat and Stocks Move in Narrow Range-

Lack of Activity the Only Feature.

World Office, Friday Evening, Dec. 10. were dull and slightly reotionary to-day. Such trading as was was fairly well distributed thru but under realizing sales, weakened and nearly all the

the market being the exception rather than the rule.

La Rose was even more listless today than has been the case the fast few sessions. Quotations were off four points from yesterday, and the shares closed rather weak at \$4.71. This stock is fast assuming an attitude of routine and movements bid fair to remain narrow for the immediate future, unless some argument of consequence ones into play.

Crown Reserve sold in the immediate future in the consequence of the c

es some argunetation of the common play.

Crown Reserve sold ex-bonus 10 per cent. to-day. The stock was quiet at 1.65, closing a point lower. Nipissing was reactionary, selling back five cents and closing at the low figures

for the day.

In the lower priced mining stocks, the general tone was slightly weaker than during the previous session, but price changes were decidedly narrow. Little Niphasing, Otisse and Nova Scotia were all fractionally easier; Beaver, Silver Leaf and Peterson Lake were comparatively steady and closed about another series.

The market inmout was decidedly dull and only remarkable for the dearth of activity. Orders of either a selling or buying nature beem to be very limited, just at the present, and the market is fast working into a narrow rut, with trading about as small as it can be.

weekly letter, say: The Cofbalt stocks seem to have subsided into a state of chronic apathy, subsided into a state of chronic apathy, and no activity is anticipated for some time to come. Shipments from the camp are keeping well above last year. The total shipments to Nov. 30, 1909, amount to 27,099.18 tons, as against 22,500.67 tons in the corresponding period inst year. This is encouraging to the holders of the dividend paying stocks, some of which are maintaining good levels notwithstanding the general depression in the market.

Cobalt Central Affairs. Cobait Central Affairs.

Editor World: Replying to the 'Shareholder's' enquiry under above caption in your yesterday's issue, I am able to inform him that his dissatisfaction with the management of this company is fully justified and largely shared by a considerable number of shareholders. As a result a movement is on foot in New York to oust the present directorate at the annual mest.

present directorate at the atmusia method price of the 17th, and place the Lewischns in control. I am forwarding you a circular on the subject, which may be of interest to a considerable number of your readers if you publish it, but it not those interested can obtain full particulars by writing to I. S. Bradley, room 29, 81 New-street, New York, who will be glad to receive their proximal proximal

Amalgamation of B.C. Copper Companies.

ortant amalgamation ndary copper producers is in con-plation. With the acquiring of the thoundary copper producers is in confemplation. With the acquiring of the new Dominion Copper Company by the British Columbia Copper Company, it only remains for the Gramby Consolidated Mining and Smeltling Company to secure 51 per cent. of the British Columbia Copper shares to control the copper industry of the boundary. To this end the Granby Company has offered one share of Grarby for ter shares of British Columbia, this being about \$10 for shares now selling for \$7. The offer has been refused, but the B. C. people are willing to accept one for five or about \$20 per share. It is expected that the big merger will soon be amnounced. The British Columbia Copper Co. is now prosperous and it has been anticipated that it would pay a substantial dividend next year.

MORE VIM THAN EVER

Latest Mining Reports From the Gold Belt-Operations Proving Very Satisfactory.

LARDER LAKE, Dec. 8. - "Larder eventually will prove to be one of the chief gold producing camps of the world." This statement was made by an engineer who stands high in the mining community, and there is no reason to doubt the veracity of his statement, as every day new finds are being made and values at depth are increasing. No other country can show such extensive ore bodies, when one considers that for a distance of over 10 miles in length and from 2 to 3 miles in width there are dykes or zones, some of which are 150 feet in width and carry values from \$3 to \$25 per

The past year the best of mining has been done, and owners are quite willing to install the necessary stamps to handle a large quantity of ore. This is the case with the Tournenie Company who have had the foresight to acquire the Raven River water power. This will bring their cost of mining much lower than if steam had to be used, besides allowing them to sell power to other companies, and they have done a lot of development work on their different claims and are highly satisfied with the results.

The Dr. Reddick are working in high

values, and are proving for themselves and the public what a valuable pro-

and the public what a valuable pro-perty they have.

The Rose Gold and Silver Mining Company are well satisfied with their summer labors, so much so that they have purchased a stamp mill which

have purchased a stamp mill which will come in as soon as the roads are in good condition for hauling.

The Victoria Creek Company have now about 350 feet of underground work, and values have been maintained from the commencement. This property has shown some very fine specimens of free gold; they have a compressor and drills at work. pressor and drills at work.

The Harris-Maxwell and Lucky Boys have worked all summer and some wonderful showings have been the result. These properties have always been considered two of the best in the

The Combined, Peerless, Golden Pyramid, Big Pete, Lincoln, Nipissing, Goring and others have all had a very successful year, and the coming one will see more vim than ever in this dis-

Windigo continues to draw the prospectors for silver and from all reports they are striking it rich. Many claims are being staked and development work is being done on good leads of calcite carrying silver.

PROHIBIT SALE OF BASS.

SYRACUSE, N.Y., Dec, 10.—(Special.) Oliver Adams of Toronto addressed the ing and was splendidly received. C. H. Wilson put a resolution for the non-sale of bass in New York, and it carried unanimously. Should the legislature act on the recommendation, as it probably will the result will be of mense benefit to Ontario.

Belmont Silver Mines of Kerr Lake, Limited

Recent reports from G. C. Bateman, B.Sc., Engineer of the Hudson Bay Mine, and H. Lawrence Brown, E.M., Manager of the Belmont, say that this is one of the BEST prospects in the Kerr Lake district.

They are now sinking on a calcite vein that has been traced for over 500 feet, and a STRIKE MAY BE MADE at any time that would place the Belmont in the same class as the rich adjoining KERR LAKE, DRUMMOND and CROWN RESERVE mines.

Write for Engineers' Report. I have a limited amount of stock for sale at 30c per share, non-

assessable and no royalty charges.

J. LORNE CAMPBELL, 12 MELINDA ST., TORONTO.
