REAL SHERLOCK HOLMES

IS DETECTIVE J. WATSON

Key Used for Fastening Wooden Leg Gives Vital Clue.

Edmonton, Jan. 16.—Detective John Watson, familiarly known as Sherlock Holmes around the city police station, has been at it again. The intrepid sleuth had a most peculiar assault case to investigate. A man complained to the police that he had been seriously assaulted in a rooming house by a man designated as "Pete." With nothing but this slender clue to work on, Watson set out, located the man and brought him to the city police station.

The most remarkable part of the story is contained in the concluding sentence of the detective's official report: "I found in his possession a key used to screw on his wooden leg and it corresponded with the wounds in the complainant's head."

CANADA CAN HIT U. S. TRADE HARD

New York World Sees "Suicidal Idiocy" in Emergency Tariff Bill.

New York, Jan. 15.—The New York World this morning deals editorially with the resentment shown by Canadian newspapers over the proposed emergency tariff now being considered by the senate finance committee at Washington. It mentions specifically editorials in The Toronto World, Toronto Globe, Montreal Star, Toronto Telegram, Manitoba Free Press, Victoria Colonist, and The Regina Post, advocating retaliatory or emergency tariffs.

"They reflect a disposition to get away to strike back," The World says. "Next to the United Kingdom, The World countries in the world, is our best customer. We exported to the Dominion last fiscal year more than \$100,000,000 worth of merchandise. We imported in return only about \$57,000,000 worth. Our exports consisted chiefly of manufactured goods, and our imports consisted chiefly of raw materials and foodstuffs. No economic proposition is simpler or more indisputable than that if we further cripple Canada's ability to pay, we shall by the same measure reduce our present enormous export trade to Canada. And this is what the Fordney and McCumby tariff bill, preparing or prepared, aim to do and will do."

"Our Strong Position. The folly of this legislation is even greater than sound. Considering the above all other customers of ours, it is in a position to hit back. She can get most of the manufactures now bought in the United States from Great Britain just as well, and a strong preferential tariff in favor of the mother country cannot fail to hit the manufacturing industry of the United States a staggering blow. And this is precisely what Canada is preparing to do if congress shall provide the retaliation."

The World concludes: "This is not merely a bournonism that cannot be learned that a war has been fought and the whole foreign trade of the United States radically changed. It is suicidal idiocy."

DISCOVER SCHEME TO BURN LONDON

All Ready to Fire Huge Oil Stocks When Police Charge.

London, Jan. 15.—What is believed to be another big Sinn Féin plot to destroy property in London was uncovered in court this morning. Patrick Kenny, an Irishman, was charged with being concerned with other men not yet arrested, in attempting to murder two policemen and trying to set on fire barrels of oil on the premises on the Vacuum Oil Company.

The company's plant is at Wandsworth, southwest London, and 60,000 barrels, containing 2,500,000 gallons of oil, are stored there.

At one o'clock this morning three policemen discovered fifteen men lurking near the Vacuum Company's premises, some of them apparently having just come from the yards. The police charged the group and a fierce fight followed, in which, it is alleged, several shots were fired by the civilians.

Kenny was arrested, but the others escaped. The police state they discovered later elaborate preparations had been made within the Vacuum Company's yards for firing the oil.

Kenny declined to talk of the charges against him. The court remanded him for a week.

ST. LAWRENCE AND PRODUCE MARKET

Good Average Trade on Saturday With Steady Prices.

At the St. Lawrence market on Saturday there was a fairly good average amount of farm produce of all kinds, with a liberal sprinkling of citizens and a generally good all-round market.

There is little doing in the way of poultry outside of chickens and older fowl, and prices held good and steady. Chickens sold around 50c to 55c a pound dressed, and fowl relatively a little lower.

Eggs started in around 90c to \$1.00 a dozen for the best-to-goodness strictly new-laid, but in the day eased off to 85c and a shade less. The market in eggs showed a wide range, but the retail stores to the cry for cheaper living which so many Toronto people were hoping was right upon us. A sharp spell would have the tendency to make prices firmer again.

Butter running around 50c to 55c, and then some. The butter market, like the hog market, is a conundrum. You cannot always tell where you are at. In the event, as every housekeeper knows, there is a wide range in the retail stores. It is selling at from 50c to 55c for creamery.

The average price of potatoes, as stated in another place is 25c a bag. Whether they will go higher or not remains to be seen. There does not seem to be much in the way of potatoes in the market. The pit potatoes are rotting badly. Wholesale warehousemen generally sell the stock of the week. The retail stores, however, are selling at from 40c to 45c a dozen, and in some cases, as every housekeeper knows, there is a big difference in size and quality.

On the St. Lawrence market local dealers are selling turnips at 50c a bag, carrots at 40c a bag, and cabbages at 30c a bag. The market in these vegetables is generally good, but the retail stores are selling at from 40c to 45c a dozen, and in some cases, as every housekeeper knows, there is a big difference in size and quality.
