A larger figure adorning the top and holding the flags represented the minister himself, while those on the edges of the two lower cakes represented his deacons, trustees and officers. CANTT GET A SCHOONER

Apparently there are many young men who do not know that arter Nov. 10 they will be classed as deserters and subject to arrest. The Halifax Chronicle states the case clearly and young men of Class A should lose no time in registering. The Chronicle says:

His present standing is that of a soldier on leave, and he must report on or before November 10 or his status will be that of a deserter from the ranks. He has been called out

The poor, unfortunate farmers! Facing poverty and ruin because they can only get \$4 a barrel for their potatoes in the local market! "The surplus production has been finding an outlet in the export trade to the United States," and yet potatoes are so scarce in St. John that higher prices are dolefully predicted.

If the maritime provinces have produced more potatoes than the producers can dispose of and if the price still remains at a figure which is regarded not only as high but extortionate, what is the food controller going to do about it?

The Canadian Railways Association has announced its solution of the probatoes can be shipped to other markets and thus avoid the necessity of lowering the price to a reasonable figure here.
