## CHEER UP! EARTH WON'T COLLAPSE JUST YET

BY HARRY B. HUNT.

Washington.—Did you ever wonder how big a hollow is being created inside Old Mother Earth by the millions of barrels of oil and the billions of cubic feet of gas being drained annually from her interior? Did it ever occur to you to wonder whether the old shell drawn empty, might some day cave in, collapse like a blown egg-shell, swallowing up the ruthless civilization which had sucked it dry?

If so, cease worrying! The pockets from which gas and oil are drawn are, comparatively, little more than air bubbles under the surface.

### Like Drops of Blood.

All the petroleum pumped to date is less, by comparison, than the letting of a dozen drops of blood from the veins of a normal man.

A statistically inclined scientist, out at the government Bureau of Standards, figured out the other day just how big a volume all the gasoline that ever had been refined would make. He admitted he was getting a bit worried, himself, over the rapidly increasing drain.

His figures, however, showed him that our entire production of gasoline, since gasoline was first refined, totaled less than one-half of one cubic mile!

### Get Your Pencil Busy.

The total of all petroleum so far produced amounts to only about two cubic miles.

Doesn't sound plausible, does it? Well, figure it out. A cubic foot contains six gallons. In gallons, then, a cubic mile would contain 883,187,122,000 gallons.

With our present high mark of consumption running about 600,000,000 gallons monthly, one cubic mile would contain enough gas to last us 14,72 months—or 122 years 8 months!

Just a little pocket-mark under the skin. That's all we've made so far.

Report of committee on pastoral supply.

Third Session—7:30 p. m.—7:30—Addresses by Rev. H. E. Stillwell and others representing our Foreign Mission work.

## Your faith in Kellogg's Bran can never be misplaced—IT IS ALL BRAN!

Kellogg's Bran, cooked and humbly, will permanently relieve the most severe cases of constipation because it is ALL BRAN—not a food mixture that cannot possibly have sufficient natural corrective properties. Once constipation gets into your system you must fight it to the finish. Kellogg's Bran is the weapon. It will win for you. Don't take half-way measures; don't temporize.

Kellogg's Bran is permanent relief for constipation if it is eaten regularly—at least two tablespoonsful daily in chronic cases, with each meal. And, Kellogg's is a taste delight because it is delicious and comes to you as a highly palatable, desirable food, as well as a corrective.

You will greatly enjoy Kellogg's Bran as a cereal; its nut-like flavor improves any hot or cold cereal, and innumerable inviting bakery batches can be made with Kellogg's. Try some Kellogg's Bran pancakes. They're great! Or, raisin bread or gem cake. Kellogg's recipes are printed on each package.

For health's sake, get the whole family eating Kellogg's Bran just as quickly as possible, because it is ALL BRAN and it will make over the health of every big and little member. Your physician will recommend Kellogg's Bran because it is positive and because it will sweep and cleanse and purify, and put color back into faded cheeks. It will help children grow big and strong; it will clear and tone and brace up the system of every one who eats it regularly. All grocers sell Kellogg's Bran because its use is universal!

Yesterday afternoon in the police court, Herbert Graham pleaded guilty to having intoxicated liquor on his premises, Haymarket square, and was fined \$200 which he paid.

Dr. A. G. Nicholls, pathologist, Halifax, testified that the cancerous growth in the breast of the dead woman was in an advanced stage, occupying about four-fifths of the breast. Cross-examined, he stated he was not prepared to say that Mrs. Clarke had not been suffering from cancer for some time before she died.

Dr. Nicholls found in the breast a slight trace of arsenic.

Wilfrid Kinley, druggist, testified concerning the sale of three ounces of arsenic, the legal receipts for which were signed "C. P."

The hearing adjourned until Thursday.

FAREWELL RECEPTION.

A farewell reception was tendered Mrs. George Blair and her daughter, Mrs. Bertha Patterson, at their home, 55 City road, last night by the members of the congregation of the Tabernacle church of which Mrs. Blair and Mrs. Patterson have been faithful and active members. They are to leave for Boston to make their home in that city and will be greatly missed in the Tabernacle church and in St. John.

Each was made the recipient of a parting gift last night, when the gifts were presented by Rev. A. I. Tedford, the pastor of the church, on behalf of the members present. Mrs. Blair is one of the oldest members of the congregation and Mrs. Patterson has been the president of the Sunshine Class of the church, a flourishing and enterprising organization.

FOR ANIMAL RESCUE LEAGUE.

The sale for the benefit of the Animal Rescue League that was lately held at Robb's by the following children, Muriel Hibbard, Jack Hibbard, Arthur, Margaret and Hamlin Fairweather, Winifred Scott and Leonard Tilley, realised the sum of \$7.80. Nearly all of these young people took part in organizing a former sale held a short time ago for the same good purpose. Their work and their kindness have been greatly appreciated by the League. The League has found another good friend in Miss Annie Fairweather to its funds, which at present are greatly in need of replenishing.

## EXPECT U. S. SHIPS TO TAKE GRAIN NOW

Chairman of Grain Commission Says Owners Misunderstood the Law

Winnipeg, Aug. 21.—An erroneous idea concerning the operation of the Inland Water Freight Rates Act, passed at the last session of Parliament, prevailed among United States vessel owners, said Chairman Leslie Boyd, K.C., of the Board of Grain Commissioners here today. They believed the act sanctioned the Board to cancel charters already in force and to set new rates.

Following conferences held with the vessel owners by Mr. Boyd and G. S. Wrona, statistician of the Dominion Government, and explanations as to the working of the new act, many of the owners indicated they would have their vessels in the Canadian grain carrying trade after they had completed their present contracts. Mr. Boyd is of the opinion that at least fifty United States vessels will be found taking grain cargoes from the head of the Lakes carrying the latter part of the season of navigation.

The commissioners were in session here today but further meetings with the Canadian shippers will not be necessary at the present time as the situation is no longer critical, it is stated.

## RUM PIRATES GOT \$20,000, POLICE SAY

Captain of Nova Scotia Schooner Shot Down and Believed Dying

Gloucester, Mass., Aug. 21.—The rum pirates who boarded the Nova Scotia schooner J. Scott Hankenson about 15 miles off Rockport yesterday and shot down the captain and cook, carried away about \$20,000 in cash from the schooner, police said today, they had reason to believe.

Evidence showed, they added, that liquor had been sold from the schooner in large quantities for some time past to rum-running boats from shore, and they were inclined to think that the pirates were customers who knew there was a large sum of money on board the schooner.

An abandoned 35-foot motor boat, bearing signs of an attempt to scuttle it, was found off the shore of the town and towed in here today. The authorities think that this is the boat from which the pirates made their attack upon the schooner's crew. Its only identifying marks were the letters "K" and the figures "12118" on the bow.

The cook, Harry Harn, is recovering from his bullet wounds in a hospital here and the police said that they would question him further. The captain, Arthur Moore, at the same hospital, is thought to be dying.

## HEARING ON CHARGE OF MANSLAUGHTER

Mahone Bay, N. S., Aug. 21.—At continuation here today of the preliminary hearing on the charge of manslaughter in connection with the death at Martin's River, recently of Mrs. J. J. Clarke, Fugate, the husband of the dead woman testified that both his wife and himself had been satisfied with the murder, which she was receiving from Bohner for cancer. In reply to a direct question by the counsel for the defendant, he had now no complaint to make. His wife's death occurred at 6 o'clock in the morning, and she had appeared all right at 5 o'clock.

Dr. A. G. Nicholls, pathologist, Halifax, testified that the cancerous growth in the breast of the dead woman was in an advanced stage, occupying about four-fifths of the breast. Cross-examined, he stated he was not prepared to say that Mrs. Clarke had not been suffering from cancer for some time before she died.

## Thwarts Hold-Up Of \$2,000 Payroll

Eyes Filled With Pepper, Messenger Clutches Money Box.

New York, Aug. 21.—Blinded by black pepper thrown into his face by two hold-up men in an effort to steal the \$2,000 payroll he carried, Henry Andriele, 23, a messenger employed by Mackintosh Brothers & Co., of 382 Fourth Avenue, managed to retain the wooden box containing the money. Frightened by his shouts, the two assailants fled.

Andriele drew the payroll from the vaults of the Manufacturers' Trust Company at Twenty-second Street and Fourth Avenue at 11 a. m. As he came out of the bank his eyes and nostrils were filled with the pepper. Andriele kept a grasp on the money box and shouted for help. Passers-by came to the rescue and Traffic Patrolman John Valoney chased one of the hold-up men. With other policemen, Maloney seized a man who by-standers said had been seen running from the scene of the attempted robbery.

Andriele was unable to identify the man, and after denials from the suspect that he was one of the pepper throwers he was released without giving his name. Andriele walked to his company's office and turned over the payroll.

Miss Margaret Ewart entertained her Sunday school class and a few

other friends at Seaside Park yesterday afternoon. Games and races were enjoyed and delicious refreshments were served. The children who won prizes were as follows: Cynthia Irvine, Marguerite Ewart, Nellie Brodie, Alice Ewart, and Mollie MacPherson. Everybody had a good time and voted the picnic a grand success.

## MOTHER HELD FOR MURDER.

Denies Intention to Kill Crying Baby, Smothered by Pillow.

New York, Aug. 22.—Mrs. Catherine Diamond, who is alleged to have smothered her son, James, 15 months old, by putting a pillow over his head in the home at 66 Linden Street, Brooklyn, to quiet his crying, was arraigned

on a charge of homicide.

She denied that she had intended to take the child's life. She was held without bail for examination.
