

"JUST TELL THEM TO CALL ON ME"

Mrs. Julia A. Barlow Says Tanlac Helped Her Wonderfully.

"Just tell anybody that doesn't believe what I say about Tanlac to call on me or write me and I'll tell them myself how wonderfully this medicine has helped me," was the statement made to the Tanlac representative a few days ago by Mrs. Julia A. Barlow who resides at 811 Rockland road, St. John, New Brunswick.

"The flu left me in such a weakened, run-down condition last winter that ever since then I haven't been able to walk any distance without giving completely out," continued Mrs. Barlow. "I had almost no appetite at all, and everything I ate gave me indigestion and caused so much gas to form on my stomach that it kept me nauseated and weak all the time. I was so nervous that I was never able to sleep well and I would get up every morning feeling so tired out, I could hardly drag myself out of the bed. I had rheumatism in my arms and hands and some days I would have pains all over my body, and at times my hands were swollen so bad that I could hardly use them."

"I decided to try Tanlac when I saw a statement in the paper from a woman troubled like I was and who said that Tanlac had entirely overcome all her troubles. I am certainly thankful to her for telling about her experience with Tanlac for now since I have tried it I can say just what she did and I want to make a statement myself and tell everybody what Tanlac has done for me. My appetite is simply fine and everything I eat agrees with me perfectly and I am not troubled with indigestion or gas in the least. The rheumatism has entirely left me and my nerves are in good condition and I sleep sound every night. I don't have that worn-out feeling any more and I take long walks now and never feel tired one bit. As long as I live I will never miss an opportunity to praise Tanlac for it will certainly do everything they say it will."

Tanlac is sold in St. John by Ross Drug Company and F. W. Munro under the personal direction of a special Tanlac representative. (Advt.)

FINE CONVENTION OF CHARLOTTE LIBERALS

Premier Foster in Attendance—H. M. Balkam President

St. Stephen, N. B., Nov. 6.—A most successful convention of the Liberal Association of Charlotte county was held here today, delegates from all parts of the county attending. Premier W. E. Foster was present and received a hearty reception. The gathering was held to hear the reports of the delegation which went to Ottawa to attend the Liberal convention at which Hon. MacKenzie King was elected leader.

Hon. Mr. Foster gave an able address. He spoke upon what his administration had done to improve roads, of his effort to have practical men at the head of the different departments and to have progressive policies adopted to meet the requirements of the times. He advocated the ownership of the waterways of the province by the government and said that it was the government's intention to give increased aid to the farmers and to those desiring to take up agriculture. H. M. Balkam was chosen president of the association for the county and P. E. McLaughlin, secretary. Speeches were made by W. F. Todd, G. M. Byron, N. Marks Mills and others. Resolutions pertaining to the fishing industry and to the re-organization of the association were passed, as well as a vote of thanks to Hon. Mr. Foster for his interest in attending.

INVEST NEST-EGG IN VICTORY BONDS

You Will be Losing Money if You Leave Your Savings in Bank

What about that \$100 nest-egg you have in the bank? Do you realize that if you leave it there for the next five years you will be depriving yourself of \$12.50 which you might have? Because if you leave it in the bank, at the end of five years it will have yielded you only \$15.

Whereas if you invest in Victory bonds it will have yielded you \$27.50. You might say, "Well, when it is in deposit in a bank I can use it at any time."

You can do the same thing when it is invested in Victory Bonds. A bank will give you cash for them at any time. You will simply be losing money by leaving your savings on deposit in a bank when you might invest them in Victory Bonds, 1919.

IF THIN AND NERVOUS, TRY PHOSPHATE

Nothing Like Plain Bitro-Phosphate to Put on Firm, Healthy Flesh and to Increase Strength, Vigor and Nerve Force.

Judging from the countless preparations and treatments which are continually being advertised for the purpose of making thin people fleshy, developing arms neck and bust, and replacing ugly hollows and angles by the soft curved lines of health and beauty, there are evidently thousands of men and women who keenly feel their excessive thinness.

Thinness and weakness are often due to starved nerves. Our bodies need more phosphate than is contained in modern foods. Physicians claim there is nothing that will supply this deficiency so well as the organic phosphate known among druggists as bitro-phosphate, which is inexpensive and is sold by most all druggists under a guarantee of satisfaction or money back. By feeding the nerves directly and by supplying the body cells with the necessary phosphoric food elements, bitro-phosphate should produce a welcome transformation in the appearance; the increase in weight frequently being astonishing.

Increase in weight also carries with it a general improvement in the health. Nervousness, sleeplessness and lack of energy, which nearly always accompany excessive thinness, should soon disappear, dull eyes ought to brighten, and pale cheeks glow with the bloom of perfect health. Miss Georgia Hamilton, who was once thin and frail, reporting her own experience, writes: "Bitro-Phosphate has brought about a magic transformation with me. I gained 15 pounds and never before felt so well."

CAUTION—While Bitro-Phosphate is unsurpassed for the relief of nervousness, general debility, etc., those taking it who do not desire to put on flesh should use extra care in avoiding fat-producing foods.

Overseas Nurses Guests Of Local Association

The entertainment was most heartily enjoyed by guests and hostesses. It was held in Bonds restaurant, with the orchestra supplying an excellent programme of music.
