GEO. OVEY IN A GOOD CUB COMEDY

Power, of Halifax, called the attention of spectators to the fact that the trotting record for the maritime provinces was 2.15 1/2. White Socks' fastest time was 2.11 1/2. Lacopia, owned by H. A. Belliveau, who won on Friday took second place. The crowd exceeded all expectations, being estimated 2,500 were present.

Twelve contestants were scheduled for the 221 race but five of these were drawn—Epeuis, of St. John; Albert J. of Amherst; Bill Be-Sure, of Bathurst; Barrington Chatham, and Jimmie Hawes, of Newcastle. Considerable difficulty was experienced in getting the horses away but finally they got off and spectators saw a good race. It was soon seen that Peter Farren was to be the winner. He took the lead and kept it all the way through. Texas John, owned by Fenwick and Landry, of Bathurst, was scheduled for the free-for-all but did not appear. The race was the most exciting of the meet. White Socks led in each heat, doing the mile in 2.11 1/2 in the second heat.

The full nine innings. The fans who were present witnessed a stellar match and were delighted at the showing of the married gentlemen. Next Saturday a collection will be taken up for the benefit of the Red Cross and it is expected that a bumper crowd will be on hand not only to witness a highly interesting game but also to help along the cause for which the game will be played.

The Giants and Victors will play a regular game this evening.

CAN YOU RUN A CAR

The World's greatest athletes and sportsmen have poured out their blood in a rich, red stream for humanity. In the scroll of history, the runners, the fighters, the jockeys, the ball players, in fact all "sports" will hold large space. There are those who follow the games who cannot get "over there." They are willing to do their share, but many have not had the idea impressed upon them that saving food, producing food, and buying bonds helped much. They do, but there is still more to be done.

Can you run a motor car?

There will be much work to be done soon, in the operation of threshers and binders. Learn to operate a farm machine, and help in this way. It's the work that tells.
