**Board of Trade Secretary's Letter to London Newspaper**

The following is a copy of a letter sent by R. E. Armstrong, board of trade secretary, to the London Finance.

June 6, 1914.

George O. Andrews, Esq., Manager The Financier, 49-57 Wool Exchange, Coleman St., London, E. C.

Dear Sir:—

I desire to acknowledge with thanks a receipt of a copy of the special imperial issue of the Financier. It is really a phenomenal production and affords a splendid idea of the world-wide financial activities of the British Empire. In this respect it ought to be very valuable.

It was particularly impressed with the special article on "What Shall We Do With Our Sons?" With the sentiments expressed by Sir Thomas Skinner, Bart. on behalf of Canada, I am in thorough accord. Our cities are already amply supplied with men, but the great land spaces are yet to be filled up, and it is in the filling of these that the opportunity for the British youth lies. Canada's greatest need today is men for her soil. The youthful Britisher who comes to Canada to carve out a home for himself as a farmer must not expect to find everything smooth for him. He must be prepared to do hard work, and he must likewise be prepared to swallow a little of his personal pride and serve for a time in the most cases of this kind if they are industrious and watchful, they soon make good on farms of their own in New Brunswick.

This remark does not apply with so much force to British immigrants who already possess a good knowledge of farming methods and Canadian ways generally.

It is a pleasure to British immigrants who already possess a good knowledge of farming methods and Canadian ways generally.
