Flogging For Those In White Slave Traffic

Police Worn Also Suggested at International Conference — A Little Impatience Over England's Land Reform Policy — Free Churchmen and the Education Bill

(Times Special Cable).

London, July 5.—Much interest has been aroused in a conference on white slave traffic being held in London this week.

The Lancashire dispute now centers mainly around the question of recognition of the laborers' union.

Free Churchmen were considerably perturbed this week by the Times announcement that the government intend to abandon their plan to introduce the education bill this session in order to lighten the government programme so that parliament may be prorogued in reassurance of the public.

The Education Bill

Some impatience is revealing itself in the Liberal ranks over delay in declining the government land reform policy.

Don't You Enjoy Music?

Wouldn't a piano make the evenings at home delightful? If you feel that the cost of a piano is a bit more than you want to pay, or if you only want one for temporary use, why don't you rent one?

CAMP WAS BEST ONE EVER HELD

A Review of The Training Time at Sussex

MANY VISITORS THIS YEAR

Work in the Various Branches of Service Remarkably Good and 10,000 Returned Much Benefited By the Drill

(Special To Times)

Sussex, N. B., July 4.—Camp Sussex of 1913 is no more. Yesterday saw the beginning of the end; today witnessed the final scene of every training from a little after noon yesterday the troops in squads, companies or regiments left the big camp grounds, continuing to do so throughout the night and until late this morning, until only the enormous stretch of green which for the last two weeks has sheltered close to 3,500 men bears a forlorn and deserted aspect.

It was the largest camp ever held in New Brunswick, and in many other respects it was remarkable, having several characteristics which would serve to stamp it upon the minds of the soldier boys who were here.

Gold Mine Riots Very Serious; Four Killed

Anarchy Regins, Buildings Are Set Afire and Troops Have to Shoot—Fear Outbreak of Natives as They Are Becoming Restless

Johannesburg, South Africa, July 5.—Complete anarchy prevailed here last night as a result of the strike of the gold miners. The authorities were obliged to order the troops to fire on the rioters, who applied the torch to the Star newspaper offices and another large building in the centre of the town, as well as to Bramfontein station.

Four Killed

Johannesburg, July 5.—Four civilians were killed, and fifty wounded in the midnight riots. The cavalry made repeated charges against the mobs, and wild confusion continued throughout the night, with most of the streets in darkness, the lamps having been destroyed by the rioters of the city. The rioters held up all outgoing trains.

Looks Very Serious

London, July 5.—The Johannesburg correspondent of the Daily Mail sends the following:—

The mob which seized the railway station at Johannesburg and the Bramfontein station, half a mile away, were unrestricted masters of the situation and had the railway officials at their mercy, while the troops and police were engaged in other parts of the city. The rioters held up all outgoing trains.

Drank Millions of Gallons More Than During Year 1911

Great Increase in Use of Liquors in the United States — Much Tobacco Consumed

Washington, July 5.—The American people drank more whiskey and beer, smoked more cigars and cigarettes, and chewed more tobacco during the fiscal year 1912 than in any other year of the nation's history, according to estimates based upon the record-breaking internal revenue receipts of the federal government for the twelve months ending June 30.

The drinkers of the country consumed 148,800,000 gallons of whiskey and brandy, an increase of 7,000,000 gallons over the previous year, and brought the former high record of the fiscal year 1907 by 7,000,000 gallons. They drank 64,800,000 barrels of beer, exceeding 1911's great record by more than 1,000,000 barrels.

Smokers puffed into space 7,071,000,000 cigars and 14,012,000,000 cigarettes during the year just closed. This was 217,000,000 cigars and 3,790,000,000 cigarettes more than ever before consumed in a single year. Patrons of the pipe smoked 408,200,000 pounds of tobacco, or 9,400,000 pounds more than the consumption of 1912. Chewers of snuff used 88,200,000 pounds, an increase of more than 8,000,000 pounds over the previous year.

Despite the high record consumption of intoxicants, returns to the internal revenue bureau show that the number of saloons of the country decreased by 18,000 during the year, the retail liquor dealers numbering about 450,000.

Assessments on drinking and smoking luxuries, on corporations and on oleomargarine and other articles taxed by the federal government brought into the United States treasury \$844,426,884, the greatest amount in history, exceeding the previous high record of 1911 by \$21,900,000.

Two Pianos Today

Two Sunday School picnics are slated for today. The Carleton Place Methodist church are holding theirs at Westfield Beach. A large number of children and parents left in the nine o'clock suburban train this morning and many more are expected to spend their half holiday on the grounds this afternoon. They will return at eight this evening.

The Sunday School scholars of the St. John Presbyterian and Calvin churches left this morning for Rothesay, where a programme of sports and baseball games will be held. The excellent bathing beaches will also afford a great deal of pleasure to the little ones and to the older people who are going out on the suburban at 11.5.

Hobble Was Too Much That Way; Case Goes to Court

Paris, July 5.—Legal convolutions more involved than the famous labyrinth of mythology to decide whether a woman must pay for a hobble skirt in which a sylph cannot even hobble have brought Parisian justices to the verge of nervous prostration and led Dame Justice gasping with indecision.

A woman bought a hobble skirt. She wanted it to be just as hobbly as the most stringent dictates of fashion demanded. When she got into the skirt she found her only practical method of locomotion had to be after the manner of the kangaroo.

She refused to pay the tailor. He sued her and the haggly over the hobble rang in court chambers for months. The original court ordered the woman to pay for her hobble skirt, and also the costs of the legal proceedings, but the higher court has now said that the woman shall pay for the hobble, and the tailor pay the law bills. But the court does not decide whether a hobbly or hobbly is a legitimately marketable piece of clothing.
