

join our Club. This was responded to in a hearty manner by quite a number of those who obtained commissions in Her Majesty's Regular Army.

Numerous reminders that subscriptions were due were also sent to several members at different times during the year, but these did not meet with the success which the Club has a right to expect, and it is to be hoped that in future the members who are now in arrears will be more prompt in their payments.

The finances of the Club are in a very satisfactory state.

Amount handed over from 1886.....	\$ 52 86
Amount received from membership up to the 20th January, 1888.....	44 37
Total.....	\$ 97 23
Amount expended to 20th January, 1888.....	16 93

Balance in hand..... \$ 80 30

A large number of the members are very careless about notifying the Secretary of any change in their address, and the importance of this cannot be exaggerated, as the Secretary is, in many cases, unable to send the address of a member to anyone asking for it, and is also unable to communicate with such members on business connected with the Club.

I would strongly recommend that a circular be issued to all members, asking their employment and for some permanent address that will always find them, and that the information so obtained be compiled and printed for distribution.

FRED. W. WHITE,

Secretary-Treasurer,

R. M. C. Club

Ottawa, Jan. 20th, 1888.
