Late Gossip Of The Sporting World At Home And Abroad

The Royal Road Begins When You Ride on GOODYEAR TIRES

Learn what it means to be fortified against tire trouble. Give yourself this priceless peace of mind just once and you'll not go back to lesser tires. Mishap and misuse may lead to trouble even in Goodyears. But that is rare, because these tires are fortified against it by five built-in defenses.

They protect against Rim-Cuts, against Blowouts, against Loose Treads, against Insecurity, against Punctures and Skidding.

These are exclusive Goodyear features that come in no other tire made. Yet today our prices are 37 per cent less than two years ago. Fast-growing output materially reduced factory cost per tire.

How to Make Sure

It's not what we say that counts, but what Goodyear Tires do. So our plea is for you to judge by running a Goodyear Tire and any rival tire on opposite wheels.

Thousands of motorists have made this test. And they found that tires priced less proved that they cost more per mile than Good-

year. That tires priced higher, on account of small output, are apt to collapse on the sides before the tread is worn, due to improper design.

The Goodyear Tire is built with an extra strong "carcass" to support the double-thick All-Weather tread. So Goodyears, with proper inflation, "stand up" till the tread is worn out. That means that they carry you hundreds of extra miles.

Break With Habit

Don't go on using a lesser tire because you're accustomed to buy it.

Cars and ideas have changed each year, remember, and Goodyears have kept pace. If you want most mileage for your money you'll break with old habit and give these new-day tires a trial.

Any dealer will furnish the Goodyear Tire. Get our new price on the size you use.

At the Suspension Bridge. The work of demolishing the old Suspension Bridge has progressed well and now all that remains of the structure are the cables, piers and about fifty feet of roadway at the eastern side of the river. At the western approach one of the vault mounds has been torn away but the anchorage for the cables has not yet been touched. Many people viewed the remains of the bridge yesterday from the new structure. It is expected that the cables will be removed during the present week.

The dependents of our brave lads in the trenches are looking to you for support. What about your donation to the Patriotic Auction?
