Chatham, June 24.—Capt. Duncan, the champion angler, has discovered a new beaver sottlement at the McCulley Meadows. He hasn't seen the beavers, but has seen the dam they are building of brush, mud and timber. There was a beaver colony there many years ago, and it was the overflow that was caused by their dam that created the meadows. Capt. Duncan finds that some beavers evidently spent last winter in the banks of the Napan river near the spot they have chosen as a damsite. Can supply for immediate shipmen may quantity of Mining Machiner; Rails, Locomotives, Mill Machiner; and all kinds of Electrical Equipmen etc. Frank O. Garson & Co., Canad Life Building.
