"It has been said that Christian Scientists are too familiar with God. They are familiar with God, because knowing him to be what he is, knowhim to be both the father and mother of all his children, they go to him with their troubles, sure that his love and wisdom will dispel them. It is just, however, in this connection to say that no peopleon earth so venerate, worship and adore him as do Christian Scientists. And this is true because he never fails them in their extremity.

Revelation From God.

"Mrs. Eddy never claimed Christian Science to be a creation of her own. It was revelation from God. The works accomplished through its ministry during the past fifty years justify her claim. She further felt that God gave it to her to give to mankind, that ignorance about him should be eliminated, thus destroying all the evils attendant upon such ignorance. We can now know the truth should God and was reupon such ignorance. We can now know the truth about God and about Christ,

"The Christian religion, the Christian faith, is unique in that it is the only one that has supplied a serious and worthy answer to the natural longing for a knowledge of what the future holds in store for us in an effective way, although all religions have and do seek to supply the natural yearning of the human heart, but only in a very vague way.

What might have proved a double fatality on Saturday, according to a statement made to an Advertiser Teporter, can only be placed to the credit of the children's good aprei, who most undoubtedly stood very to close to them when, with the rashness of child-hood, two little girls, neither more than seven or eight years of age, essayed to walk along the hand rail at the north side of the Kensington Bridge, which spans the north branch

Put Your Furs In Cold Storage

We have opened a fur cold storage to store, preserve and protect your furs during the summer months. Heat will damage furs. Fur-bearing animals inhabit northern regions, and that is the natural atmosphere for their pelts. In cold storage fur will stand out straight and fluffy; in heat it lies flat and mat-like, and what trouble you have to get it back to its natural condition! For a very small charge we will take your furs, place them in cold storage, insured or at owner's risk, as you wish, absolutely safe and free from any damage. The life of your fur will be prolonged by summer cold storage. Furs called for and delivered. Inquire in Fur Department, Second Floor.
