
THE SENATE OF CANADA.

J.]

BILL.

[1900.

An Act respecting the Atlantic and Lake Superior Railway Company.

WHEREAS a petition has been presented by the Atlantic and Lake Superior Railway Company, hereinafter called "the Company," praying that it may be enacted as hereinafter set forth, and it is expedient to grant the prayer of the said petition: Therefore Her Majesty, by and with the advice and consent of the Senate and House of Commons or Canada, enacts as follows:—

Preamble.

1893, c. 39;
1894, c. 63.

1. If the undertaking of the Company is not completed before the first day of June, one thousand nine hundred and five, the powers granted for the construction thereof by the Acts relating to the Company shall cease and determine as respects so much of the said undertaking as then remains uncompleted.
2. The Company may for the purposes of its business,—
- (a) acquire lands, water powers, and water courses, and erect, use, make and manage works, machinery and plant for the generation, transmission and distribution of electric and other power and energy;
- (b) dispose of such surplus power as is not required for the purposes of its business, either directly or by converting the same into electric and other power or energy;
- (c) locate, lease, acquire, work and sell mines, minerals and mining rights, timber and timber lands; and may develop such mines, and crush, smelt, reduce, amalgamate and dispose of the ores and products of any mines, whether belonging to the Company or not;
- (d) acquire, use and dispose of all buildings, machinery and plant requisite or necessary for carrying on or operating the said mines;
- (e) acquire, erect, use, operate and dispose of buildings, mills, works and machinery for the manufacturing of articles from wood, pulp, wood pulp, paper and other products from wood or wooden materials;
- (f) acquire any exclusive rights in letters patent, franchises or patent rights for the purposes hereby authorized and again dispose of such rights.

Time for completion extended.

Powers.

Water and electric power.

Disposal of surplus power.

Mines and timber.

Mining plant.

Manufactures of wood products.

Patent rights.
