Const Coy R.C.E. living duly sworn states:-
"I am a fitter in the M.T. Sec.

On 29 Dec. I repaired m/c. CC
5478472 and took it out for a
road test and found it satisfactory.

The front brake was not working.
When Sp. Halpern got the motorcycle
from me on the 30 Dec. He asked me
if the bike ran and I said yes but
it had no handbrake. Sp. Halpern
did not return the bike to me for repairs
on 30 Dec ~~repaired~~.

Cross-examined
I would not say the motorcycle
was in A.1 condition on 29 Dec.

The motor was satisfactory on
the road test.

I checked the front lights that
day and it was working. I don't know
if the horn was working.
