Little Buck

## Standard Brands.

The graceful curl of the smoke from an ABERDEEN cigar is a solace in cottage or in castle.

The inspiration from a BLACKSTONE brightens all difficulties, it brings peace and harmony out of trouble and discord.

These together with LITTLE BUCK—the smokers pride—banish melancholy from the land and are a real source of domestic bliss.

**Ladies admire the men** who select these brands, they know how to appreciate what is good, and these cigars are really choice, they excel in material as well as in delicacy of taste and in perfume
